

Board of Adjustment Staff Report

Meeting Date: May 2, 2024

Agenda Item: 8D

SPECIAL USE PERMIT CASE NUMBER: WSUP24-0002 (Hodnefield Single Family Dwelling)

BRIEF SUMMARY OF REQUEST: To allow for the construction of a 6,637 square foot single family dwelling

STAFF PLANNER: Courtney Weiche, Senior Planner
Phone Number: 775.328.3608
E-mail: cweiche@washoecounty.gov

CASE DESCRIPTION

For hearing, discussion, and possible action to approve a special use permit for a 6,637-sf single family dwelling, with an existing 10,000 square foot retail commercial building, defined as a mixed-use project, at 250 Village Blvd. A special use permit is required for single family dwellings in the Incline Village Commercial (IV-C) regulatory zone. The applicant is also requesting to reduce the front and side yard setbacks.

Applicant: GilanFarr Architecture
 Property Owner: Hodnefield Community Property Trust
 Location: 250 Village Blvd.,
 Incline Village NV
 APN: 132-232-01
 Parcel Size: .826 acres (35,979-sf)
 Master Plan: Tahoe Incline Village Commercial (Tahoe IV-C)
 Regulatory Zone: Tahoe Incline Village Commercial (Tahoe IV-C)
 Area Plan: Tahoe
 Development Code: Authorized in Article 810, Special Use Permits
 Commission District: 1 – Commissioner Hill

STAFF RECOMMENDATION

APPROVE

APPROVE WITH CONDITIONS

DENY

POSSIBLE MOTION

I move that, after giving reasoned consideration to the information contained in the staff report and information received during the public hearing, the Washoe County Board of Adjustment deny Special Use Permit Case Number WSUP24-0002 for Hodnefield Community Property Trust, having been unable to make the applicable findings in accordance with Washoe County Code Section 110.810.30 and 110.804.25.

Additionally, Article 810, Special Use Permits, allows the Board of Adjustment to vary development code standards in conjunction with the approval process per WCC 110.810.20(e). Board of Adjustment will be ruling on the request(s) to vary standards below:

