Pursuant to questions at Caucus, Madelyn Shipman, Assistant District Attorney, advised that the late penalty paid by the taxpayer was not included in the refund calculation and that if the Board does want to refund that amount also, the resolution will need to be amended. Commissioner Bond stated it is her feeling that the penalty should also be refunded. Commissioner Shaw concurred.

In accordance with District Attorney Opinion No. 6346, on motion by Commissioner Bond, seconded by Commissioner Shaw, which motion duly carried, it was ordered that the following amended resolution be adopted and Chairman Sims be authorized to execute on behalf of Washoe County:

Vista Distribution Center, Inc. Parcel No. 037-251-16 (1996/97 Secured Roll)
Dade Microscan A.P.N. #2191204 (1996/97 Unsecured Roll)
10:00 a.m. This was the time set in a properly noticed addendum to the agenda for the Board to receive an update on the status of compliance with the conditions established for the outdoor festival permit requested by Burning Man 97 LLC and, accordingly, to provide direction to staff.

Dean Diederich, Department of Community Development, presented the status report concerning the special use permit approved by the
Rik Kajans, Assistant Chief, Truckee Meadows Fire Protection District, elaborated on the current status of the required fuel breaks, fencing, signage, etc., and played a video tape that he had taken earlier this date of the site. He described how the fuel breaks are in place, but still need more work; how the fencing is partially completed; and stated that the applicant has been making a substantial effort to comply; that there is more to be done; and that he believes they will be able to complete the requirements if they keep up their current efforts.

Sheriff Richard Kirkland reported that the conditions requested by his department have been met with only a couple of exceptions which he believes will be completed as the event organizers have been making what he feels is a very sincere effort to comply with all conditions.

Dave Rice, District Health Officer, stated that his staff will be on site during the entire event to protect the public's health; that they have inspected the site and will do so again after the event; and that they are confident that conditions pertaining to the areas the Health Department oversees will be met. In response to Board questions, Mr. Rice explained that special events, such as this one, the Balloon Races, the Air Races, etc., cannot really be completely done ahead of time; that the sani-huts won't be there a week before the event starts; that the food facilities will not be there in advance and so on; that his staff is used to dealing with these events on that basis; and that staff is always present during the actual events to make sure the Health Department regulations and permit conditions are complied with.

Jim Gubbels, Vice President, REMSA, stated that they are planning to provide ambulance service for the event providing they receive half of their estimated costs prior to the event and the balance on Saturday. In response to Commissioner Bond, he advised that their estimated cost for providing 2 ambulances and 4 ALS capable units is $26,000; and that, to date, they have not received any money, but have been told that a $13,000 check was mailed Monday, August 18, 1997. Mr. Gubbels emphasized that without advance payment, REMSA will not provide service.

Richard Gammick, Washoe County District Attorney, advised the Board that Gerlach Justice of the Peace Thomas is planning to establish a court during the event in the hopes of taking care of citations, fines, etc., on the spot, which is a plan that he supports as that would lessen impacts on the courts and the jail.

John Young, Risk Management Division, reported that it is his understanding that insurance is available that does meet the County's requirements; that the Burning Man people have received a price quote on that insurance; but that the insurance is not in place yet because the premium has not been paid. In response to Commissioner Galloway, Mr. Young explained that this is not the Letter of Credit or performance bond the Board requested, but is the general liability insurance policy that provides $10-million coverage in case of accidents or injuries at the event plus $1-million worth of fire suppression coverage in case there is a fire and air tankers, etc., have to be called in. Will Roger, Comptroller, Burning Man 97 LLC, stated that they have every intention of paying for this insurance.

Katy Simon, Assistant County Manager, Finance, stated that it has been determined there is no possibility of the event organizers obtaining a performance bond or a letter of credit as requested by the County because they do not have sufficient assets. She advised that the event organizers have offered to deposit $10,000 in an escrow account, which has already been done, and that they have agreed in writing to provide half of their daily ticket sales and/or gate receipts to the County in order to reimburse the County for its expenses. Ms. Simon requested that staff be granted permission to verify those deposits and reconcile the receipts.

Commissioners Galloway and Mouliot expressed grave concerns that the insurance policy has not yet been secured; that the letter of credit required to cover Washoe County's expenses cannot be obtained; and that the event organizers can only deposit $10,000 in an escrow account, especially in light of the fact that there have been reports of roughly $300,000 in advance ticket sales and they can not see where the Burning Man people have spent anywhere near that much money grading, fencing and preparing the site.
have not been met yet are that the applicant has not applied for the building permits required for the physical facilities; and that staff still needs to see and approve the footing diagrams for the structure to be burned. He further stated that on the applicant's schedule of events for Friday, August 29th, there is an event planned to begin at 11:45 p.m. and the Washoe County Code requires that all activities cease by midnight, so they are requesting that that be changed and that no events start later than 11:00 p.m. Mr. Diederich also advised that staff has not yet received the owner's affidavit of consent, which is a major requirement for this permit.

Chairman Sims then asked if there was anyone else wishing to speak to.

