

# Emergency Management & Homeland Security

#### 13 Hazards

- Wildland Fire
- 2. Earthquake
- 3. Flood
- 4. Transportation Incident
- 5. Extreme Weather
- 6. Drought
- 7. Hazardous Materials
- 8. Infectious Disease

- 9. Avalanche/Landslide
- 10. Volcano
- 11. Criminal Acts
- 12. Radiological Waste Transport
- 13. Energy Emergency

# Emergency preparedness starts with you

# be prepared

# **Personal Preparedness**

- 1. Make A Plan:
  - What to do depending on the hazard
  - Meeting place inside & outside the neighborhood
  - How to contact each other
  - Make a map
  - Keep a full tank of gas
  - Communicate your plan to others

## **Personal Preparedness**

#### 2. Have Kits:

- a. Home/Shelter in Place:
  - i. Water
  - ii. Food
  - iii. Plastic sheeting
  - iv. Duct Tape
  - v. First Aid Supplies
  - vi. Flashlights
  - vii. Mask
  - viii.Fire Extinguisher
  - ix. Radio

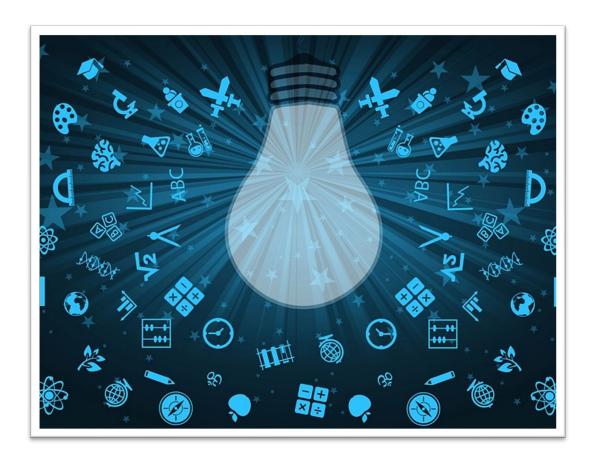

#### b. GO KIT

- i. Copies of important documents
- ii. Prescriptions
- iii. Cash
- iv. Food
- v. Water
- vi. First Aid Kit
- vii. Clothes
- viii.Whistle
- ix. Mask
- x. Duct Tape
- xi. Pet Supplies
- xii. Toiletries

# **Personal Preparedness**

- 3. Stay Informed:
  - Learn what risks/disasters could impact you
  - Know what to expect
  - Know where to get information in a disaster:
    - www.Emergencywashoe.com
    - Perimetermap.com
    - Trusted Local Media
    - Verified Social Media Accounts

#### **Flow of Events**

- Incident Occurs
- Threat to the population is determined
- Request for evacuation Alert sent to WCEM
- WCEM Activates the Emergency Shelter Council (ESC)
- Evacuation/Shelter location is determined & included in alert
- Alert is sent

### **Alerts**

- Information includes:
  - Type of threat
  - Area being evacuated
  - Where to go
    - Evacuation point or shelter location
  - How to find information
    - Traditional and social media
    - www.Emergencywashoe.com
    - Perimetermap.com

# **Alerting Tool (CodeRED)**

- Allows individuals to choose the method they prefer to be notified.
- WCEM staff draws a polygon larger than the evacuation area and sends the following:
  - EAS
  - WEA
  - Social Media
  - Email
  - Text
  - Voicemail

# Challenges

- Communication
- Situational Awareness
- Personal Awareness
- Informing the community
- Consistency

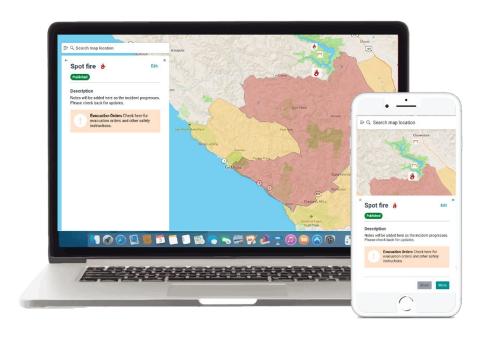

# **PARTNERS**

Real-time communication between fire, law, emergency management, and the public during disasters.

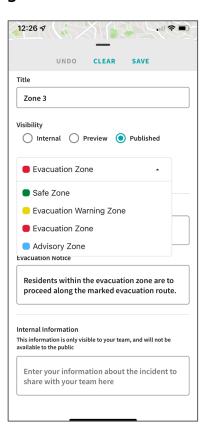

#### **Pre-planning**

Testing and training with first responders.

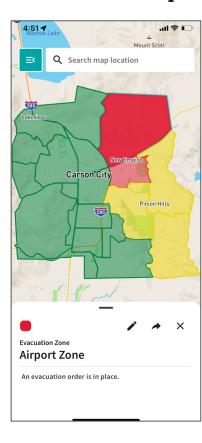

#### **Real-time collaboration**

Coordinate evacuations with other agencies in real-time.

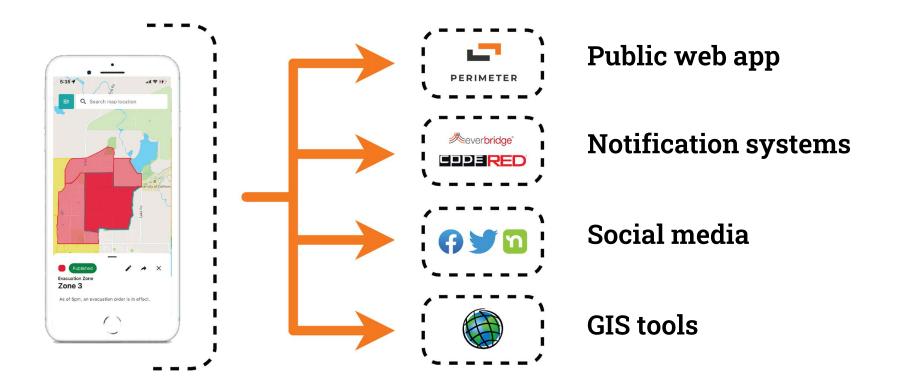

#### Alert the public

Publish evacuation areas and instructions to the public.

## **Cross-channel communication**

# Perimeter Platform is designed for:

- Real-time data updates.
- Low-connectivity environments.
- Accessibility and ease-of-use.
- Integration with existing department tools and notification channels.
- Cross-agency collaboration across jurisdictions.

# Evacuation Video

## Video

- 1. Decision making
- 2. Steps for alerting
- 3. What people will see/experience
- 4. Information to aid with individual decision making
- 5. Setting expectations

# Thank You!
