The Washoe County Board of Commissioners convened at 2:05 p.m. in regular session in the Commission Chambers of the Washoe County Administration Complex, 1001 East Ninth Street, Reno, Nevada. Following the Pledge of Allegiance to the flag of our Country, the Clerk called the roll and the Board conducted the following business:

County Manager Katy Simon stated: "The Chairman and Board of County Commissioners intend that their proceedings should demonstrate the highest levels of decorum, civic responsibility, efficiency and mutual respect between citizens and their government. The Board respects the right of citizens to present differing opinions and views, even criticism, but our democracy cannot function effectively in an environment of personal attacks, slander, threats of violence, and willful disruption. To that end, the Nevada Open Meeting Law provides the authority for the Chair of a public body to maintain the decorum and to declare a recess if needed to remove any person who is disrupting the meeting, and notice is hereby provided of the intent of this body to preserve the decorum and remove anyone who disrupts the proceedings."

County Manager Katy Simon read the proclamation and presented it to Greg Krause, Board Chair; Karen Barsell, CEO and President; and Teri Juhl-Blackett, Vice President of the United Way of Northern Nevada and the Sierra. She also acknowledged Assistant County Manager John Berkich as the Chairman for the County’s 2008 United Way campaign. Ms. Barsell thanked everyone at the County for all the things they did to live united and for honoring the United Way.

There was no response to the call for public comment.
On motion by Commissioner Humke, seconded by Commissioner Weber, which motion duly carried, it was ordered that Agenda Item 3 be adopted. The Proclamation for same is attached hereto and made a part of the minutes thereof.

08-1140    AGENDA ITEM 5 – ANNOUNCEMENTS

Agenda Subject: “Commissioners’/Manager’s Announcements, Requests for Information, Topics for Future Agendas and Statements Relating to Items Not on the Agenda. (No discussion among Commissioners will take place on this item.)”

Commissioner Humke said he received a call from Fire Services Coordinator Kurt Latipow, who reported there was a fire in Pleasant Valley that did not appear to be threatening any structures. He announced a ceremony being held by the Second Judicial District to swear in graduating volunteers for the Court Appointed Special Advocates (CASA) program. He read a letter addressed to Planning Manager Bob Webb, which commended the work of Code Enforcement Officer Mike Kennedy.

Commissioner Weber commended Mr. Latipow and thanked him for keeping all of the commissioners informed and updated whenever there was emergency response to a fire.

Chairman Larkin requested that a special public meeting be scheduled to provide information and obtain citizen input for a large wind turbine project proposed in the Warm Springs Valley. He said he was generally supportive of the project, but wanted to protect the view shed and sight lines in the area.

Commissioner Galloway noted the City of Sparks had some unused space at its previous bus station location. He wondered whether any County departments might have some suggestions that would save the taxpayers some money if negotiations to use the space were started early. He indicated he had been contacted by an El Dorado County Supervisor regarding an economic planning item for Lake Tahoe, which seemed to be moving forward more quickly than anticipated. He urged the matter be brought to the Incline Village General Improvement District for discussion and comment to determine whether it would be beneficial for Washoe County to get involved in the planning effort.
Commissioner Jung announced an upcoming biannual book bonanza sponsored by the Friends of Washoe County Library, which raised money every year for the County libraries. She stated she and Commissioner Weber attended a meeting in which Washoe County, the City of Reno and the Reno-Sparks Convention & Visitors Authority worked to bring the 2012 World Choir Games to Reno. She pointed out the event would bring about 20,000 international visitors for approximately three weeks during the same month that Artown would take place.

Chairman Larkin pointed out the Flood Management’s second project had been approved, and would involve the restoration of an area of the river at Lockwood that would also become a regional park facility. Commissioner Jung thanked Chairman Larkin for his leadership in moving the Flood Project forward.
In response to the call for public comment, Sam Dehne stated the Flood Project was a wonderful thing for Washoe County. He wondered where the money would come from to restore homes lost in the horrible flood in Galveston, Texas and still fund projects such as those in Washoe County.