Mike Meizel stated that he represents the Jackson Ranch; that he had previously requested that the Jackson's be named as additionally insured on the liability insurance policy; and that they do not know if that has been done. Mr. Roger advised that the Jackson Ranch was listed as one of the additional insureds on the insurance policy. Mr. Meizel stated that his only other concern then is the same as the Board's in that the insurance will only be good if the premium is paid.

Commissioner Galloway asked about the status of obtaining the property owner's consent. Annie Westerbeck, the niece of the property owner and who leases the property from her uncle, stated that she and her attorney have reviewed her lease and determined that she can sign the owner's affidavit, which she has done. Ms. Westerbeck also gave a copy of her lease to Madelyn Shipman, Assistant District Attorney, for her review. In response to Commissioner Mouliot, Ms. Shipman advised that it is her opinion that Ms. Westerbeck is not the proper signatory because this is an "owner's" affidavit of consent and Ms. Westerbeck is not the owner. In response to Chairman Sims, Mr. Diederich explained that the purpose of obtaining the owner's written consent is so that the County will know that the owner is aware of what is happening to and on his property and demonstrating his consent for same; and that according to the Washoe County Assessor's office, the owner of record is the Holland Livestock Ranch, in care of John Casey.

A discussion commenced and the Board concurred that they wanted something in writing from Mr. Casey indicating his awareness of and consent to the happenings on his property.

Chairman Sims then summarized the discussion recapping the outstanding compliance issues and suggested that this could be continued to August 26th. The Board members agreed to give the applicants one more week, stressing that the liability insurance has to be in place as soon as possible and that all the other conditions that have not yet been met must be completed by that time.

Following further discussion, on motion by Commissioner Bond, seconded by Commissioner Mouliot, which motion duly carried, Chairman Sims ordered that the final date for full compliance with all conditions imposed upon the permits needed by the Burning Man 97 Outdoor Festival be extended to August 26, 1997, and that the Board meet again on Tuesday, August 26, 1997, at 2:00 p.m. in the Commission Chambers to review and determine whether full compliance has been achieved.

97-862 EMERGENCY ITEM - AUTHORIZATION FOR LEASE OF GERLACH ROAD DIVISION EQUIPMENT BY PRIVATE PARTY

This was declared an emergency item by the Board and added to the agenda as such.

During her discussions concerning the Burning Man Festival Permit in the previous item, Annie Westerbeck, Fly Ranch, Gerlach, requested permission from the Board to lease some equipment (a grader and a water truck) from the Gerlach Road Division and to hire off-duty County Road Department personnel to operate the equipment in order for the Burning Man event organizers to be able to complete some of the required site improvements for the event because the equipment they have been using is experiencing mechanical problems.

Dave Roundtree, Public Works Director, explained that there is a policy in place whereby County equipment is leased to private individuals who sign a formal agreement; that there is a rate sheet showing the hourly costs for the various equipment; and that the private individuals agree that the equipment will only be operated by off-duty County personnel, who are paid separately by the private individual. He further stated that this is an occurrence that happens maybe 6 to 8 times per year; that it has been the policy for many years; and that several years ago a prior Board took action authorizing the Public Works Director to execute
Madelyn Shipman, Assistant District Attorney, stated that the Nevada Revised Statutes are quite clear that County equipment cannot be used on private property without formal action by the Board of County Commissioners.

In response to Board questions, Ms. Westerbeck stated that the Fly Ranch will pay for the equipment in advance.

Commissioner Mouliot stated that he feels this is a public safety emergency item because the grading has to be done and completed properly. On motion by Commissioner Mouliot, seconded by Commissioner Galloway, which motion duly carried, it was declared that this request constitutes an emergency and should be added to this meeting agenda.

Following further discussion, on motion by Commissioner Mouliot, seconded by Commissioner Galloway, which motion duly carried, Chairman Sims ordered that the Fly Ranch be allowed to lease County equipment at the standard hourly rates, subject to payment being received in advance and the equipment being operated by off-duty County Road Department personnel only.

97-863 AMPHITHEATER - BARTLEY RANCH REGIONAL PARK - ROBERT Z. HAWKINS FOUNDATION - PARKS DEPARTMENT

Karen Mullen, Acting Director, Parks and Recreation Department, advised that the Parks Department has been approached by the Robert Z. Hawkins Foundation who has generously offered to build an amphitheater at the Bartley Ranch Regional Park in memory of Robert Z. Hawkins. She then introduced Mr. Bill Wallace, Chairman of the Robert Z. Hawkins Foundation.

Mr. Wallace described the 400-500 seat structure they would like to construct, and stated that it will cost somewhere between $400,000 and $600,000, which will all be paid by the foundation. He also stated that they are ready to sign an architectural agreement and are seeking the County’s approval to proceed with the amphitheater in memory of Mr. Hawkins; and that they believe it would be better to do the project through the private sector and then donate it to the County. Mr. Wallace then introduced Mr. Prince Hawkins.

