The Board met in regular session in the Commission Chambers of the Washoe County Administration Complex, 1001 East Ninth Street, Reno, Nevada. Following the Pledge of Allegiance to the flag of our Country, the Clerk called the roll and the Board conducted the following business:

Katy Singlaub, County Manager, stated “The Chairman and Board of County Commissioners intend that their proceedings should demonstrate the highest levels of decorum, civic responsibility, efficiency and mutual respect between citizens and their government. The Board respects the right of citizens to present differing opinions and views, even criticism, but our democracy cannot function effectively in an environment of personal attacks, slander, threats of violence, and willful disruption. To that end, the Nevada Open Meeting Law provides the authority for the Chair of a public body to maintain the decorum and to declare a recess if needed to remove any person who is disrupting the meeting, and notice is hereby provided of the intent of this body to preserve the decorum and remove anyone who disrupts the proceedings.”

08-807  AGENDA ITEM 3 – PROCLAMATION

Agenda Subject: “Acknowledge July 21, 2008 as National Hug Your Kids Day and Proclamation for same. (Requested by Commissioner Larkin.)”

Chairman Larkin read the Proclamation and presented it to Michelle Nichols, who created “Hug Your Kids Day” after her son, Mark Nichols, died suddenly from brain cancer. Ms. Nichols thanked the Board for the Proclamation and for their support of this project. She discussed her son’s death and why she created “Hug Your Kids Day.” She noted there were events happening in 17 states across the United States even though the organization was only created six months ago. She said the local event held at Wingfield Park was called the “Biggest Little Hug” and a photograph was taken of a lot of families hugging.
A photograph called a “Hug Mug Salute” was taken with Ms. Nichols and the Board, with everyone holding “National Hug Your Kids Day” mugs.

In response to the call for public comment, Sam Dehne commented on the wonderful thing this lady was doing. He felt more things like this needed to be done in the community and more people should come to the meeting to promote them. Gary Schmidt indicated he supported the Proclamation and that he participated in yesterday’s event with his dog, Luke.

On motion by Chairman Larkin, seconded by Commissioner Weber, which motion duly carried, it was ordered that Agenda Item 3 be adopted and executed. The Proclamation for same is attached hereto and made a part of the minutes thereof.

08-808 AGENDA ITEM 4 – COMMUNITY RELATIONS

Agenda Subject: “Accept donation [$3,300 ($2,500 from Sierra Pacific Power Company and $800 from the Sparks Rotary Club) for the 2008 Youth and Student Poll Worker Programs; and if accepted, express appreciation to donors for their generosity and direct Finance Department to make appropriate budget adjustments--Community Relations. (All Commission Districts.”)

Commissioner Galloway thanked Linda Bissett and Karen Davis, Sierra Pacific Power Company representatives, and Dave Kary, Sparks Rotary Club representative, for their generous donations on behalf of youth. Liz Ortiz, Community Outreach Coordinator, thanked Sierra Pacific Power Company’s Community Relations and the Government Affairs Departments and the Rotary Club of Sparks.

In response to the call for public comment, Sam Dehne said he supported the donations to allow youngsters to “oversee” the voting system.

On motion by Commissioner Galloway, seconded by Commissioner Jung, which motion duly carried, it was ordered that Agenda Item 4 be accepted, expressed and directed.

08-809 AGENDA ITEM 5 – PUBLIC COMMENT

Agenda Subject: “Public Comment. Comment heard under this item will be limited to two minutes per person and may pertain to matters both on and off the Commission agenda. The Commission will also hear public comment during individual action items, with comment limited to two minutes per person. Comments are to be made to the Commission as a whole.”

George Bay said this was his second complaint regarding County-owned property at East Lake Blvd. and Washoe Valley being blocked. He said Dave Price, County Engineer, indicated last year he would take care of it because the fences were on
public property, but recently someone tried to run down a motorcyclist for using the dirt trail. He felt something needed to be done about this.

John Caselli said he owned Nevada Political Advertising that operated a fleet of campaign sign-trailers in Washoe County. He confessed he had never registered his trailers and had been in violation of the subject Ordinance ever since its adoption, but he noted it had never been used against political sign-trailers until now. He indicated he started registering his fleet and expected registration to be completed by the end of November. He asked the County to adopt a policy of strict enforcement after the General Election, which would allow orderly compliance by all of the players in the industry and would not disrupt the current political campaigning.

Garth Elliott thanked the Board for the $700,000 for the sidewalks and bike path in Sun Valley, which might have prevented the death of Alexis Kiles in 2003.

2:29 p.m. Commissioner Humke temporarily left the meeting.

Guy Felton discussed the legal requirements for trailers in Nevada. He felt candidates were ultimately responsible for the trailers being in compliance instead of the trailer suppliers.

Don Young said Reno’s “Biggest Little Hug” was an outstanding event, and he hoped 20 times more people would participate next year. He felt Division 5 of the Development Code regarding regulations and the enforcement process for political campaign signs was lacking in some areas and overly restrictive in others. He approved of the process changes that would allow public review and comment prior to the initiation of the formal amendment, and he volunteered to be on a citizens committee to work on those changes. He agreed the Board should provide direction to staff regarding the enforcement of current Code, but he noted there might be a conflict of interest with some Commissioners currently running for office.

Sam Dehne felt the campaign sign problem should be corrected immediately. He sang about what was going on in Reno and with the Governor of Nevada.

Stuart Mackie discussed why he did not favor the privatization of the local water system.

Gary Schmidt said misdemeanor citations should be issued today for any campaign trailers violating the law. He discussed why he opposed selling of the Truckee Meadows Water Authority’s (TMWA) water rights, services, or facilities. He requested the Commissioners oppose any such action unless 75 percent of the customer base voted to consider it.
AGENDA ITEM 6

Agenda Subject: “Commissioners’/Manager’s Announcements, Requests for Information, Topics for Future Agendas and Statements Relating to Items Not on the Agenda. (No discussion among Commissioners will take place on this item.)”

Katy Singlaub, County Manager, noted Agenda Items 22, 23, 24, and 25, which were for ordinances dealing with fingerprinting/background checks, were pulled by the District Attorney’s Office because the Federal Bureau of Investigation (FBI) wanted some additional information added to the ordinances.

2:39 p.m. Commissioner Humke returned to the meeting.

Commissioner Weber said she was sorry to learn that Leslie Porter, Washoe County School District Board of Trustees member, died.

Commissioner Weber noted she attended the National Association of Counties (NACo) conference last week. She said there was so much to learn because there were many issues that affected the County and the State.

Commissioner Weber said she would not be able to attend the Regional Planning Governing Board (RPGB) meeting next Thursday, and she appreciated that Commissioner Jung would be attending in her place.

