

Stay Informed...Stay Healthy!!

Washoe County District Health Department Public Health Preparedness Program

What is a public health emergency?

- Disease outbreak - can occur naturally or as a result of bioterrorism.
- Mass casualty incident (when a large number of people are ill or injured) – resulting from a natural, accidental or intentional disaster.

What does the health department do?

- Provide education & training to local doctors, nurses and public health professionals.
- Conduct surveillance so that we can identify when a disease outbreak occurs in our area.
- Set up temporary clinics to provide vaccines or medications to a large number of people *if needed* during a public health emergency.