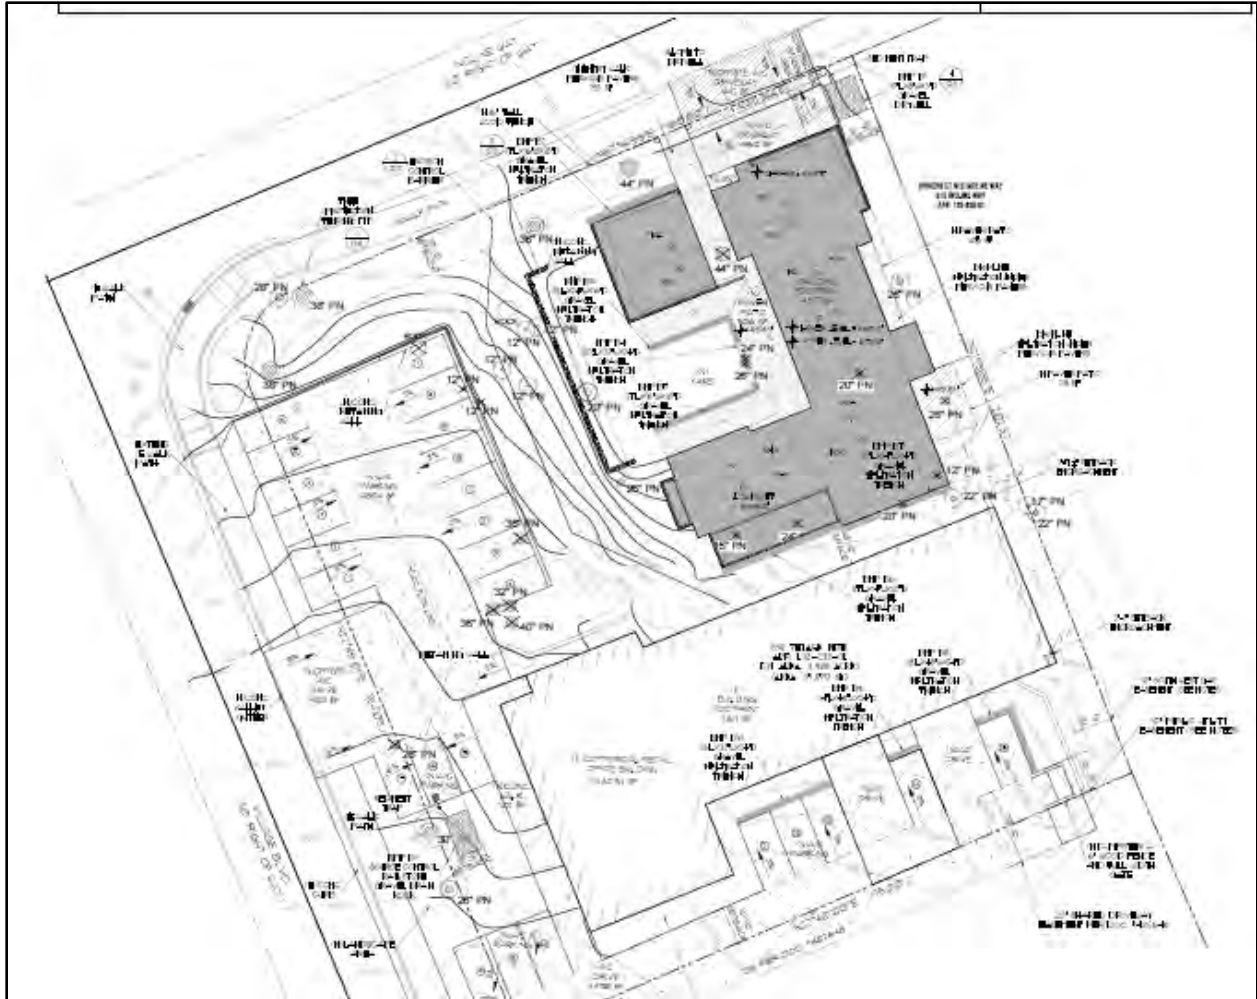

Variance(s) Requested	Relevant Code
Reduced side and front yard setbacks	Section 110.220.55 Yard and Lot Standards.

Special Use Permit

The purpose of a special use permit (SUP) is to allow a method of review to identify any potential harmful impacts on adjacent properties or surrounding areas for uses that may be appropriate within a regulatory zone; and to provide for a procedure whereby such uses might be permitted by further restricting or conditioning them so as to mitigate or eliminate possible adverse impacts. If the Board of Adjustment grants an approval of the special use permit, that approval is subject to conditions of approval. Conditions of approval are requirements that need to be completed during different stages of the proposed project. Those stages are typically:

- Prior to permit issuance (i.e. a grading permit, a building permit, etc.)
- Prior to obtaining a final inspection and/or a certificate of occupancy on a structure
- Prior to the issuance of a business license or other permits/licenses
- Some conditions of approval are referred to as “operational conditions.” These conditions must be continually complied with for the life of the business or project.