Chairman Larkin invited any citizens who were interested in how such projects were funded to participate in meetings of the Flood Project Coordinating Committee, which were held on the third Friday of every month.

On motion by Commissioner Jung, seconded by Commissioner Weber, which motion duly carried, it was ordered that Agenda Item 6F be acknowledged.

**08-1147  AGENDA ITEM 6G – PURCHASING DEPARTMENT**

**Agenda Subject:** “Award Bid #2663-09 Janitorial Services for the Washoe County Reno and Sparks Branch Libraries and award Bid #2667-09 Janitorial Services for 350 S. Center Street, to the lowest, responsive, responsible bidder, Qual-Econ U.S.A., Inc., [$3,252 per month for Reno Library; $2,178 per month for Sparks Library; $6,510 per month for 350 S. Center Street - total amount $95,520]; and if all awarded, authorize Acting Purchasing and Contracts Administrator to execute an eight-month agreement for both libraries and 350 S. Center Street. (Commission Districts 3 and 4)”

Commissioner Galloway questioned why the janitorial contracts were only for a period of eight months. County Manager Katy Simon explained the County was working to gain efficiency by consolidating the bid process for its many small janitorial contracts. She stated the expiration of the contract term would coincide with the expiration of other janitorial contracts, which could then be consolidated into larger contracts. Commissioner Galloway asked whether consolidation would still allow companies to bid any or all of the various contracts. Dan St. John, Director of Public Works, indicated there were currently about three main vendors providing services for approximately 30-40 janitorial contracts that were each bid at random times during the year, which resulted in a lot of administrative work for the vendors and for the County. He said the consolidation would result in fewer contracts, but staff expected it might also attract more competitive bid prices. He pointed out the contracts for Incline Village and Gerlach would continue to be bid separately.

Commissioner Jung asked why there was no clause in the contracts for the janitorial services to empty the recycling bins. Mr. St. John explained County employees were responsible for putting recyclable materials into centralized areas at their work locations. Mike Sullens, Senior Buyer, clarified there had been an option in the bids to have custodial contractors empty the recycling bins. Because such services were extremely expensive, a determination was made that County staff would empty the containers until a better solution could be found. Commissioner Jung requested a brief operational status report about commercial recycling services.
Commissioner Jung remarked it would be more responsible for the County to have contracts that encouraged vendors to provide healthcare benefits to their workers in order to decrease what the County ended up paying for indigent healthcare services provided at local emergency rooms. Mr. St. John indicated the future contracts for the consolidated bids were currently being written and would involve significant dollar amounts. He agreed to discuss the Commission’s direction about healthcare benefits as the process moved forward.

08-1160 AGENDA ITEM 7 – APPEARANCE

Agenda Subject: “Greg Krause, Executive Director, Regional Transportation Commission: Presentation regarding Washoe County Ballot Questions RTC-2 for public transportation and RTC-5 for streets and highways.”

Greg Krause, Executive Director of the Regional Transportation Commission (RTC), conducted a PowerPoint presentation, which was placed on file with the Clerk. He emphasized it was necessary for people and goods in the Truckee Meadows to move quickly and efficiently in order to have a strong economy, and stated improved safety was also an important consideration for transportation within the community. With current revenue streams, he said the average per person delay in traffic was expected to grow from 2 minutes to 47 minutes by the year 2040. He talked about the outlook for funding streets, highways and public mass transit through 2040, as well as the causes of
funding shortfalls in those areas. He pointed out that public transit use was at an all-time high. Mr. Krause reviewed the recommendations of the RTC Blue Ribbon Committee on Transportation Funding. He outlined the financial impacts and benefits that would occur if RTC-2 and RTC-5 were to be approved by the voters.

2:47 p.m. Chairman Larkin temporarily left the meeting.

2:50 p.m. Chairman Larkin returned to the meeting.

