

What Forms of Payment Does the Building & Safety Department Accept?

Currently the Washoe County Department of Building & Safety accepts cash, check or credit card payments for plan check fees and permit fees. We currently are able to process ATM/Check Cards and Credit Cards. We accept Visa, Master Card and Discover Card and American Express cards at this time.

Please Note: If you are making the final permit issuance payment when picking up a new residence or commercial building or tenant improvement permit, you can only use the credit card/ATM card to pay for the Building Department portion of the fees. Payment for RTC, Parks Tax and Water Resources portion of the fees must be paid in cash or check.

This also applies to any and all TRPA payments that must be made either at time of submittal or issuance.