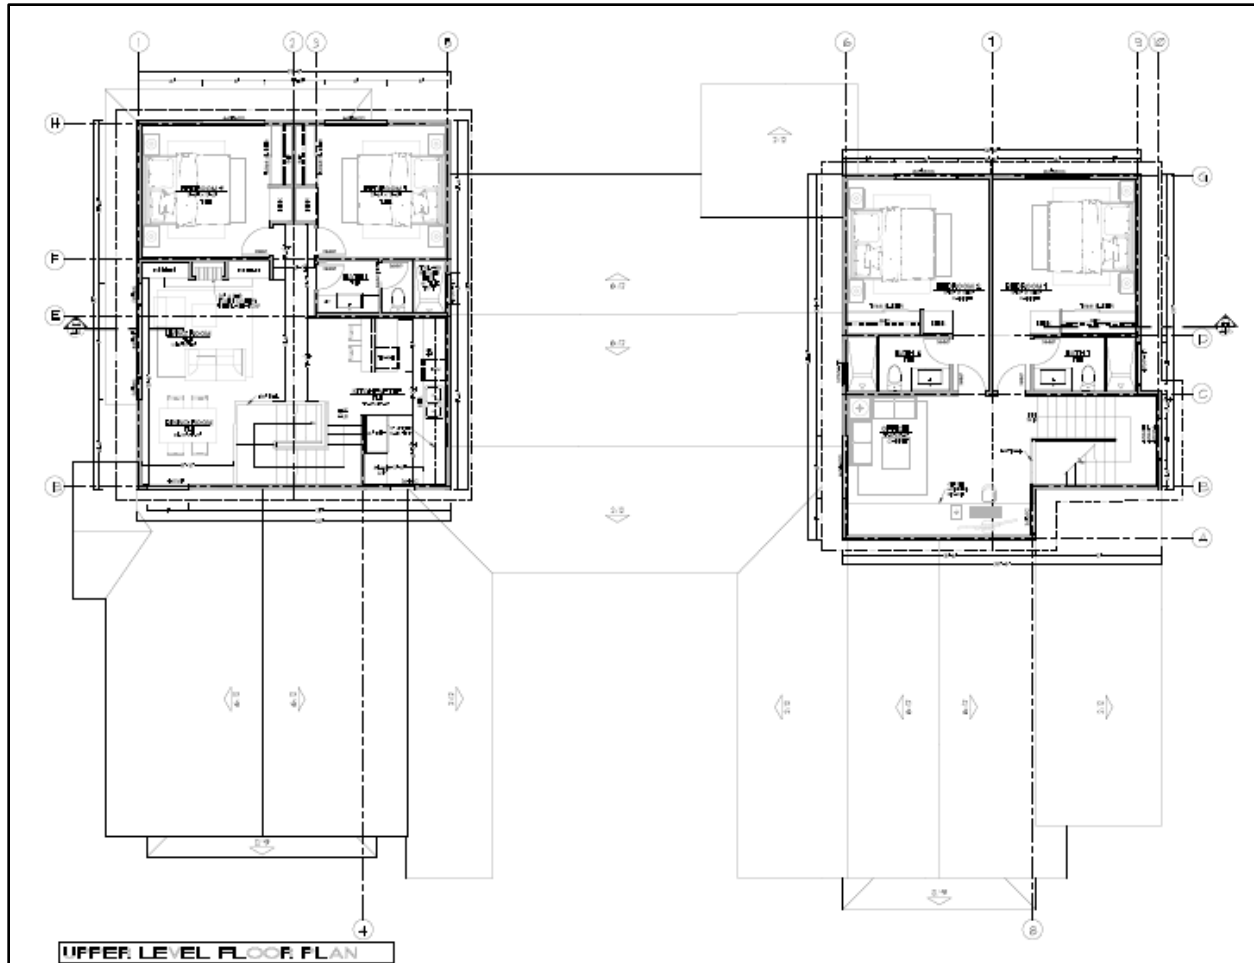

The subject property is designated as Incline Village – Commercial (IV-C). The proposed use of a single-family dwelling is permitted in IV-C with a special use permit per WCC 110.220.145. Therefore, the applicant is seeking approval of a special use permit from the Board of Adjustment.

Project Evaluation

The applicant is seeking approval of a special use permit to allow for a new 6,637-sf single family dwelling on a parcel (APN 132-232-01) with an existing 10,000 square foot retail commercial building. The parcel is located in the Incline Village – Commercial (IV-C) regulatory zone, per Section 110.220.145 single family dwellings require approval of a special use permit, see below table of allowable uses.

INCLINE VILLAGE COMMERCIAL REGULATORY ZONE		
Allowable Land Uses by Land Use Classification	Land Use Permit	Density
Residential		
Employee Housing	A	Based on other residential use densities
Multiple Family Dwelling	S	15 units per acre minimum 25 units per acre maximum
Multi-Person Dwelling	S	25 people per acre
Nursing and Personal Care (Section 110.220.410)	S	40 people per acre
Residential Care (Section 110.220.410)	S	40 people per acre
Single Family Dwellings	S	1 unit per parcel + 1 accessory dwelling where allowed by Section 110.220.85

The subject property is located on the corner of Incline Way and Village Blvd. All abutting properties are in the same regulatory zone of IV-C. To the north is a 4,300-sf office building, to the east is a 6-unit condominium complex and a 4,000-sf office building, to the south is a 3,000-sf commercial building, and to the west is a medical office and two undeveloped parcels.

The proposed project site is approximately 35,979-sf (±.82 acres) and is developed with an approximately 10,000-sf commercial building, with both warehouse and retail space uses, constructed in 1975.

