Spreading sandbags and holiday cheer!

We received an email last week of an elderly woman in need. Her basement was flooding, and the water was getting closer to her furnace. If water made it to her furnace, she would lose her heat and could have a frigid week! Our amazing Human Services Agency staff filled sandbags, loaded them in several vehicles, drove to the woman's house and built the sandbag barrier to keep water out. This was a wonderful example of compassion, teamwork and the holiday spirit!
