

**WASHOE COUNTY  
ROADMAP TO  
RECOVERY MITIGATION  
MEASURES**

MAY 1, 2021, LOCAL AUTHORITY PLAN

# ROADMAP TO RECOVERY GUIDELINES

*The following guidelines are in effect May 1, 2021, as authorized by the Governor through an emergency directive.*

**Mask-wearing and social distancing have the biggest impact on reducing the spread of COVID-19 in our community. Reducing transmission and an increasing vaccination rate will allow us to open safely. The faster we get there, the faster we can return to normal business operations.**

## **Masks are required in a public setting – indoors and out.**

*Masks keep everyone safe in public settings. In private settings, masks are required if social distancing is not achievable. Business owners are not required to provide masks.*

## **Hygiene is still a must.**

*Wash your hands. Disinfect surfaces. You know what to do.*

## **Operate with social distancing.**

*Capacity limits are lifted for all businesses with a recommendation for social distancing between attendee groups. "All" means indoor and outdoor events, restaurants, bars, locker rooms, gyms, hot tubs, places of worship, retail, sporting events, tournaments etc.*

## **A group is 10.**

*Groups of 10 are permitted, up from 6, for ticketed groups and tables at bars/restaurants.*

## **No restrictions on private gatherings.**

*Please continue to follow CDC guidance on private gatherings to lessen the spread.*

## **Sports are a go. Buffets are not.**

*All sports are permitted. Follow [Nevada Guidance for Adult & Youth Sports](#) Self-service buffets will remain closed.*

## **Events over 500 attendees are allowed with a plan.**

*All indoor/outdoor events and tournaments with more than 500 attendees require a [Large Gathering Covid-19 Preparedness & Safety Plan Certification Form](#). See [Large Events Guidelines](#) for details.*

# WASHOE COUNTY GUIDELINES OVERVIEW

## Guiding Principles

- The health of Washoe County citizens and visitors is as important as the health of the local economy.
- The business community will make the best business decisions with appropriate high impact guidelines.
- Citizens and visitors can make their own personal decisions related to health risks within allowable guidelines.
- Oversight is necessary to ensure compliance with guidelines.
- Simplify where possible.

## Objectives

- Reduce the spread of COVID-19.** Positivity rate **below 5%** per the World Health Organization goal. Fewer than **100 new cases** per day.
- Partner with the Business Community to create standards that balance safety and economics.** Maintain compliance with safety guidelines. Consult with industry leaders to understand their priorities, needs, and thoughts.
- Deliver clear and consistent information to empower citizens and visitors to make informed decisions.** Provide accurate, consistent information to the citizens and visitors across all regional entities. Provide a clear understanding of risks when shopping, recreating, and being entertained in the community.

## Social Distancing

For purposes of this document and based on Directive 044, and direction from the Board of County Commissioners on April 20, 2021 during the period of May 1, 2021 through 11:59 pm on May 31, 2021, Social distancing is recommended to be consistent with the Centers for Disease Control and Prevention (CDC) guidance on social distancing.

In accordance with the desire of the Governor of the State of Nevada on June 1, 2021 social distancing will no longer be recommended unless monitoring and metrics show a need to continue the implementation of restrictions.

## Monitoring & Adjustments to the Guidelines

The Regional Incident Management Team (IMT) and the Washoe County Health District will work in collaboration and consultation with the Nevada Hospital Association and their local hospital members to monitor the impact of COVID-19 in our community. The hospital capacity will be the primary metric coupled with the Truckee Meadows COVID Risk Meter, Sewer prevalence study data, and vaccination rates are tools to be used in addition to the three metrics tracked at the State level. If the IMT and Health District identify concerns in the trends within our community the IMT will begin implementation of restrictions to slow the spread within the authority provided in the Interlocal agreement between Washoe County, Washoe County Health District, City of Reno, and City of Sparks.

May 1, 2021	Increasing Transmissions	
	Red Meter	New Case Counts
<p>Social Distancing is recommended to be consistent with the CDC guidance.</p> <p>Social Distancing requirements will no longer be in effect on June 1, 2021 per the desire of the Governor of the State of Nevada. In addition, enforcement of this plan will no longer occur unless increases in transmission require future implementation of restrictions.</p>	<p>If the COVID meter reaches orange, then the public and business community will be warned that if the COVID meter reaches red, on the Thursday night at 11:59 pm of the week the meter reaches red, the community will be required to revert to tighter restrictions.</p>	<p>If new case counts reach 625 per 100,000 over a 30-day period threshold level, then additional restrictions on businesses resume with initial focus on restaurants, bars, casinos, gyms, and large gatherings/events.</p>

## LARGE EVENT GUIDELINES

### General Guidelines:

Both indoor and outdoor fixed seating events will **not have a capacity limit and social distancing is recommended** between ticketed groups. Capacity for fixed seating must be 6 feet of distancing between attendee groups.

**Indoor events** will maintain guidance for social distance to be recommended and supported in the Event Plans. Event Plans need to address pinch points, restrooms, etc. Caps may be established based on social distancing recommendations and the square footage in the Events Plan.

**Outdoor events** will maintain recommendations for social distancing recommendations from May 1, 2021 to May 31, 2021. Event Plans need to address pinch points, restrooms, etc.

### Certification Process:

All indoor and outdoor events, tournaments, and sporting events with more than 500 attendees require a **Large Gathering Covid-19 Preparedness & Safety Plan Certification Form**. The Approval Form is to be submitted as part of the existing Events Permitting Processes for those events within City of Reno, City of Sparks or Washoe County. The property owner or event organizer will be responsible for ensuring the checklist/guidance is followed.

### Specific considerations:

- Facility certification is available for all facilities to “pre-certify” standard events. Please email [HealthEHS@washoecounty.us](mailto:HealthEHS@washoecounty.us) for more information.
- Events approved by Business & Industry through June 1 fall under the State’s approval and authority.
- The Washoe Incident Management Team reserves the right to amend plans based COVID19 Health Indicators. Specifically, if the Health Meter reaches red or new case counts reach 625 per 100,000 large events, guidelines will revert to standards of a 250-person limit or 50% capacity, whichever is less.

### Enforcement:

It is the responsibility of the event producer/promoter to ensure compliance with guidelines during the event. Regional Enforcement Teams will spot-check for compliance and pull future event approvals for non-compliance. Event producers are strongly encouraged to promote the COVID Trace App to limit potential mass transmission.

### Sports Tournaments:

Sporting events and tournaments shall continue to follow the [Nevada Guidance for Adult & Youth Sports](#), through May 31, 2021 including leaving 30 minutes between games. Venue operators are required to post signage regarding facility capacity and limiting gathering outside of the events to 25 people or fewer.

\*\*These locations can allow for social distancing by strictly limiting the number of customers at one time. Recommended mitigation practices include but are not limited to limiting number of individuals using food and drink stations at one time; using individual or disposable utensils and serving ware wherever possible; and providing hand sanitizer and recommending usage before touching any communal surfaces.

## CANNABIS - Medicinal & Recreational Establishments

**After May 1**, medicinal and recreational marijuana establishments will remain under the authority and regulatory control of the Nevada Cannabis Compliance Board (CCB). However, capacity and mitigation measures for medicinal and recreational marijuana establishments **will fall under the category of "Retail Stores"** within each county

- For example, if a county decides to set a capacity limit of 50 percent for retail stores in its Local Mitigation and Enforcement Plan, marijuana establishments will also be at 50 percent capacity. Since this is our county's plan, this example sounds misplaced.