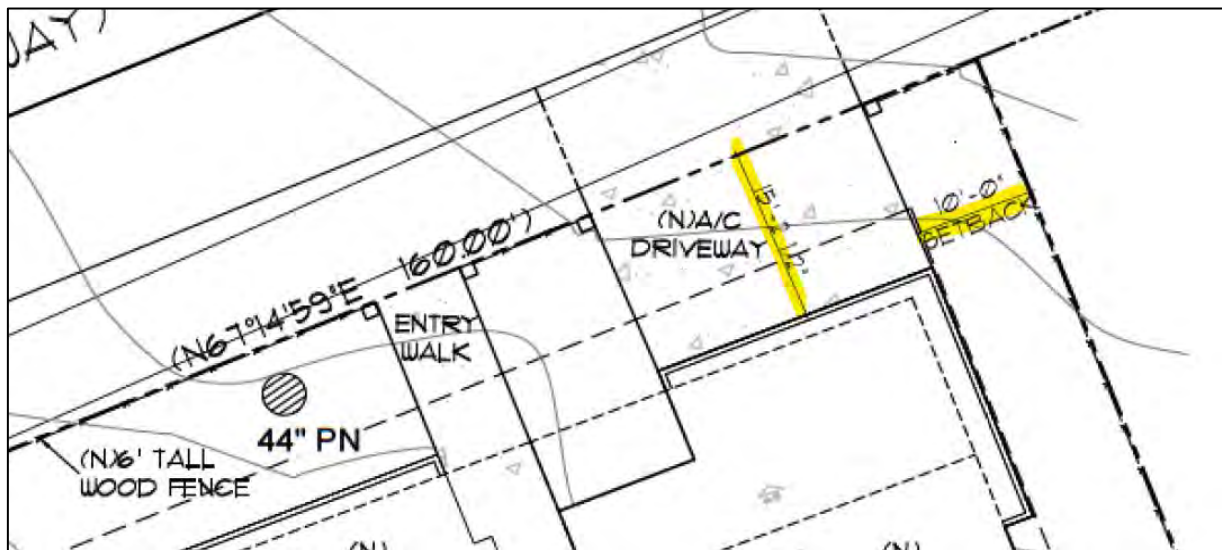

The proposed two-story single-family dwelling would include a primary bedroom, kitchen, 2-car garage, with three additional on-site parking spaces, a workshop and garden on the first floor and 4 bedrooms, a kitchenette and office on the second floor. Access to the proposed dwelling would be from Incline Way.

As proposed, the location of the single-family dwelling does not meet the minimum setbacks of 30' in the front and 12' on the sides for a residential use type for a parcel greater in size than 35,000 square feet per Section 110.220.55 Yard and Lot Standards, see below table.

Use Type and Parcel Size	Required Setback			Minimum Parcel Width (Feet)	Minimum Parcel Size (Square Feet)
	Front (Feet)	Side (Feet)	Rear (Feet)		
Residential					3,700 sf.
Greater Than 2.5 Acres	30	15	30	80 ft.	
35,000 Square Feet to 2.5 Acres	30	12	30	80 ft.	
12,000 Square Feet to 34,999.99 Square Feet	20	8	20	60 ft.	
5,000 Square Feet to 11,999.99 Square Feet	20	5	20	60 ft.	

When the Tahoe Area Plan was adopted in 2021, the general commercial (GC) zoning was removed resulting in a change of the setbacks to a more stringent standard based on the size of the property and the use proposed as identified in the table above. At the time the application was submitted, the applicant was unaware that the setbacks had changed and therefore designed the plans per the previous setbacks which were 10-feet from all property lines. Staff is unable to make the required findings specifically related to the request to vary the front and side yard setback reductions. For this reason, staff is recommending denial of this request.

As proposed, the setbacks are 15' 2" in the front yard and 10' on the east side yard, see below.

The proposed parking and access for the existing commercial building will be relocated to the west and south side of the parcel with access taken from Village Way. The commercial building currently has legal non-conforming number of parking spaces for the 10,000-sf commercial building (18 existing parking spaces) and proposes to increase the number of parking spaces to 25. While this is an improvement, the relocation and intensification of the proposed uses on the parcel requires the development to conform to current development standards.

The proposed number of parking spaces does not meet the minimum number of parking spaces per Table 110.410.10.3 of 30 spaces for "Retail Sales – Comparison Parking Spaces" (3 spaces per 1,000-sf). If the special use permit is approved, conditions of approval require the applicant to submit a "technically adequate parking analysis" per *Chapter 4 Parking, Loading, and Circulation, C. Modification of Standards: (4) Required Parking Spaces* to be approved by both TRPA and Washoe County prior to building permit approval.

The application indicates a landscape buffer between the residential and commercial use is proposed. If the special use permit is approved, a condition of approval would require a formal landscape plan to be submitted and approved prior to building permit approval.

Staff Comment on Special Use Permit Required Findings

WCC Section 110.810.30, Article 810, *Special Use Permits*, requires that all of the following findings be made to the satisfaction of the Washoe County Board of Adjustment before granting approval of the request. Staff has completed an analysis of the special use permit application and has determined that the proposal is not in compliance with the required findings, without approval of the required findings per Section 110.804.25, Article 804, Variance.

- (a) Consistency. That the proposed use is consistent with the action programs, policies, standards and maps of the Master Plan and the Tahoe Area Plan.

Staff Comment: The proposed location of the single-family dwelling does not meet the minimum setback standards per Section 110.220.55 Yard and Lot Standards for the size of the parcel; therefore this finding can not be met without approval of findings required per Section 110.804.25, Article 804, Variances.

- (b) Improvements. That adequate utilities, roadway improvements, sanitation, water supply, drainage, and other necessary facilities have been provided, the proposed improvements are properly related to existing and proposed roadways, and an adequate public facilities determination has been made in accordance with Division Seven.

Staff Comment: The proposed dwelling is required to comply with all Incline Village Improvement District (IVGID) construction requirements for all water and wastewater connection (including fees and a water rights application) as identified in Exhibit A – Agency Comments (IVGID). The Engineering Division reviewed the application and provided conditions of approval with no opposition. The Roads Division indicated concerns with the proposed 6’ fence along Incline Way having negative impacts associated with snow removal. If approved, conditions of approval would require the fence to be a maximum of 3’ in height, which the applicant has agreed to.

- (c) Site Suitability. That the site is physically suitable for a single family dwelling, mixed-use development, and for the intensity of such a development.