Commissioner Weber said she attended the Regional Transportation Commission (RTC) meeting last Friday to represent her constituents in the Stead area regarding the RTC’s elimination of Bus Route 37, which served 6,000 people. She stated there were a lot of low-income families and several apartment buildings that were homes to seniors that would be impacted. She said after she made her comments, the City of Reno’s representative to the RTC, Councilmember Dortch, stated he sympathized with those folks and he asked if getting a van into those complexes could be figured out. Commissioner Weber said he went on to say that he and Commissioner Weber would work together to see if there was a way Washoe County could help fund this route. Commissioner Weber felt it was sad that Councilmember Dortch would say the people had to look to Washoe County, because he represented that area for the City of Reno. She stated she went to bat for her constituents in the area as their Commissioner, but felt she was not heard.

Commissioner Weber stated she attended the grand opening of the Northern Nevada Food Bank on Friday afternoon, whose work she supported. She also attended the Verdi Volunteer Fire Department’s annual barbecue last Saturday and the Sun Valley Food Pantry had a food drive at the Scolari’s in Sun Valley. She said the food drive was held with the assistance of the Veterans of Foreign Wars (VFW) Ladies Auxiliary.
Commissioner Weber said she took a tour of the Waste Management’s Lockwood site earlier today where she learned a lot of information that would help the Illegal Dumping Taskforce and would help future community cleanups be more financially feasible. She noted this was important since Waste Management decreased the number of free trash containers to one per event.

Commissioner Weber noted early voting would start this Saturday, July 26th, and she requested an update by the Registrar of Voters regarding the Commissioners’ request to cut down on the amount of early-voting days. Commissioner Humke reminded everyone that today was the last day to register to vote for the Primary Election and registration must be done in person at the Registrar of Voters’ Office.

Commissioner Humke said his constituent during public comment talked about the events occurring at approximately 4035 and 4045 East Lake Boulevard. He requested staff investigate who owned the property in question; and, if it was owned by the County, he requested an agenda item to abandon the property and to give it to the citizens if the County was not willing to enforce its property rights.

Chairman Larkin advised he was leaving at 6:00 p.m. to host, with the Mayors of the Cities of Reno and Sparks, a homeless summit designed to stimulate discussion amongst all of the community partners regarding homeless issues and in particular the two buildings that were erected last year. He said he would bring a report back to the Board the first meeting in August.

Chairman Larkin noted he would be attending the United Way’s Family Financial Security Summit all day Thursday starting at 9:00 a.m. at the Joe Crowley Student Union. He said the intent of the summit was to start a community dialog on keeping people in their homes and how to get people, especially first-time buyers, into homes.

Chairman Larkin commented he was sad to hear about Ms. Porter’s passing because her passing was a severe loss to the community.

Commissioner Galloway said he was having difficulty resolving whether or not he would be able to attend the RPGB meeting this Thursday, but he should know soon. He asked if Commissioner Humke would be available to substitute for him if he could not attend. He said he was uncomfortable with being on the RTC joint committee regarding combining services or organizational features because he felt those discussions would go on for longer than his remaining term in office. He was asking to be replaced for purposes of continuity.

Commissioner Galloway requested an agenda item regarding the Truckee Meadows Water Authority (TMWA) proposal so the public and the Commissioners could speak about it. He also requested staff invite the Consumer Advocate to attend the meeting and to include an assessment by the County’s Finance Department regarding any risks to the County, the taxpayers, or the ratepayers.
Commissioner Galloway advised there would be a Tahoe Regional Planning Agency (TRPA) meeting tomorrow. He noted a proposal to narrow a four-lane King’s Beach road to three lanes was turned down at last month’s meeting, but a reconsideration had been requested. He stated he voted no on the proposal because it would shove traffic onto crowded residential King’s Beach streets, it would burn a million extra gallons of gasoline a year in his estimate, and it would add a 10-minute delay per car. He indicated there were other plans for King’s Beach that would improve the traffic situation.

Commissioner Galloway said Coe Swobe, a member of the Nevada TRPA who got the fuel reduction program going, resigned. He stated he received letters from individuals who were interested in serving on the Board for the remainder of the year as the Nevada At-Large Representative and a decision would be made tomorrow.

Commissioner Jung announced she fulfilled the foster family training for the Washoe County Regional Animal Services, in addition to completing the training provided by the Nevada Humane Society. She said she was fostering four kittens, and if anyone was interested they should contact her. She also announced that last week she was one of five judges at the Miss Nevada Pageant. She noted Miss Carson City, Julianna Erdesz, was crowned Miss Nevada. She explained the pageant was a scholarship pageant and that participating in pageants provided the money Teresa Benitez-Thompson, a past winner and a Washoe County Social Worker, needed to attend the University of Michigan’s School of Social Work.

Commissioner Humke said he received a request from John Slaughter, in his capacity as a Boy Scout Leader, for a person in his troop who needed a bone marrow transplant. He noted at the Grand Sierra on July 26th there would be a bone-marrow drive and further information would be available on the County’s web site.

Commissioner Galloway said it was tentatively scheduled that the Hunter Creek Trailhead would be dedicated on Saturday, August 16th.

Katy Singlaub, County Manager, advised that the Mayors of the Cities of Reno and Sparks requested a special meeting on Friday to reconsider an action taken by the TMWA Board. Commissioner Galloway stated if the action was reconsidered and did not move forward, he would not request a discussion item; but, if it did, he felt there should be a discussion item where the TMWA Board would be invited to explain what they were contemplating.

Ms. Singlaub advised Dan Burk, Registrar of Voters, would be coming to the Board with a report on August 19th or later regarding the implementation of the Election Task Force’s recommendations. She stated there would be fixed locations for the entire two weeks of early voting as the result of those recommendations.

(All Commission Districts.)”

Katy Singlaub, County Manager, advised the Community Outreach Specialist was not a new position.

Michael Martino, Program Manager, explained the Community Outreach Specialist position was developed and approved in 1991 to deal with early intervention and prevention. He said these individuals had a background in Social Work and worked with families in the community to keep situations from evolving to the point where they became involved in the formal arrest and probation process. He stated Community Outreach Specialists staffed two community offices and this position would supervise young men and women after school between the hours of 2:30 to 8:00 p.m.

Commissioner Humke disclosed he served on the Nevada Juvenile Justice Commission.

(Commission District 1.)”

In response to the call for public comment, Sam Dehne said he was glad the TMWA Board would have a special meeting on Friday to hopefully come to their senses, and he favored this transfer.

On motion by Commissioner Galloway, seconded by Commissioner Jung, which motion duly carried, it was ordered that Agenda Item 7G be approved, authorized, executed, and directed.

