95-141A WORK CARD PERMIT APPEAL - SUSAN KATHLEEN BREWER

This appeal was considered on Monday, February 13, 1995, at 1:30 p.m., the Board having convened with all Commissioners present and Chairman Shaw presiding.

On motion by Commissioner Bradhurst, seconded by Commissioner Bond, which motion duly carried, the Board convened in closed session to discuss the applicant's character or other matters under NRS 241.939(1).

After reconvening in open session, on motion by Commissioner Bradhurst, seconded by Commissioner Bond, which motion duly carried with Commissioner Sims voting "no," it was ordered that the denial by the Sheriff's office of the work permit for SUSAN KATHLEEN BREWER as a caretaker at Community Child Care Services, Inc., be overturned and the permit issued conditioned upon exclusive employment at this facility, the applicant remaining drug-free to be verified through periodic drug testing, and Community Child Care Services, Inc., being made aware of these conditions.
Gary Goelitz, Senior Administrative Analyst, reviewed background information contained in a staff report and answered questions, of the Board concerning financing mechanisms and prudence issues regarding a request for proposal for the purchase of new optical scanning election equipment for the Registrar of Voters. He advised that the Registrar had evaluated the Direct Record Entry System, Optical Scanning System, and the Pollstar System and recommends the acquisition of the Optical Scanning System due to more accurate and timely election results; that the system has been upheld in court proceedings; that it contains a paper audit trail; that it is certified by the State of Nevada; and that it would reduce election costs to the County.

Commissioner Bradhurst discussed hearings to be held in the State of North Carolina concerning the accuracy of optical scanning equipment, and recommended not proceeding with the acquisition until the hearings are completed and information brought forth to the Board concerning the results of the hearings.

Commissioner Bond inquired about the direct record entry system being considered for acquisition by Clark County. Mary Henderson, Government Affairs Director, stated that the Clark County Commission voted to approve the acquisition of a direct entry system; that there is some debate as to whether or not a paper ballot audit trail is generated; and that this matter will be a legislative issue.

Following discussion, upon recommendation of Marlene Henderson, Registrar of Voters, and Gary Goelitz, Senior Administrative Analyst, on motion by Commissioner Bradhurst, seconded by Commissioner Sims, which motion duly carried, Chairman Shaw ordered that a Request for Proposal (RFP) for the acquisition of Optical Scan Election Equipment for the Registrar of Voters, be authorized with the caveat that the Registrar not proceed with the acquisition until the completion and results of the show cause hearings in North Carolina can be reviewed by the Board; and that an update be provided concerning certification and paper trail issues.

This was the time to consider awarding of bid, Notice to Bidders for receipt of sealed bids having been published in the Reno Gazette-Journal on November 14, 1994 for the County Courthouse Smoke and Fire Alarm System on behalf of the Building and Grounds Division of the General Services Department. Proof was made that due and legal Notice to Bidders had been given.

A bid, a copy of which was placed on file with the Clerk, was received from the following vendor.

Hansen Electric
Nelson Electronics Company submitted a "No Bid" response and ADT Security System, West, Inc., Industrial Electronic Systems, Jensen Electric, Quality Controls and Simplex failed to respond to the invitation to bid.

Upon recommendation of John Balentine, Purchasing and Contract Administrator, on motion by Commissioner Sims, seconded by Commissioner Bond, which motion duly carried, it was ordered that Bid No. 1808-94 for the County Courthouse Smoke and Fire Alarm System on behalf of the Building and Grounds Division of the General Services Department be awarded to the lowest responsive, responsible bidder, Hansen Electric in the amount of $142,200 for fiscal year 1994/95, and Bid Item #2 (alternate) in the amount of $63,800, subject to approval of funding in fiscal year 1995/96.

It was noted that Bid Item #1 is the base bid for labor and materials to furnish a Smoke and Fire Alarm System for the "New Courthouse" section of the Washoe County Courthouse for fiscal year 1994/95; that Bid Item #2 is the alternate bid to connect the "Old Courthouse" smoke and fire alarm system to the "New Courthouse" section for fiscal year 1995/96; and that both bid items are required by the City of Reno Fire Department.

Craig McConnell, Public Works Director, reviewed background information, the bidding process and answered questions raised at yesterday's caucus concerning the Tenant Improvements Contract for the Washoe County Courts Complex (Stage I).

Bob Japser, Assistant County Manager, discussed financing options stating that the County may have to borrow funds to finance this segment of the project or utilize funds set aside for next year's Capital Improvement Program. He explained that the County is in the process of identifying capital outlay needs; that this information will be forthcoming to the Board; and that at this time, he does not have a clear indication as to how the Tenant Improvements Contract will be financed. He advised that if the Board proceeds with this item, the Finance Department will attempt to incorporate it in next year's budget and develop financing mechanisms. He then recommended that the Board proceed with the award of bid for the Tenant Improvements Contract but hold off on transferring of funds for this purpose until financing options are identified.