Staff Comment: The proposal is for a single-family dwelling and an existing commercial building. As proposed, the location of the dwelling does not meet the minimum required front and side yard setbacks per Section 110.220.55 Yard and Lot Standards for the size of the parcel; therefore, this finding cannot be met without approval of the findings required per Section 110.804.25, Variances.

Further, the proposed number of parking spaces does not meet the minimum number of parking spaces per Table 110.410.10.3 of 30 spaces for “Retail Sales – Comparison Parking Spaces”. If the special use permit is approved, conditions of approval would require the applicant to submit a “technically adequate parking analysis” per Chapter 4 Parking, Loading, and Circulation, C. Modification of Standards: (4) Required Parking Spaces approved by both TRPA and Washoe County prior to building permit approval.

- (d) Issuance Not Detrimental. That issuance of the permit will not be significantly detrimental to the public health, safety or welfare; injurious to the property or improvements of adjacent properties; or detrimental to the character of the surrounding area.

Staff Comment: The parcel has an existing commercial building on the property. If the special use permit is approved, conditions of approval for the addition of the proposed single-family dwelling will have minimal impacts to the surrounding area.

- (e) Effect on a Military Installation. Issuance of the permit will not have a detrimental effect on the location, purpose or mission of the military installation.

Staff Comment: There are no military installations in the area.

Staff Comment on Required Findings

Washoe County Development Code Section 110.804.25, Article 804, Variances, requires that all of the following findings be made to the satisfaction of the Washoe County Board of Adjustment before granting approval of the request. Staff has completed an analysis of the variance application and has determined that the proposal is not in compliance with the required findings as follows.

- (a) Special Circumstances. Because of the special circumstances applicable to the property, including exceptional narrowness, shallowness or shape of the specific piece of property; exceptional topographic conditions; extraordinary and exceptional situation or condition of the property and/or location of surroundings; the strict application of the regulation results in exceptional and undue hardships upon the owner of the property.

Staff Comment: The parcel has no exceptional narrowness, shallowness or shape of the specific piece of property; no exceptional topographic conditions; no extraordinary and exceptional situation or condition of the property and/or location of surroundings. The strict application of the regulation does not result in exceptional and undue hardships upon the owner of the property, as the owner is not being deprived of developing the property in the same manner as surrounding properties.

- (b) No Detriment. The relief will not create a substantial detriment to the public good, substantially impair affected natural resources or impair the intent and purpose of the Development Code or applicable policies under which the variance is granted.

Staff Comment: There are no identifiable special circumstances applicable to the subject parcel and granting the variance would impair the intent and purpose of the Development Code. There is no basis to allow development that does not conform to generally applicable code requirements, such as yard setbacks, with no special circumstances, so this finding cannot be made to support approval of varying the standards via this special use permit.

- (c) No Special Privileges. The granting of the variance will not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and the identical regulatory zone in which the property is situated.

Staff Comment: There are no special circumstances applicable to the property, so approval of the requested variance has the potential to grant special privileges by allowing the garage and living space to be constructed within the required front and side yard setbacks. There is no basis to allow development that does not conform to generally applicable Code requirements, such as yard setbacks, with no special circumstances, so a finding of 'no special privileges' cannot be made to support approval of varying such a standard via this special use permit.

- (d) Use Authorized. The variance will not authorize a use or activity which is not otherwise expressly authorized by the regulation governing the parcel of property.

Staff Comment: There are no identifiable special circumstances applicable to the subject parcel; granting varying the standard would impair the intent and purpose of the Development Code and would authorize a use or activity, which is not otherwise expressly authorized by the standards and regulations governing the subject parcel. While a single-family dwelling is an allowable use subject to a special use permit, there is no basis to allow development that does not conform to generally applicable Code requirements (such as required yard setbacks) without identifiable special circumstances, so this finding cannot be made to support approval of varying the standard via this special use permit.

- (e) Effect on a Military Installation. Issuance of the permit will not have a detrimental effect on the location, purpose or mission of the military installation.

Staff Comment: There are no military installations in the area.

Recommendation

After a thorough analysis and review, Special Use Permit Case Number WSUP24-0002 is being recommended for denial. Staff offers the following motion for the Board's consideration.

Motion

I move that, after giving reasoned consideration to the information contained in the staff report and information received during the public hearing, the Washoe County Board of Adjustment deny Special Use Permit Case Number WSUP24-0002 for Hodnefield Community Property Trust, having been unable to make the required findings in accordance with Washoe County Code Section 110.810.30 and 110.804.25:

Washoe County Code Section 110.810.30 Special Use Permit Findings

- (a) Consistency. That the proposed use is not consistent with the action programs, policies, standards and maps of the Master Plan and the Tahoe Area Plan;
- (b) Improvements. That adequate utilities, roadway improvements, sanitation, water supply, drainage, and other necessary facilities have been provided, the proposed improvements are properly related to existing and proposed roadways, and an adequate public facilities determination has been made in accordance with Division Seven;
- (c) Site Suitability. That the site is physically suitable for a single-family dwelling and is capable of meeting the required setbacks, and for the intensity of such a development;
- (d) Issuance Not Detrimental. That issuance of the permit will not be significantly detrimental to the public health, safety or welfare; injurious to the property or improvements of adjacent properties; or detrimental to the character of the surrounding area;

- (e) Effect on a Military Installation. Issuance of the permit will not have a detrimental effect on the location, purpose or mission of the military installation.