BLOCK VOTE – AGENDA ITEMS 8, 10, 11, 12, 14, 15, 17, AND 19

08-820 AGENDA ITEM 8 – WATER RESOURCES

Agenda Subject: “Recommendation to approve Agreement for Consulting Engineering Services between the County of Washoe and Aqua Hydrogeologic Consulting (sole source) to prepare a Letter of Map Revision and Inundation Map
for the North Spanish Springs Flood Detention Facility [$59,360]; and if approved, authorize Chairman to execute Agreement--Water Resources. (Commission District 4.)”

Agenda Subject: “Recommendation to approve and authorize the Department of Water Resources to execute Change Order No. 4 [$201,410.31 - increases contract amount to $8,797,389.34] for the North Spanish Springs Floodplain Detention Facility--Water Resources. (Commission District 4.)”

Jeanne Ruefer, Planning Manager, advised this was the final change order for a large and complex project. She explained unauthorized off-road vehicles going up and down the channels created a dust control issue that severely impacted a stretch of homes. She advised controlling off-road vehicles’ access to the site was also why the fencing was put in and the impact of the unauthorized vehicles was not anticipated in the original contract. She stated the activity on the site also violated existing ordinances that prohibited off-road vehicles from operating within 500 feet of a home, but she was only aware of two individuals being charged with trespass. Commissioner Galloway hoped next time this type of thing could be anticipated and the Sheriff’s Office could be waiting to take action when the off-road vehicle activity first started. Chairman Larkin commented extensive public outreach was done towards individuals that were suspected of using their off-road vehicles in that area, which significantly curtailed that activity.

In response to the call for public comment, Sam Dehne commented on the amount of the original contract and the change order.

On motion by Commissioner Weber, seconded by Commissioner Humke, which motion duly carried, it was ordered that Agenda Item 10 be approved, authorized, and executed.

(All Commission Districts.)”

On motion by Commissioner Weber, seconded by Commissioner Humke, which motion duly carried, Chairman Larkin ordered that Agenda Item 12 be awarded, authorized, and executed.

AGENDA ITEM 14 – MANAGEMENT SERVICES/EMERGENCY MANAGEMENT

Agenda Subject: “Recommendation to accept a 2007 Public Safety Interoperable Communications Grant from the State of Nevada, Division of Emergency Management [$211,337, requires a County match of $31,172 included in the 2008/2009 budget, Cost Center 210200, Washoe County Regional Communications System Infrastructure Expansion Account]; and if accepted, direct Finance to make appropriate Fiscal Year 2009 budget adjustments—Management Services /Emergency Management. (All Commission Districts.)”

In response to the call for public comment, Sam Dehne commented on the amount of the grants.
On motion by Commissioner Weber, seconded by Commissioner Humke, which motion duly carried, it was ordered that Agenda Item 15 be approved, authorized, and executed. Four Resolutions for same are attached hereto and made a part of the minutes thereof.

(Commission District 1.)”

On motion by Commissioner Weber, seconded by Commissioner Humke, which motion duly carried, it was ordered that Agenda Item 17 be awarded, authorized, and executed.

08-827  AGENDA ITEM 19 – SHERIFF

Agenda Subject:  “Recommendation to approve 20 Forensic Support Services Agreements between the County of Washoe (behalf of the Washoe County Sheriff’s Office Forensic Science Division) and various Local Law Enforcement Agencies for forensic laboratory analysis service fees for July 1, 2008 to June 30, 2009 [income of $348,247]; and if approved, authorize Chairman to execute Agreements–Sheriff. (Commission Districts 4 and 5.)”
Rosemary Menard, Water Resources Director, conducted a PowerPoint presentation, which was placed on file with the Clerk.

Steve Hartman, Vidler Water Company Vice President and Counsel, thanked Washoe County for its incredible cooperative effort, the Board for its support, and the residents of the North Valleys for their patience during construction. He said the Vidler Water Company strongly believed in public-private partnerships and in using private enterprise to solve resource problems. He also thanked the contractors, the subcontractors, and the Vidler employees for their work on the project and acknowledged the support received from the Bureau of Land Management (BLM) and the Pyramid Lake Paiute Tribe. He requested the Board approve the agreement.

Mr. Hartman clarified Fish Springs Ranch, LLC (FSR) acquired all of the rights-of-way and handled all of the permitting with the Federal government. He said all of the wells, well houses, pipes, and construction were paid for by FSR and, if the agreement was approved, all of that infrastructure would be owned by Washoe County. He explained FSR entered into a Water Banking Agreement with the County who held the legal title to all of the water rights. He said as new development started, FSR would assign its water rights credits under that agreement to the developer and the developer would make a one-time payment to FSR for that water, which would allow FSR to recover its investment. He said ongoing operation and maintenance would be covered by the rates charged by Washoe County.

Commissioner Galloway commented the Honey Lake project was scrapped because the taxpayers would have subsidized what could have been a losing proposition just so someone could build houses. He said that did not occur with this project, and he hoped FSR would more than recover its investment because they took the risk.

Commissioner Weber said she appreciated FSR’s willingness to work with the people who were impacted by the project, and she asked how the project would affect the domestic-well owners in the area. Ms. Menard said the aquifer in Lemmon Valley was declining a foot a year. She advised taking the municipal wells off the aquifer and replacing the well water with water from FSR, while the project ramped up to handle new development, would allow the aquifer to recover somewhat so some domestic well owners could see their situation improve. She stated it was not going to solve Lemmon Valley’s problem, but would contribute positively to the current situation.

Commissioner Humke commended the Vidler Water Company and the public-private partnership was a much talked about concept, but it really worked. He asked if a comprehensive review of water rates was being done for the Truckee Meadows Water Authority (TMWA) and the Water Resources Department. Ms. Menard explained the Commission had already authorized a rate review. She said a proposal would be brought to the Board by early 2009 that would incorporate the operating costs into the rates paid by the ratepayers. She stated there had been discussions on how to reduce power costs besides operating the system off-peak to take advantage of substantially
lower power costs to send the water down the pipeline, but experience would show the true cost of operating the system.

In response to Chairman Larkin, Mr. Hartman replied FSR was located totally within Washoe County.

In response to the call for public comment, Sam Dehne felt the Vidler Company did a wonderful job with this project, which he supported because it was not built with taxpayer’s money.

On motion by Commissioner Humke, seconded by Commissioner Weber, which motion duly carried, it was ordered that Agenda Item 9 be approved, authorized, and executed.