Following discussion, on motion by Commissioner Bradhurst, seconded by Commissioner Sims, which motion duly carried, Chairman Shaw ordered that the following actions be taken concerning the Award of Bid for the Tenant Improvements. Contract for the Washoe County Courts Complex Project (Stage I):
1. That the base bid only, as identified by the bid abstract appended hereto as Attachment 1 (placed on file with the Clerk), for the Tenant Improvements Contract be awarded to Q & D Construction, Inc., Reno, Nevada, the low, responsive, responsible bidder, in the amount of $11,074,000.

2. That the project budget be augmented as identified in Attachment 2, placed on file with the Clerk, to provide for the award, project contingency reserve, and other items identified thereon; and that the Financing Division be directed to arrange necessary funding/financing.

Mike Widmer, Utility Division Hydrologist, described concepts of groundwater modeling and the results of model work completed to date in Washoe Valley. He explained that modeling can be utilized as a management tool in terms of understanding how much resource is available to support existing development and future development, to predict problems that may occur in the future such as lowering of water tables due to extensive pumping or migration of poor quality water to areas that contain good quality water.
Commissioner Sims requested that staff investigate the frequency of private well drilling occurring in East Washoe City, and that a presentation be given to the Washoe Valley Citizens Advisory Board for the purpose of assuring residents that the County is spending funds wisely on the groundwater modeling effort.

95-162 UPDATE - SEWER RATES/REVENUES AND RELATED REGIONAL PLAN POLICIES

County Manager John MacIntyre, in response to an inquiry made by Commissioner Bradhurst at yesterday's caucus, stated that he had spoken with Terry Reynolds, Sparks City Manager, concerning the issue of subsidy by the County to its sewer operation rather than a rate increase, and was informed that the City of Sparks is uncertain whether this practice is consistent with the regional plan.

John Hester, Director, Department of Comprehensive Planning, reviewed background information contained in a memorandum dated February 16, 1995 concerning this issue.
Pursuant to Board request at Caucus, Kris Schenk, Executive Director Truckee Meadows Regional Planning Agency, discussed the applicability of Truckee Meadows Regional Plan policy 25.o relating to existing sanitary sewer service systems, customers and the policy prior to the County assuming ownership and operational responsibilities for wastewater treatment facilities.

John Collins, Chief Sanitary Engineer, reviewed background information contained in a staff report dated February 27, 1995 concerning the results of a sanitary sewer revenue sufficiency study completed in April 1994 by Consulting Solutions Group, the recommended monthly sewer fee increase to $25.77, projected expenses, revenues, customer counts, general fund subsidization and answered questions of the Board. In conclusion, Mr. Collins stated that customer growth rates and revenues are higher than projected in the study due to an influx of large commercial customers in the South Truckee Meadows; and that expenses are stabilized.

In response to Commissioner Sims' inquiry as to why the Board did not submit a request for a CDBG grant for subsidization purposes, Bob Jasper, Assistant County Manager, stated that Washoe County does not qualify for large CDBG grants due to its size; that they are competing for a small share of funding allotted by the State to other larger entities; And they have not been able to obtain federal assistance funding for this purpose. He further explained the concept of repair and replacement advising that this mechanism was incorporated into the rate study.

Following discussion, upon recommendation of John Hester, Director, Department of Comprehensive Planning, on motion by Commissioner Bradhurst, seconded by Commissioner Bond, which motion duly carried, Chairman Shaw ordered that the update concerning sewer rates and revenues relating to Regional Plan Policies be acknowledged and that the Utility Division and the Department of Comprehensive Planning be directed to present a report to the Truckee Meadows Regional Planning Governing Board reflecting results of discussion held at today's meeting concerning these issues.

Madelyn Shipman, Deputy District Attorney, discussed legal issues concerning Rules and Procedures for the 1995/1996 Washoe County Board of Commissioners proposed by Commissioner Bradhurst and answered questions of the Board. She discussed Exparte Communication contained in Section 1 advising that in an attempt to avoid accusations of fraudulent proceedings, Board members should disclose any discussion with applicants or opponents prior to hearings held by the Board concerning work permit appeals, land use issues, site visitations or conversations with constituents.

Following discussion, on motion by Commissioner Bradhurst, seconded by Commissioner Sims, which motion duly carried, Chairman Shaw ordered that Rules and Procedures for the 1995/96 Washoe County Board of Commissioners be adopted as recommended.
Chairman Shaw stated that the Board is investigating specific geographic, professional and occupational areas for appointment to the Regional Planning Governing Board Citizen's Advisory Task Force.

Commissioner Bradhurst suggested appointing one representative for southwest Reno, two representatives for North Reno and one representative from the Tahoe Basin indicating that the appointment should be made by the middle of March.

Chairman Shaw suggested soliciting individuals from various citizens advisory boards to serve in this capacity.

Kris Schenk, Executive Director, Truckee Meadows Regional Planning Agency, stated that the City of Sparks has appointed four members to the Task Force; and that the City of Reno is considering their appointments today.

Commissioner Bradhurst suggested that all applicants submit a letter of interest to the County Manager and that this item be placed on the March 14, 1995 Board of County Commissioners Agenda.
