Mr. Curt Rieger

RE: Volunteer Court Paving/Re-Paving and Additional Scope of Work

Dear Curt:

As you will recall, the Washoe County Board of Adjustment issued approval on Special Use Permit Case Number WSUP22-0005 on April 7, 2022. As part of that approval, the Board of Adjustment required the Applicant, as a Condition of Approval, to make off-site improvements on privately owned property along Volunteer Court.

Through many meetings with yourself, the other residents on Volunteer Court and with input from Washoe County staff, we pursued an alternative of constructing a new road on our property to meet that Condition of Approval. Under this alternative approach, each of the residents of Volunteer Court would have been granted exclusive access to the new road with new access points to each of the properties along Volunteer Court. As I have communicated to you, Washoe County staff unfortunately determined, after the months of work, the proposed alternative did not meet the intent of the Condition of Approval. As a result and for several different reasons on Thursday, April 4, 2024, we are now seeking removal of that Condition of Approval from the Washoe County Board of Adjustment.

Assuming the Washoe County Board of Adjustment votes to remove the paving/re-paving of Volunteer Court as a Condition of Approval, we still have every intent to deliver on that offer. Additionally and as you know, our original offer to pave/re-pave Volunteer Court never contemplated additional improvements for each of the property owners on Volunteer Court. However, we do recognize that our project will bring about change in the immediate area and so it is our intent to offer additional improvements to each of the property owners on Volunteer Court. We view this secondary offer of additional improvements on your property and your neighbors' properties as a good neighbor/good faith gesture and hope you view it as the same. All that said, please find enclosed the following items:

1. An aerial photograph (Exhibit A) of your immediate area showing the alignment of Volunteer Court. In this exhibit, Volunteer Court is denoted in gray and that gray area is where we are offering to pave/re-pave Volunteer Court for the benefit of all the residents.
2. An aerial photograph (Exhibit B) of your specific property. The map legend on Exhibit B shows areas of additional work that we are offering. These areas of offered additional improvements exclude the paved/re-paved area of Volunteer Court. You will want to compare your Exhibit B with Eric's Exhibit B so you both can see the extent of the additional improvements that we are offering on your property, Eric's property and the encroachment area on our property. I have outlined the additional improvement areas in red.
3. Scope of Work (Exhibit C) to your specific property. The Scope of Work is based off Exhibit B and provides a narrative of the additional improvements we are offering on your specific property.

We will continue to communicate with you and the other residents of Volunteer Court as to when the paving/repaving of Volunteer Court and construction of additional improvements will occur. Our access to your property for the paving/re-paving of Volunteer Court and the construction of the additional improvements will occur via separate document.

Curt, thank you in advance for your time in this matter. Upon completion of your review of the enclosed, please feel free to give me a call to address any questions or comments.

February 27, 2024

PRELIMINARY BUILD-OUT SPECIFICATION:

New Construction:

- +/- 4,000 sqft of 3" AC Type 2, PG64-22 Light Duty Paving and 4" Agg Base

EXCLUSIONS:

1. Any item not specifically addressed in these specifications

ADA: Alston Construction, Inc. will make every attempt to comply with the Americans with Disabilities Act; however, such regulations are subject to changes and interpretations by building officials, governmental agencies, and insurance companies. Therefore, additional project requirements may be incurred above and beyond the scope of work specified herein, and the cost of the project would change accordingly.

Cost Escalation: Due to the current market volatility in raw materials such as, but not necessarily limited to, concrete, steel, lumber, as well as rising fuel costs currently facing the construction industry; subcontractors & suppliers may not be able to honor their original pricing for more than seven (7) days. Alston Construction is taking steps with Owners to anticipate & mitigate cost and schedule impacts in the current market.