08-829 AGENDA ITEM 20 – COMMUNITY DEVELOPMENT

Agenda Subject: “Board of County Commission’s review, discussion and possible action on satisfaction of conditions established in Case No. AC07-012 (Amendment of Special Use Permit Case Number SB04-004 for David Mollenberg Grading) – Community Development. To consider the request of the applicant David Mollenberg to accept the grading and revegetation of the project as completed, and to obtain release of the Deed of Trust and the Promissory Note held pending satisfaction of conditions. The project is located approximately one-half mile east of the intersection of Pembroke Drive and Man of War Drive at the end of the dirt road. The ±40-acre parcel is designated General Rural (GR) in the Southeast Truckee Meadows Area Plan, and is situated in a portion of Section 20, T19N, R20E, MDM, Washoe County, Nevada. The property is located in the Southeast Truckee Meadows Citizen Advisory Board boundary and Washoe County Commission District No. 2. (APN: 051-010-03)”

Roger Pelham, Senior Planner, advised he had not received verification from the applicant that a professional engineer verified the current site contours matched those approved. He said in some disturbed areas there was good revegetation taking place, while other areas had very little revegetation. He said there was a difference of opinion between staff and the applicant regarding the existing contours and those that were approved and whether the Board should accept the contours as they existed today.

Commissioner Galloway indicated his problem was there was no staff recommendation. Mr. Pelham said he was not prepared to make a recommendation one way or the other because it was a judgment call based on whether the Board wanted to legitimize the grading that was done to stop any further disturbance. He believed the contours had not changed since this was last heard by the Board. Commissioner Galloway said he still had a problem because there was no staff recommendation, the contour he objected to was still there, and there was no engineer’s certification.
Commissioner Weber asked if the applicant met the requirements. Mr. Pelham said the review today was to determine if the request made by the Board was met, and he reiterated his comments regarding the revegetation and the contours. Commissioner Weber felt the Board only requested the revegetation be done at the last meeting. Mr. Pelham responded Condition 22 remained in effect, but the Board did not say in so many words to go meet the contour requirement.

Mr. Pelham said if the Board approved this as is, it would be clear the grading permit was closed and no additional grading could occur without another grading permit. Commissioner Galloway stated there was no need to make a motion regarding the contours because there was already an approved condition that required the approved contours be met. A discussion ensued regarding the two issues involving the contours.

Ken Krater, Mr. Mollenberg’s representative, said he was under the impression staff was satisfied with the regrading of the site, which met County Code requirements. He noted the revegetation of the graded slopes was successful based on the letter from Julie Etra, Western Botanical Services Inc., and the access road met engineering and Fire Department requirements.

Mr. Krater advised County Code allowed an applicant to use Geographical Information System (GIS) data when doing these types of designs, but when a new topo was done it was found there was a problem with the original topo used. He advised a licensed civil engineer would never certify that the site conformed to the original topo because the original topo was inaccurate. He felt if the project had been submitted with the current design, staff would have recommended approval.

Mr. Krater understood from the last meeting that the Commissioners wanted the revegetation to be deemed successful without using temporary irrigation and the access road had to be regraded to stop vehicle access. He said the property was one 40-acre parcel with one building pad and, if anyone bought it and wanted to build two homes, they would have to do a parcel split. He noted Mr. Mollenberg had someone interested in buying the site to build a house, but could not sell it unless the Deed of Trust and Promissory Note were released. He stated there would still be a requirement to maintain a substantial bond until it was determined the revegetation worked. He advised Mr. Mollenberg felt he complied with the Board’s wishes and directions from the October 2007 meeting.

Mr. Krater said the inaccurate topo created a five to 10 foot difference between the topo used for design and all of the other topo in the area. He said once the site was graded there was no way to see what the actual topo was, but he surmised that the inaccuracy carried through to the area where the grading was done. Commissioner Humke disclosed he was to the site several times with Mr. Krater and he felt the access road was not really a road because it would not support a full-sized vehicle. After further discussion about possible building sites, Commissioner Humke felt there would not be enough separation in elevation between the existing building pad and the wide spot in the bend of the road and it did not have enough area to be a legitimate building site. Mr.
Krater said the value of the parcel was the view from the building pad and anyone building a house in that flat area would block the view.

Mr. Krater said the regraded pad complied with the original Special Use Permit and the wide spot was only 50 feet by 50 feet. Commissioner Galloway disagreed that a house could not be built on the wide spot.

Commissioner Weber noted the letter from Ms. Etra indicated no further revegetation measures were recommended.

After further discussion, Mr. Pelham confirmed for Commissioner Galloway that the type of plan as it existed today could have been taken forward with a recommendation of approval to the Board of Adjustment, but he noted it would still have required a Special Use Permit. Commissioner Galloway said even with everything that had been done, if the Commission was satisfied because Mr. Mollenberg now had something that could be approved, it would be up to the Board to decide to accept the project as completed or not.

Commissioner Humke said he would trust Tom Judy, Southeast Truckee Meadows Citizen Advisory Board (CAB) Chair, to gauge the degree of dissatisfaction in the community. Mr. Judy advised the applicant did not comply with all of the requirements of Conditions 22 and 28 because the County had no certification nor had staff made a recommendation. He said regarding Condition 28, the access road was not eliminated but only had some boulders placed on it to make it difficult to drive on. He said the County required the site to be restored to the original elevation and, if the County could get a certification, then it could be agreed Condition 22 was met. Commissioner Humke asked if there was a remedy for Condition 28. Mr. Judy felt County staff could determine the best solution for the road. Commissioner Humke said Mr. Krater indicated if the vegetation down the hill on the north side had to be maintained, then that road could be used to haul water. Mr. Judy said the irrigation requirement was to restore the site, but that did not mean it had to last forever.

In response to the call for public comment, Mr. Judy discussed the project’s history. He noted the site was never fully restored to where it was originally but, if the requirements were met and certification provided, County staff would have had a recommendation. He understood the position staff was in and that the project would have worked if it had started at this point, but now the applicant was trying to fix what went wrong. He was concerned about establishing a precedent of letting what happened exist because it was too hard to fix it. He felt the Board needed to send a message that people had to follow the requirements placed on them by the County. He noted if Mr. Mollenberg was released to potentially sell the property, the County would give up its rights to require any further changes or repairs to the site. He stated the CAB was asking the County to enforce its Code.

The Chairman closed public comment.
Mr. Pelham said the plan in Condition 28 was to place boulders on the road that would be too big to be picked up, which would impede traffic. He said there was one boulder when he last visited the site, and he discussed where loosely packed fill was placed to approximate the original contour of the hillside. Commissioner Humke said the road was obviously a quad path, and he asked if the one boulder was sufficient to block quad traffic. Mr. Pelham said he could not recall its exact placement.

Adrian Freund, Community Development Director, reviewed the Board’s actions regarding the conditions as identified on Page 2 of the staff report, and stated why he felt the visual scar of the roadway would remain even if the road’s contours were changed. He noted any potential building permit would be held pending the Board’s satisfaction and would go somewhat towards the Board’s discussion regarding any building placement on the pad. He said staff did not say Condition 22 had been met because it clearly was not and it was up to the applicant to demonstrate Condition 28 was met.

