MEMORANDUM

November 3, 2017

**To:** Nevada Board of Wildlife Commissioners, County Advisory Boards to Manage Wildlife, and Interested Publics

**From:** Tyler Turnipseed, Chief Game Warden

**Title:** **Regulation Changes: Commission General Regulation 475**

**Description:** The Commission will consider an NAC change to establish season dates for the field collection of shed antlers.

**CGR 475: Shed Antlers.** This proposed change would add a new section to NAC 503.

The proposed regulation change would place a seasonal closure on the field collection of deer and elk shed antlers. The change would establish a season open from April 15<sup>th</sup> to December 31<sup>st</sup> of each year. The antler collection season would be closed from January 1<sup>st</sup> through April 14<sup>th</sup> of each year.

Deer and elk annually shed their antlers. The cast off antlers or “sheds” have significant value as decorations, art media, or construction materials for items such as chandeliers, coat racks, wine racks, etc. As the value of shed antlers has increased, so have the interest, methods, and effort expended in shed antler collection. This proposed regulation is designed to protect deer and elk by preventing their harassment by shed antler collectors. When people search for shed antlers on occupied big game winter ranges during mid-winter animal concentrations, it can have negative effects on the animals’ nutritional condition, disrupt energy budgets, interrupt foraging activity, or cause animals to expend energy avoiding disruptions as they move from critical high quality winter range habitat onto lesser quality habitat.

This regulation was passed by the Nevada Board of Wildlife Commissioners in 2014, but then failed to pass its final round of approval at the Nevada Legislative Commission.