Following further discussion, upon recommendation of Karen Mullen, Acting Director, Parks and Recreation Department, on motion by Commissioner Galloway, seconded by Commissioner Mouliot, which motion duly carried, Chairman Sims ordered that Parks Department staff be authorized to work with the Robert Z. Hawkins Foundation in developing the design of an amphitheater in memory of Robert Z. Hawkins at Bartley Ranch Regional Park.

97-865 RESOLUTION - SPECIAL ASSESSMENT DISTRICT NO. 25 (CALLE DE LA PLATA) - IMPROVEMENT PROJECT

Dave Roundtree, Public Works Director, advised that if the public hearing is not held until October, that would create a possibility that this project, if approved, would not be completed this construction season, and requested that the Board consider holding the public hearing on this Special Assessment District in September.

Following further discussion, on motion by Commissioner Shaw, seconded by Commissioner Bond, which motion duly carried, it was ordered that the following resolution be adopted and that Chairman Sims be authorized to execute on behalf of Washoe County. 97-867 SALARY ADJUSTMENT - CHIEF INVESTIGATOR, DISTRICT ATTORNEY'S OFFICE - PERSONNEL

Upon recommendation of Joanne Ray, Chief of Personnel, on motion by Commissioner Bond, seconded by Commissioner Shaw, which motion duly carried, Chairman Sims ordered that the salary grade for the Chief Investigator in the District Attorney's Office be adjusted in the following manner:

A 2% cost-of-living adjustment granted for the period 7/1/96 - 12/31/96
A 1% cost-of-living adjustment granted for the period 1/1/97 - 6/30/97
It was noted that these adjustments reflect the cost-of-living adjustments granted to the Investigator III’s, District Attorney’s Office, as the result of an agreement with the District Attorney Investigators’ Association for fiscal year 96-97 and are being recommended to maintain an appropriate salary spread between the Chief and the Investigator III (approximately 14%) in order to recognize the level of supervision exercised by the Chief.

Upon recommendation of Madelyn Shipman, Assistant District Attorney, on motion by Commissioner Bond, seconded by Commissioner Mouliot, which motion duly carried, Chairman Sims ordered that the items shown on the list attached to Ms. Shipman's August 7, 1997 memorandum be accepted for County inventory purposes. It was noted that the District Attorney's office is a participant in the State of Nevada 1208 Federal Excess Property Program and that these items were obtained through that program.

97-870 REGIONAL OPEN SPACE PLAN - PROPOSAL TO ESTABLISH LOCAL NON-PROFIT LAND TRUST - DEPARTMENT OF COMMUNITY DEVELOPMENT

John Hester, Director of the Department of Community Development, and Bill Whitney, Open Space Planner, were present and answered numerous questions of the Board. Mr. Whitney stated that staff believes the best way to implement the Regional Open Space Plan is to establish a private, non-profit land trust, including providing funding during the first few years, that will be separate from the County and will have the flexibility and autonomy to begin acquiring and managing open space. Mr. Hester advised that the Washoe Parks Foundation does have similar objectives but has not been actively and aggressively pursuing open space; and that staff will meet with them as they believe there are complimentary resources and they want to be sure the efforts are not being duplicated by two different groups. He further explained that their proposal is to provide $75,000 per year for 5 years, by which time the land trust should be financially self-sufficient, and that this year's $75,000 come from the department's carry-over funds for start-up costs to establish the non-profit, including hiring a consultant to draft the by-laws and articles of incorporation and to begin the paperwork to obtain the non-profit status. He also stated that the Board would have the opportunity to know what the trust has accomplished and plans to accomplish each year at budget time when it is time to consider the $75,000 for the next year.

Board members expressed concerns regarding potential land use conflicts and stressed the importance of knowing what this land trust is doing. It was suggested that having a Commissioner on the Board of Directors of the land trust, in perpetuity—not just for five years or however long the County is providing funding, would address that concern.

Madelyn Shipman, Assistant District Attorney, advised that the Board can only grant funds to a non-profit organization by resolution. John MacIntyre, County Manager, explained that there is no non-profit land trust yet and that staff is seeking authorization to use part of their carry-over funds to establish the non-profit land trust. Mr. Hester stated that he does not believe it will require all of the $75,000 to draft the by-laws and articles of incorporation and other paperwork necessary to establish the trust; and that it was his thought that whatever was left could be given to the trust after it is established. Ms. Shipman stated that that is allowed, but the actual granting of the funds to the trust after it is established will have to be
done by Board adoption of a resolution.

Following further discussion, on motion by Commissioner Bond, seconded by Commissioner Galloway, which motion duly carried, Chairman Sims ordered that:

1. A local non-profit land trust be established as one means of implementing the Regional Open Space Plan;
2. The Department of Community Development be authorized to expend funds, up to $75,000, from their carry-over funds to draft the by-laws and articles of incorporation and start the necessary paperwork for the 5013C non-profit status for the land trust;
3. Staff bring back a resolution for Board consideration and adoption to grant any unused funds from the $75,000 to the non-profit land trust; and
4. When drafting the by-laws, staff consider having a Commissioner sit on the Board of Directors of the land trust in perpetuity, or devise some other means of making sure that the County Commission is kept informed of what the land trust is doing to avoid any conflicts.