In response to Commissioner Galloway, Mr. Freund confirmed Condition 8 was deleted by the Board. He said the report from the expert indicated the vegetation was growing well and there should be additional natural reseeding and vegetation growth next winter.

After further discussion, Mr. Freund advised Condition 28 said staff was responsible for determining when it was met and the boulders would be placed when site restoration was complete, but he could not say yet that Condition 28 had been met.

Mr. Freund said the property’s zoning would allow a single residence. He advised staff discussed establishing a pad envelope area for that residence and they would not support any residence being permitted on the lower area discussed earlier.

On motion by Commissioner Humke, seconded by Commissioner Galloway, which motion duly carried, Chairman Larkin ordered that Agenda Item 20 be conditionally approved to the extent there was compliance with the original Conditions 22 and 28 to restore the lower pad with additional fill and to place one boulder every 50 feet in a staggered pattern so a car could not use the road. He noted the approval would be affective when Community Development staff had verified they were completed.

4:37 p.m. The Board temporarily recessed.

4:52 p.m. The Board convened as the Board of Fire Commissioners for the Truckee Meadows Fire Protection District.

5:01 p.m. The Board convened as the Board of Trustees for the South Truckee Meadows General Improvement District.

5:04 p.m. The Board reconvened as the Board of County Commissioners
AGENDA ITEM 18 – PUBLIC WORKS

Agenda Subject: “Recommendation to approve Memorandum of Understanding between the County of Washoe and Redevelopment Agency of the City of Reno for the redevelopment of the Court Street Lot bounded by Court, Sierra, Virginia and Liberty Streets and owned by Washoe County; and if approved, authorize Chairman to execute Memorandum of Understanding—Public Works. (Commission District 3.)”

Katy Singlaub, County Manager, stated there was a change to the Memorandum of Understanding (MOU) to allow the County Manager or the Manager’s designee to approve expenditures of $25,000 or less. She said expenditures of more than $25,000 would still go before the Board of County Commissioners.

Dan St. John, Public Works Director, stated this was an opportunity to get together with the Redevelopment Agency of the City of Reno to develop a conceptual plan for the Board’s consideration. He said the conceptual plan would be used in the continuing process of seeking a public/private partnership with a partner who would be interested in developing the Court Street lot as well as meeting the County’s needs and the Redevelopment Agency’s vision for downtown. Chairman Larkin commented he was pleased to see the MOU moving forward.

Mr. St. John said the Redevelopment Agency was an expert in developing the downtown area and would greatly assist in getting the type of development agreement envisioned by the Commissioners. He advised the first step would be to form a committee represented equally by the Redevelopment Agency and Washoe County, and he described the composition of the committee as provided in the staff report. He explained the committee’s purpose was to define the best concept for redevelopment, which would then become the nucleus for proceeding forward and also for completing the Request for Proposal process. He noted the Redevelopment Agency had certain authorities the County did not have, such as the ability to negotiate and transfer land, that were believed to be necessary for the successful redevelopment of the site.

Chairman Larkin asked if State law allowed a County redevelopment agency. Ms. Singlaub replied it did and it could be looked at, but it was intended for counties that did not contain cities within their borders. She stated it would require creating a redevelopment district within the County’s jurisdiction, such as in Sun Valley. Commissioner Galloway advised it could never be in the downtown area because it was within the City of Reno’s jurisdiction and the Court Street lot was already in a redevelopment district. Ms. Singlaub confirmed a County redevelopment area would have to be within the County’s jurisdiction, which this area was not.

In response to Commissioner Galloway, Mr. St. John said the MOU encompassed the entire parcel, but it was made clear the highest and greatest need was expansion of the District Court and the Courts Master Plan would be used to meet that need. He confirmed any development agreement would not be inconsistent with the
Master Plan. He stated the idea right now was not to eliminate any possibilities, which was the reason for including the whole parcel. He advised the Courts Administrator was interested in doing this MOU.

James Graham, Redevelopment Agency of the City of Reno Economic Development Manager, advised the City and the Agency’s Board approved this MOU. He said the Redevelopment Agency would work with the County to create an environment that would be efficient, effective, and productive in carrying out the business of law in the downtown area. He thanked Mr. St. John and the Assistant County Managers, John Berkich and Dave Childs, for using a professional and very common sense approach towards working with the Agency in developing this important piece of property.

Mr. Graham confirmed the Agency’s view regarding the development of the site would be consistent with the Courts Master Plan. Chairman Larkin said he hoped creative venues would be developed that would be a win-win for everybody.

Commissioner Jung commented this was a great idea and commended the Redevelopment Agency and Washoe County staff that put the MOU together. She felt using the Agency’s expertise could fast-track this project. She said this parcel was the core of downtown and it was important that commercial features would be included to make a more vibrant and safer downtown.

Commissioner Galloway hoped the downtown area would get a real market even if it was not located at this site. He noted the market was needed by the residents moving into the downtown area, and he felt it would encourage more residents to do so. He noted specialty markets had done very well in other areas where upscale residential was developed in the downtown area.

In response to the call for public comment, Gary Schmidt opposed the MOU because the citizens were most affected by the County’s failure to plan for parking for the downtown Courts and because of the lack of citizen involvement in the process.

Mr. Schmidt continued talking after the allotted public comment time expired. Chairman Larkin said Mr. Schmidt was out of order. Mr. Schmidt made additional comments. Chairman Larkin said Mr. Schmidt was still out of order and any further outbursts would mean he would be escorted out of the Commission Chambers. Chairman Larkin commented the gesture placed upon the Commission by Mr. Schmidt constituted such an outburst, which was witnessed by all of the Commission members.

5:22 p.m. The Board recessed while Mr. Schmidt was escorted out of the Commission Chambers.

5:25 p.m. The Board reconvened with all members present.
Continuing public comment, Amy Harvey, County Clerk, commented she did not see herself or the District Attorney represented on the Development Committee. She requested one of them be allowed to provide some input since they were both users.

Garth Elliott said parking was needed and whatever was developed should augment the Discovery Center and the Nevada Museum of Art, both of which were very close to the site.

Chairman Larkin noted comments were made regarding citizens not being involved in this project, which were incorrect. He said citizens were involved with the building of the downtown courthouse and with other Redevelopment Agency projects, but he asked what would be the involvement by the public, the Clerk, and the District Attorney in this project. Mr. Graham replied the public was involved in a number of advisory committees that advise the Redevelopment Agency on a number of projects. He said the Development Committee could include other entities, but any changes would mean the agreement would have to go back to the Reno City Council because they approved the MOU based on the wording it contained.

