

Antibiogram 2007 Washoe County Installation Instructions

1. Unzip the files contained in “antibiogram2007.zip” to a location on your computer.
2. If you wish to view the antibiogram from your desktop or laptop computer, open the file “orgs.xml” from Internet Explorer. It has been tested and known to work with Internet Explorer 6 & 7 and requires JavaScript to be enabled. You may receive a warning stating “To help protect your security, Internet Explorer has restricted this file from showing active content that could access your computer. Click here for options...” It is safe to allow the active content in this file to run. Continue to step 4.
3. If you wish to view the antibiogram from your Pocket PC, transfer all 3 files from “antibiogram2007.zip” to your Pocket PC. Use File Explorer to navigate to where you placed the 3 files. Tap on the “orgs” file and it will open up in Internet Explorer. It has been tested in Pocket PC version 4.20.1081.
4. Read the “To read this antibiogram:” section at the bottom of the page for information on the data and how it is presented.
5. To see the antibiotic susceptibilities for each organism, click on the “Show” button.
6. To get back to the main screen on the Pocket PC, click on the Internet Explorer refresh icon. If you are on a desktop or laptop computer, click on the Internet Explorer Back button.

Note: You can also find the antibiogram online at <http://www.washoecounty.us/health/ephp/antibiogram.php>.
