

Good afternoon,

I would like to express my view or comment on the special use permit for United Site Services of Nevada, Inc.

It is totally mind boggling to me what you are asking this company to do for their Special use permit. This property is miles away from any neighbors. They are wanting to store things on this property not live on it. You are asking for a well to be put in Lighting... Paving.... A permanent structure.... I do not get it!

I can see having a taller fence to go around this to block the view of everything. I can see maybe graveling the road up to it and inside.. I can see having some sort of lighting so they can see bringing stuff in and out in the evenings. Maybe solar lighting.

What you are asking them to do is just ridiculous. It makes no sense at this property at all.. This is not in the city. Not even close to anyone or anything.

I see the storage yard on 447 on the highway by Empire has absolutely nothing that you are asking of Untied. It is an absolute eye sore and there is anything and everything stored in there!

I see the storage yard outside of Gerlach by the tracks on 447 has nothing you have asked of United.

I am asking you to please reconsider all of these things you are wanting to require them to do. It just makes no sense at all for this piece of property.

I have lived here all of my life and I love it here. It is definitely not the town I grew up in anymore but I would never allow anything on my property that I thought would be hurting anything or anyone. I do not see what storing port a potties or some vehicles is hurting anything. I agree it needs to be blocked from view but asking all of these other things makes absolutely no sense at all at this location.

I appreciate you taking the time to hear me out and I hope that you will consider what I have said here.

I am certain you will gather all the facts and make the right decision for this location.

Thank you for your time.

Sincerely,

Jola Guisasola-Mott