Washoe County Code Section 110.804.25 Variance Findings

- (a) Special Circumstances. There are no special circumstances applicable to the property, including exceptional narrowness, shallowness or shape of the specific piece of property; exceptional topographic conditions; extraordinary and exceptional situation or condition of the property and/or location of surroundings; the strict application of the regulation does not result in an exceptional and undue hardship upon the owner of the property;
- (b) No Detriment. No Detriment. The relief will create a detriment to the public good because it will impair the intent and purpose of the Development Code or applicable policies under which a variance can be granted;
- (c) No Special Privileges. The granting of the variance may constitute a granting of special privileges inconsistent with the limitations upon other properties in the vicinity and the identical regulatory zone in which the property is situated;
- (d) Use Authorized. The variance will not authorize a use or activity which is not otherwise expressly authorized by the regulation governing the parcel of property; however, allowing development that does not conform to generally applicable Code requirements (such as required yard setbacks) without identifiable special circumstances, is inconsistent with the required finding.
- (e) Effect on a Military Installation. Issuance of the permit will not have a detrimental effect on the location, purpose or mission of the military installation.

Appeal Process

Board of Adjustment action will be effective 10 calendar days after the written decision is filed with the Secretary to the Board of Adjustment and mailed to the applicant, unless the action is appealed to the Washoe County Board of County Commissioners, in which case the outcome of the appeal shall be determined by the Washoe County Board of County Commissioners. Any appeal must be filed in writing with the Planning and Building Division within 10 calendar days from the date the written decision is filed with the Secretary to the Board of Adjustment and mailed to the applicant.

Re: Special Use Permit for **250 Village WSUP24-0002**
APN 132-232-01

GENERAL PROJECT DISCUSSION

Washoe County Engineering staff has reviewed the above referenced application. The Special Use Permit is for the construction of a 6,637 square foot single family dwelling in a commercial zone and is located on approximately 0.826 acres north of Southwood Boulevard on the east side of Village Boulevard south of Tahoe Boulevard. The Engineering and Capital Projects Division recommends approval with the following comments and conditions of approval which supplement applicable County Code and are based upon our review of the site and the application prepared by GilanFarr Architecture. The County Engineer shall determine compliance with the following conditions of approval.

For questions related to sections below, please contact the staff's name referenced.

GENERAL CONDITIONS

Contact Information: Robert Wimer, P.E. (775) 328-2059

Conditions:

1. A complete set of construction improvement drawings, including an on-site grading plan, shall be submitted when applying for a building/grading permit. Grading shall comply with best management practices (BMP's) and shall include detailed plans for grading, site drainage, erosion control (including BMP locations and installation details), slope stabilization, and mosquito abatement. Placement or removal of any excavated materials shall be indicated on the grading plan. Silts shall be controlled on-site and not allowed onto adjacent property.
2. Operations and Maintenance (O&M) Manual: The developer shall submit an O&M manual for use by the owner that identifies ongoing and long-term maintenance of infrastructure items including, but not necessarily limited to, retaining walls, rockery walls, and pedestrian sidewalks or pathways for review and approval by the County Engineer prior to the approval of any grading or building permit for this project. The O&M manual shall address inspection frequency, types of equipment to be used for the operation and maintenance of the improvements, and a site plan that graphically depicts the access points and features that will be owned and maintained by the owner.

DRAINAGE (COUNTY CODE 110.416, 110.420, and 110.421)

Contact Information: Robert Wimer, P.E. (775) 328-2059

Conditions:

1. The following note shall be added to the construction drawings; "All properties, regardless of if they are located within or outside of a FEMA designated flood zone, may be subject to flooding. The property owner is required to maintain all drainage easements and natural drainages and not perform or allow unpermitted and unapproved modifications to the property that may have detrimental impacts to surrounding properties."

TRAFFIC AND ROADWAY (COUNTY CODE 110.436)

Contact Information: Mitchell Fink, P.E. (775) 328-2050

Conditions:

1. All roadway improvements necessary (including but not limited to, curb, gutter, sidewalk, signing and striping, driveway access, and street lighting) to serve the project shall be designed and constructed to County standards and specifications to the satisfaction of the County Engineer.
2. The applicant shall submit an encroachment and excavation permit application for review and approval for any construction within Washoe County Right of Way.
3. The applicant shall submit a Revocable Occupancy Permit application for review and approval for any private improvements (landscaping, parking, etc.) in the Washoe County Right of Way.
4. Proposed fences constructed along the Washoe County Right of Way shall meet sight visibility requirements. The design shall comply with AASHTO sight distance standards.