Chairman Larkin said the MOU established the Development Committee, which was a steering committee, but there was nothing that precluded the creation of subcommittees within that Development Committee to include the various users. Mr. St. John replied there was a very active Downtown Courts working group that included all of the users. He felt as Public Works Director, he had to represent all of the users because he was technically the buildings’ landlord. He also felt he demonstrated he was open and available and the working group would continue meeting. He confirmed the departments of other elected officials who did not have direct representation on the Development Committee were members of the working group. He made the commitment to make sure anything that was done went through the users and the process would be very open. He reminded the Board that staff had gone out to the downtown citizen groups and would continue to do so to solicit input from the citizens most impacted.

Mr. Graham confirmed if subcommittees were created, the MOU would have to go back to the Reno City Council for approval, which would put the process back 60 days. He reiterated there were a variety of citizen groups the Redevelopment Agency worked with every day on projects and the process was porous with public participation.

Chairman Larkin said it was a steering committee with all final decisions being made by the Board of County Commissioners. He noted the Board was very sensitive to the Clerk’s concerns, but there had already been an experience with a group that was too large and not meeting with much success. He said he was very reticent about sending the MOU back and starting negotiations again. He asked the Clerk to work with the Board on this and he believed Mr. St. John would find when the Clerk called, he would listen. The Clerk said she appreciated that.
On motion by Commissioner Jung, seconded by Commissioner Weber, which motion duly carried, it was ordered that Agenda Item 18 be approved, authorized, and executed.

08-831 AGENDA ITEM 16 – MANAGEMENT SERVICES/COMMUNITY SUPPORT ADMINISTRATOR

**Agenda Subject:** “Recommendation to approve a Grant Program Contract between the County of Washoe and Restart, Inc. to sub-grant Low Income Housing Trust Funds [$208,430 and provide Washoe County support for program administration of $20,843 for a total amount of $229,273 for Fiscal Year 2008/09]; and if approved, authorize Chairman to execute Contract and Resolution necessary for same (grant provides assistance to families and seniors in danger of becoming homeless or who are homeless and are in need of assistance with utilities, security deposits, rent or a mortgage payment)—Management Services/Community Support Administrator. (All Commission Districts.)”

There was no public comment on this item.

On motion by Commissioner Galloway, seconded by Commissioner Weber, which motion duly carried, it was ordered that Agenda Item 16 be approved, authorized, and executed. The Resolution for same is attached hereto and made a part of the minutes thereof.

08-832 AGENDA ITEM 13 – COMMUNITY RELATIONS

**Agenda Subject:** “Clarification of direction regarding video broadcasting/production and webstreaming/video on demand services—Community Relations. (All Commission Districts.)”

Commissioner Jung asked about the price difference between what the County had now compared to what it had previously with Sierra Nevada Community Access Television (SNCAT). Kathy Carter, Community Relations Director, replied the total being paid to SNCAT was approximately $150,000 per year. She said currently the contractor was being paid $9,700 a month as an interim solution until a Request for Proposal (RFP) could be issued. She stated a separate contractor was providing video-streaming and Video On Demand for approximately $15,000 a year with a one-time cost of approximately $36,000. She said the County would be paying the same amount for what she felt was a much superior product.

Ms. Carter showed some of the slides that would be displayed on Washoe County’s bulletin board, which were placed on file with the Clerk. She said the bulletin board would provide timely information about County-specific programs and services to its citizens.
Ms. Carter noted after her presentation to the Board on May 27, 2008, she received four phone calls from vendors expressing interest and they all would be sent the RFP, including SNCAT.

Commissioner Galloway said the excerpts from the May 27th meeting gave Ms. Carter quite a bit of latitude. He stated his impression was it would be okay to continue looking while renewing the contract with SNCAT. Ms. Carter reiterated this was an interim solution until a bid could be chosen. She noted the current broadcast of the meetings was a much superior product, the meetings were being replayed, and the County bulletin board was available. She asked for the Board’s and the employees’ patience because there was 24-hour’s notice that video webcasting and Video On Demand services were being revoked.

Commissioner Jung requested the Commission meetings be replayed more often and on a more dependable schedule because the Video On Demand service was not currently available. Ms. Carter said the independent contractor was doing a much better job of putting the schedule on the bulletin board.

There was no public comment and no action taken on this item.

5:43 p.m. The Board temporarily recessed.

6:26 p.m. The Board reconvened with Chairman Larkin absent and Commissioner Galloway temporarily absent. Vice Chairman Weber assumed the gavel.

08-833 AGENDA ITEM 21 – COMMUNITY DEVELOPMENT

Agenda Subject: “Recommendation to review, consider modifications, and adopt, by Resolution, a Master Fee Schedule for 2008 as required by Article 906, Fees, Section 110.906.05, Fee Schedule, of the Washoe County Code Chapter 110, (Development Code) including new fees, adjusting fees annually by the CPI, and directing staff to return in no more than three years to review the Master Fee Schedule; and if adopted, authorize Chairman to execute Resolution--Community Development. (All Commission Districts.)”

Kim Robinson, Planning Manager, conducted a PowerPoint presentation, which was placed on file with the Clerk. She stated the existing fee schedule was adopted in 2006 with the proviso that fees would increase or decrease on July 1st of each year and would be tied to the Consumer Price Index (CPI), which this year would be a 4.1 percent increase. She said the fees also had to be reviewed every five years by the Board of County Commissioners. She noted the Budget and Community Development Departments jointly reviewed the underlying assumptions regarding staff time that were used to develop the Master Fee Schedule in 2006. Ms. Purcell advised the review indicated that the majority of the County’s fees currently recoup approximately 33 to 55 percent of staff-time costs. She noted fees were updated based on input from the Planning and Engineering staffs and by using the salary and benefits numbers. She said the new
Health Fees were reflected in this Master Fee Schedule. She stated Water Resources and Regional Parks and Open Space would be adopting their own fee schedules, which would then be incorporated into the Master Fee Schedule. She explained the proposed fees were based on recovering staff time and not on overhead or other operating costs.

6:29 p.m. Commissioner Galloway returned to the meeting.

Ms. Robinson discussed the fee comparison slide. She said staff was recommending the Board accept the staff-time recovery model and make it effective August 1, 2008. She said the new Master Fee Schedule was shared with the County’s Development Services Advisory Committee to get input from the building community and responses were generally positive.

Melanie Purcell, Budget Manager, explained the proposed fees were standardized at 100 percent recovery of staff-time costs without overhead and other operating costs. She said recouping the overhead and other operating costs would be worth evaluating later, but it was considered more important right now to establish the concept of cost recovery as opposed to the existing structure. She noted the County-wide Cost Allocation Plan was not broken out in a way that would make recovering those costs easy to do.

