Subject: Cargo Containers

Howdy folks! If you think you're going to force code restrictions on us about our cargo containers out here in Palomino Valley--agricultural zoning--you're out of your bloody minds! This is Ag Country Restored! We established that and it was codified in 2010. Our agricultural rights are sacrosanct and we're keeping our cargo containers, so get over it! You've been trying unsuccessfully to force this down our throats for at least 20 years, and it ain't gonna happen.

Thank you, Sharon T