UTILITIES (County Code 422 & Sewer Ordinance)

Contact Information: Alexander Mayorga, P.E. (775) 328-2313

Conditions:

1. All necessary utilities shall be stubbed beyond the edge of pavement for future development to the satisfaction of the County Engineer.
2. The applicant shall conform to all conditions imposed by intergovernmental agreements required to provide sewer and reclaim water service to the subject project, and, if required, be a party to any such agreements.
3. The applicant shall conform to all Washoe County utility design standards, including but not limited to, gravity sewer collection system, lift station design, and reclaim water design.

Hello Courtney,

With regard to the #4 Special Use Permit Case Number WSUP24-0002 (250 Village) - Board of Adjustment meeting scheduled for May 2, 2024.

NLTFPD is now aware about this project and will do a compliance review upon the formal submission of Washoe County for a building permit.

Respectfully,

John James
Fire Marshal

I see no issues with Case #1 (Gamblers Run Music Festival).

Case #3 (250 Village Blvd) poses snow removal storage concerns with the 6ft wood fence that borders the AC pedestrian path along Incline Way. It is my belief that the proposed fence would be too close to the pedestrian path and allow for less than adequate snow storage. If the wood fence were to tie into the property of 908 Incline I would see no issues with snow removal storage.

Re: Special Use Permit Case Number WSUP24-0002 (250 Village)

GENERAL PROJECT DISCUSSION

For hearing, discussion, and possible action to approve a special use permit for a 6,637 square foot single family dwelling with an existing 10,000 square foot retail commercial building, defined as a mixed use project, at 250 Village Blvd. A special use permit is required for single family dwellings in the Incline Village Commercial regulatory zone.

The Community Services Department (CSD) recommends approval of this project with the following Water Rights conditions:

No water rights conditions for this permit. Applicant shall comply with IVGID standards for development.

Public Notice

Washoe County Code requires that public notification for a special use permit must be mailed to a minimum of 30 separate property owners within a minimum 500-foot radius of the subject property a minimum of 10 days prior to the public hearing date. A notice setting forth the time, place, purpose of hearing, a description of the request and the land involved was sent within a 500-foot radius of the subject property. A total of 81 separate property owners were noticed a minimum of 10 days prior to the public hearing date.

Special Use Permit Application Supplemental Information

(All required information may be separately attached)

1. What is the project being requested?

There is an existing 10000 SF office commercial building. We propose to add a new 6637 sf SFD As part of the development we propose to modify the drive approach and parking area associated with the commercial building to incorporate a better street presence and landscaping

2. Provide a site plan with all existing and proposed structures (e.g. new structures, roadway improvements, utilities, sanitation, water supply, drainage, parking, signs, etc.)

See Attached

3. What is the intended phasing schedule for the construction and completion of the project?

Within two years of issue permit, intending to begin May 1,2024 with completion in summer of 2025 this would include renovation of the commercial building parking area

4. What physical characteristics of your location and/or premises are especially suited to deal with the impacts and the intensity of your proposed use?

The incline village commercial regulatory zone promotes mixed use development. There are a number of other projects in this area that have incorporated residential with their commercial use

5. What are the anticipated beneficial aspects or affects your project will have on adjacent properties and the community?

the opportunity for a live work environment in adjacent to the downtown core will reduce vehicle trips

6. What are the anticipated negative impacts or affect your project will have on adjacent properties? How will you mitigate these impacts?

we do not anticipate any negative impacts

7. Provide specific information on landscaping, parking, type of signs and lighting, and all other code requirements pertinent to the type of use being purposed. Show and indicate these requirements on submitted drawings with the application.

The Single Family Dwelling will have parking separate from the commercial spaces. We propose a landscape buffer between residential and commercial use. The commercial parking and landscaping will be upgraded to meet the plan area standards.

8. Are there any restrictive covenants, recorded conditions, or deed restrictions (CC&Rs) that apply to the area subject to the special use permit request? (If so, please attach a copy.)

<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
------------------------------	--

9. Utilities:

a. Sewer Service	ivgid
b. Electrical Service	nv energy
c. Telephone Service	att
d. LPG or Natural Gas Service	southwest
e. Solid Waste Disposal Service	ivgid
f. Cable Television Service	spectrum
g. Water Service	ivgid

For most uses, Washoe County Code, Chapter 110, Article 422, Water and Sewer Resource Requirements, requires the dedication of water rights to Washoe County. Please indicate the type and quantity of water rights you have available should dedication be required.