There was no public comment on this item.

On motion by Commissioner Jung, seconded by Commissioner Galloway, which motion duly carried with Chairman Larkin absent, it was ordered that Agenda Item 21 be adopted, directed, authorized, and executed. The Resolution for same is attached hereto and made a part of the minutes thereof.

AGENDA ITEM 26 - MANAGER

Agenda Subject: “Receipt, discussion and possible direction to staff regarding a report on the current County regulations and enforcement process for political campaign signs as well as draft language for possible Washoe County Code amendments concerning the regulation of political campaign signs--Manager. (Requested by Commissioners Weber and Humke.) (All Commissioner Districts.)”

Adrian Freund, Community Development Director, advised that a comprehensive rewrite of the County’s Sign Ordinance had been ongoing for several years and it was close to the point where it would be brought out for public discussion.

Mr. Freund discussed the current sign ordinance regarding temporary signs, which included election signs, as contained in the staff report dated July 14, 2008. He said as Director he had the authority under the Code to make Code interpretations and, because the Sign Code went back to 1986, there had been a great deal of case law relating to non-commercial speech. He discussed his interpretation of the case law and stated it was consistent with the way the Cities of Reno and Sparks regulated temporary signs with Sparks having a special provision for election-period signs. He advised that type of provision was found in many communities around the country and it regulated the size of a sign but not the total number of signs that could be placed on a property. He felt based on the existing case law, regulating the number of signs that could be placed on a property would probably be successfully challenged in court.
Mr. Freund discussed the applicable Code that applied to the seven complaints received this year regarding trailer-mounted signs. He stated all of the complaints were resolved voluntarily. He advised the County was responsible for Code enforcement in the Sphere of Influences for the Cities and the unincorporated areas of the County. He said letters were sent to all of the candidates reminding them of the Code regarding temporary signs and a second letter was sent to clarify the regulations regarding trailer-mounted signs.

Mr. Freund said the first recommendation was to begin public discussion on the draft Sign Code in its entirety as a replacement for the Chapter 110, Article Five in the Development Code. He stated reworking the Code must be done in concert with case law and must take into account the desires of the public and of the sign industry. He noted the second recommendation was to not change the rules in the middle of the election season.

In response to Commissioner Galloway, Bob Webb, Planning Manager, indicated the people receiving complaints were given a courtesy notice so they could voluntary come into compliance. He said everyone had voluntarily complied, and he explained what would have happened if they had not. Commissioner Galloway asked about Mr. Caselli’s plan to be in compliance after the election. Mr. Webb said Code Enforcement Officers would only react to complaints and, if there was progress towards compliance during the 30-day notice period, Code Enforcement Officers would typically extend the notice to allow voluntary compliance before issuing a citation.

Mr. Freund explained if the axels were taken off a trailer and then put back so it could be towed on a road; the regulations clearly stated the trailer must be registered. He noted Mr. Caselli indicated he was pulling his County signs out of circulation for a short period to bring them into compliance.

Commissioner Galloway asked if there was some way to handle vehicles with signs on them that never seemed to move. He saw nothing wrong with driving the vehicle to a game and parking it, but the key was it would not be left there. Mr. Webb said for those particular vehicles, the Code Enforcement Officer would talk with the owner of the business and the owner would have to demonstrate the vehicle was used for transporting goods or personnel, which typically meant the vehicle was moved once to a different location. He felt the language in the Code could be tightened up regarding the length of time if that was a concern. Commissioner Galloway said he had never received an official complaint, but raised the issue because he had seen such vehicles. He stated complaints were received about banners and signs on vehicles at Galena Junction and the Code should have a way to deal with them. Mr. Freund replied that was worth looking at as the new regulations were drafted.

Vice Chairman Weber asked for clarification regarding the statement that the County enforced Code for both the Cities of Reno and Sparks. Mr. Freund explained a city did not take on all of the services one might commonly think of as planning and
zoning related when a city extended its territorial jurisdiction, but only those powers specific to Nevada Revised Statue (NRS) 278.

Vice Chairman Weber said she understood each jurisdiction had its own Code that were all just a little bit different, but had there been any discussion about making them the same. Mr. Freund said that was a policy decision the Board would make when the Sign Code was brought to the Board and staff would bring a matrix containing those differences at that time. He stated the Codes were very similar besides election-period signs, and he felt some of the differences stemmed from the age of the County’s Code.

Vice Chairman Weber felt the language for election signs had to be clear and distinct with everyone using the same terminology and should include fines in some cases, such as for signs left up too long. Mr. Freund stated he concurred with Vice Chairman Weber’s sentiments regarding removal of signage, because the County incurred costs to remove them from a right-of-way after the elections were over. He indicated the County’s Code clearly needed a section related to election-period signs and it was clearly a policy decision to what extent the Board wanted to regulate those signs within the framework of case law on non-commercial speech.

Vice Chairman Weber said the Regional Transportation Commission (RTC) and the Nevada Department of Transportation (NDOT) took down the signs and destroyed them if they were placed illegally. She asked if the signs could be tagged instead and it would be the candidate’s responsibility to remove them. She advised those signs cost a lot of money and were only put where they were because it was believed that spot was correct. She felt people who had been in office should help work on the new ordinance and then it should go to the public, RTC, and NDOT to make it all work. Mr. Freund mentioned the Clark County situation where candidates or their agents, who had signs that were found to be illegal, were being told the signs needed to be moved. He said there were few of those instances here because the system was complaint driven and County staff was not actively out looking for illegally placed signs. Vice Chairman Weber advised a couple of agencies were out looking for illegally placed signs.

Commissioner Jung cautioned that any unintended consequences should be looked at if the Board decided to take a hard line on the freedom of speech issues, as well as making a regulation that someone could use to their advantage to hurt their opponent. She encouraged staff to look at the other municipalities to try and achieve some uniformity if at all possible, and she also agreed with having people with some experience providing feedback.

Commissioner Galloway suggested getting together with the other entities and putting together all the Code that was the same and then having special sections for those things that differed. Mr. Freund commented that might be difficult to achieve because Code rewrites were not done too often, but when they were rewritten he agreed that was the direction in which to move. Commissioner Galloway asked staff to look at the issue of signs mounted in the bed of pickup trucks.
In response to Commissioner Humke, Mr. Freund said State Vehicle Code required trailers that were hauled on the road to be registered. He stated the County could take the position that it was a State requirement and the County would not enforce it, but there was another section of the Code that talked about operable and inoperable vehicles and there was an attempt to harmonize those two regulations. He indicated he would investigate what Clark County did regarding elections signs having the wheels removed. He said he had just taken the required training on planning law, and there was some concern that a number of cases in the last few years were striking down the total duration requirement on signage. He advised the County needed to take a look at that to see if the County was on thin ice from the case law standpoint.