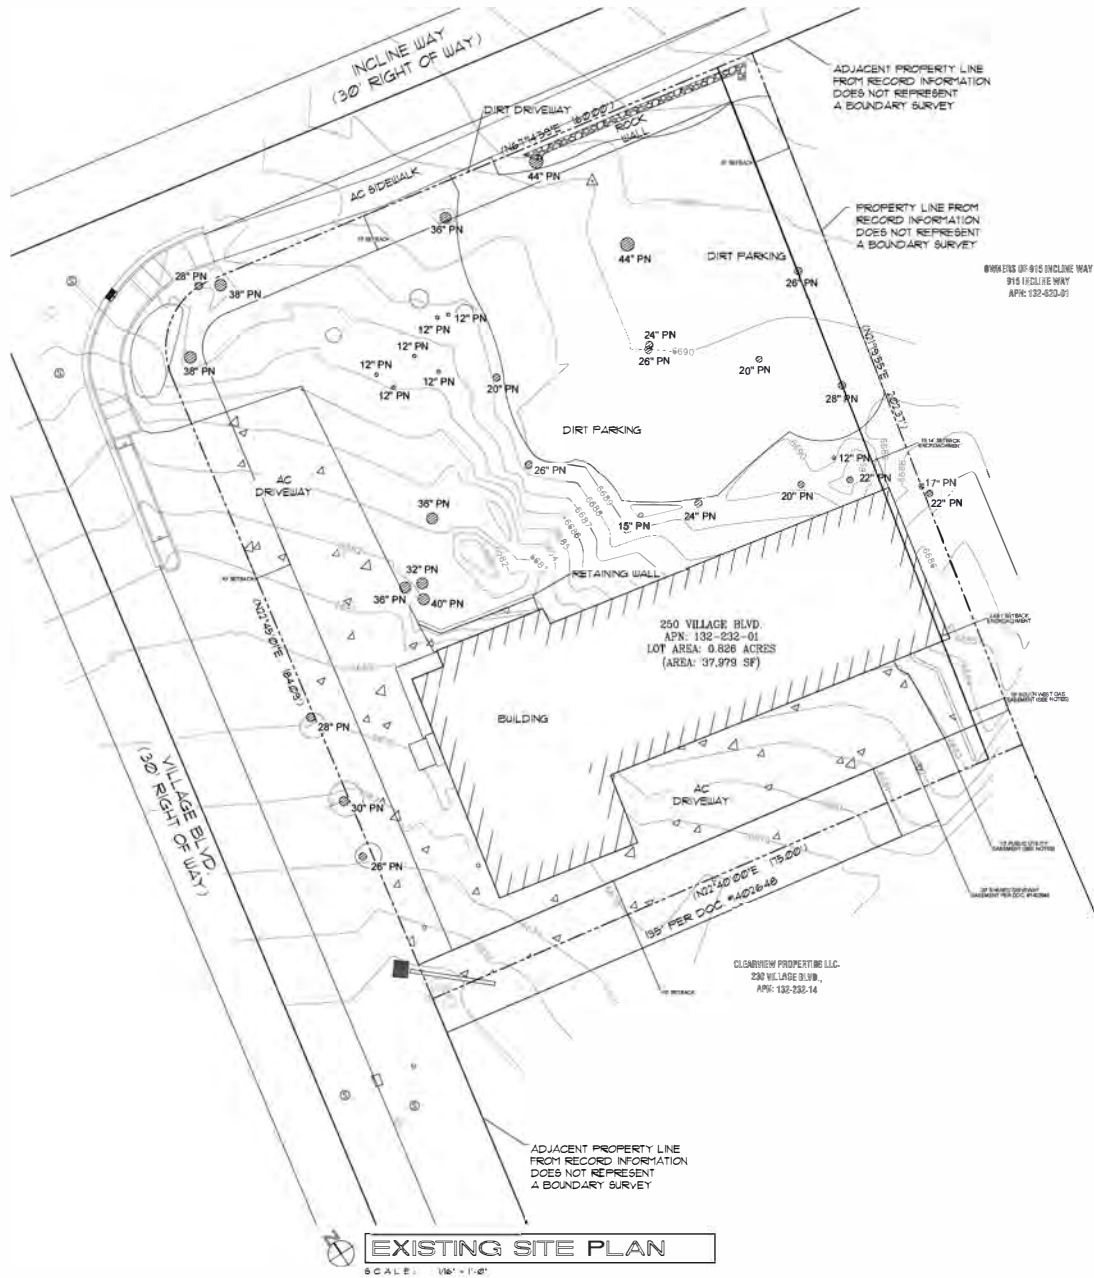

h. Permit #	N/A	acre-feet per year	
i. Certificate #	N/A	acre-feet per year	
j. Surface Claim #	N/A	acre-feet per year	
k. Other #	N/A	acre-feet per year	

Title of those rights (as filed with the State Engineer in the Division of Water Resources of the Department of Conservation and Natural Resources).

N/A