Commissioner Humke commented an ordinance regulating sound that was directed at the construction industry was eventually rescinded because of jurisdictional issues. He said it was felt if this type of ordinance was done again, it needed to be done on a comprehensive basis with all of the entities. He felt it was a form of harassment for candidates running county-wide to have to comply with the regulations of three different local governments, NDOT, and RTC. Commissioner Galloway said this was the chance to give direction, and he asked if the ordinance should say that having a license did not apply to political signs during election season. Commissioner Humke said the current Ordinance was not enforceable in a fair and equitable manner.

Commissioner Humke felt if you owned a pickup truck and were campaigning, you should be able to put a sign in the back and park it at a football game and not being able to do that sounded wrong to him. Mr. Freund said that had been a relatively rare complaint, but that issue would be taken under advisement. Commissioner Galloway said the whole point was it was complaint driven. He suggested if it became intractable, political signs could be exempted during an election season to promote a healthier election environment where people would not spend their time complaining about their opponent.

Vice Chairman Weber suggested political signs should be removed between the primary and the general election. She felt the licensing of the trailers was an area that the County should not be involved in.

Commissioner Galloway commented if the requirement was the trailer had to be licensed and the license had to be on it, it made it easier to steal. Vice Chairman Weber said they had been stolen. Commissioner Galloway felt proof the trailer was licensed should be sufficient. Mr. Freund said when the trailers were registered there would be proof of registration. He said they were all good suggestions as the ordinance changes moved forward. He noted the District Attorney would be looking at potential changes because of the sensitivity of the free speech issues.

In response to the call for public comment, Garth Elliott said he wanted a lot of public involvement in the process, and he discussed the license issues for trailers.
Vice Chairman Weber said she wanted public input, but did not feel a citizens committee should come up with the changes. She felt staff should work with the other entities and with candidates to draft the changes. Commissioner Galloway noted there was an open public hearing before any ordinance was passed, and for the public to be heard if there was an issue.

In response to Vice Chairman Weber, Mr. Freund summarized the following issues that needed to be looked at:

- Separately regulating time periods relative to the primary and general elections.
- Licensure of trailers and trailers with wheels taken off.
- Commonality with other jurisdictions including common terminology.
- Car or truck mounted mobile signs.
- Banners.
- Enforceable regulations that could not be manipulated.
- Time limits to pick up signs after the general election and the consequences for not doing so.

Commissioner Galloway added not changing the ordinance in the middle of an election season.

Mike Harper, Planning Manager, explained one of the reasons for separating out election signage and political speech was because an attorney who had worked for the Federal Communications Commission pointed out the current Ordinance did not address those two important issues. He noted election signs and political speech were protected in different ways. He said the staff report indicted the flavor of what might be coming, and he discussed the process of revising the Billboard Ordinance. He noted the revised Ordinance would be distributed next month to the two political parties, the sign industry, and the Citizen Advisory Boards. He also hoped one or two of the Commissioners would be willing to sit on some type of steering committee.

No action was taken on this item.

**AGENDA ITEM 27 – MANAGEMENT SERVICES/GOVERNMENT AFFAIRS**

**Agenda Subject:** “Discussion and direction to staff regarding legislation or legislative issues proposed by Legislators, by Washoe County or by other entities permitted by the Nevada State Legislature to submit bill draft requests, or such legislative issues as may be deemed by the Chair or the Board to be of critical significance to Washoe County, or issues arising out of the special legislative session—Management Services/Government Affairs. (All Commission Districts.)”

John Berkich, Assistant County Manager, indicated there was nothing to report.
AGENDA ITEM 38

Agenda Subject: “Reports/updates from County Commission members concerning various boards/commissions they may be a member of or liaison to (these may include, but not be limited to, Regional Transportation Commission, Reno-Sparks Convention & Visitors Authority, Debt Management Commission, District Board of Health, Truckee Meadows Water Authority, Organizational Effectiveness Committee, Investment Management Committee, Citizen Advisory Boards).”

Commissioner Jung noted she would be attending the Regional Planning Governing Board meeting this Thursday at 2:00 p.m. here in the Commission Chambers in the Vice Chairman’s stead.

Commissioner Galloway asked if Commissioner Humke could attend the Regional Planning Governing Board meeting in his stead. Commissioner Humke replied he had the Health Board meeting, which generally overlapped it. He indicated the Reno Sparks Convention and Visitors Authority (RSCVA) meeting would occur on Thursday also.

Commissioner Humke discussed why a person was excluded earlier from the meeting. He said he requested the individual apologize and was rebuffed. Vice Chairman Weber felt what was done was appalling and asked if there was someone the Board could go to when someone takes that kind of action. Melanie Foster, Legal Counsel, said the District Attorney’s Office would be happy to come back and discuss the issues and what the Board’s options were, since it had been several years since the last discussion.

* * * * * * * * * *

7:55 p.m. There being no further business to discuss, on motion by Commissioner Humke, seconded by Commissioner Jung, which motion duly carried with Chairman Larkin absent, Vice Chairman Weber ordered that the meeting be adjourned.

Any increase in the annual fee shall be due and payable in full within 30 days after execution of said addendum.

C. In the event that the governing body of the county fails to obligate any funds necessary to carry out the duties created hereunder beyond the county's then current fiscal year, this agreement shall terminate without charge, penalty, or sanction.

D. During the term of this Agreement, in the event that WASHOE shall be required to engage the consultation services of any outside forensic laboratory or specialist in order to provide USER with any additional expertise or equipment outside of the current capability of WASHOE to perform for USER, USER shall reimburse WASHOE in full for any costs or fees incurred as a result of said consultation. Any such consultation fees shall be due and payable in full within 15 days of USER’S receipt of billing by WASHOE for any such consultation services.

E. In the event that USER shall require the testimony of any of the staff of WASHOE in any legal proceedings in order to testify as to any testing or certification performed for USER pursuant to this Agreement, USER agrees to reimburse WASHOE for any compensation, benefits, travel and per diem costs incurred by WASHOE in providing said staff at the time, place and for the purposes required to assist USER. Any such reimbursement shall be due and payable in full within 15 days of USER’S receipt of billing by WASHOE for any such staff services.

2. **INDEMNIFICATION:** USER agrees to indemnify, defend and hold harmless WASHOE, its officers, employees, and agents, from and against any and all claims, demands, or actions by any person or entity which arise or result from any act or omission to act on the part of any officers, employees, or agents of USER in connection with the services to be provided pursuant to this Agreement.

B. Either party to this Agreement may terminate this Agreement at any time of the term of the Agreement by giving the other party to this Agreement 180 days prior written notice.

C.