Commissioner Galloway indicated he was impressed with the idea of indexing to protect fuel taxes from inflationary pressure. He pointed out the wording in RTC-5 advised the Washoe County Board of Commissioners to seek State legislation for increased funding of transportation projects, but did not specify indexing. He asked Mr. Krause what he would do if voters approved the advisory question and the Legislature looked at funding mechanisms other than indexing. Mr. Krause acknowledged there were no guarantees, and indicated there was specific discussion about indexing in the explanation attached to the ballot question. He said he hoped community leaders would help RTC staff to convey the original intent of the ballot measure if the Legislature were to pursue a different direction.

There was no action taken on this item.

08-1161 AGENDA ITEM 10 – PUBLIC WORKS

Agenda Subject: “Discussion regarding a request by an Eagle Scout Candidate to install a commemorative marker on a portion of APN 552-131-02 to honor James Pierson Beckwourth; and, discussion and possible direction regarding disposition of the remainder of the subject parcel. (Commission District 5)”

Canaan Peterson, Eagle Scout Candidate, explained he wanted to place a commemorative marker on a County-owned parcel located on North Hills Boulevard in order to honor a portion of the trail pioneered by James Beckwourth in the 1850’s.

Commissioner Weber expressed concern that the historical site was difficult to access and there was no safe place for visitors to park. She suggested placing some type of marker or interpretive history at the North Valleys Regional Park or at the park located in Black Springs. Mr. Peterson commented it would be beneficial for people to get the historical feeling of the actual site rather than the museum experience of materials placed elsewhere. Commissioner Weber said she was not certain whether the location would facilitate the goal of sharing the history with others. Commissioner Humke noted the site was within walking distance of the North Valleys Library, and stated a display at the Library could point visitors to the actual site. Commissioner Weber indicated a crosswalk might be necessary due to the traffic on North Hills Boulevard. Commissioner Galloway observed that commemorative markers were often placed at roadside turnouts, and not necessarily at the exact site being commemorated. Mr. Peterson stated there was no safe location at the side of the road. Commissioner Weber
wondered whether Mr. Peterson could put together a video that captured footage of the site, but was available at the Library. Commissioner Jung agreed there would be a wider audience if materials were placed at the Library. She noted James Beckwourth was an African-American pioneer who discovered the lowest pass through the Sierra Nevada Mountains, and then established a trail from the Truckee Meadows to Marysville. Commissioner Humke indicated a five- to ten-minute video to attract people to the nearby plaque was a great idea, and suggested Mr. Peterson could include part of his Eagle Scout installation ceremony. Commissioner Galloway pointed out the Commission could recommend to the Library Board of Trustees that they entertain a proposal from Mr. Peterson if he was willing to pursue the idea of a library exhibit.

In response to Chairman Larkin’s questions about the proposed boundary line adjustment, Director of Public Works Dan St. John stated the intent was to create a marketable surplus parcel by separating the non-historic portion from the portion containing the historic trail. Chairman Larkin pointed out the proposed boundary line appeared to transect some kind of drainage on the County-owned parcel. Wendy Pitts, Property Program Manager, indicated she talked with the owner of an adjacent parcel, who asked the County to consider keeping the drainage under County ownership. She said the adjacent property owner wanted to purchase the non-historic surplus parcel and offered to make a parking area available for visitors who wanted to access the commemorative marker. She said the parcel could be offered for purchase to the adjacent owner at its appraised value at the time the boundary line adjustment was made.

Chairman Larkin asked Mr. Peterson to consider placing a very substantial in-ground marker that would be difficult for anyone to remove. Mr. Peterson said he also planned to have informational pamphlets printed for distribution at schools.

Commissioner Weber pointed out there would be costs associated with the boundary line adjustment. She asked about the safety of those trying to access the marker and its proximity to Highway 395. Mr. St. John replied it would be prudent to get the Nevada Department of Transportation involved and to evaluate whether fencing might be required to separate the areas. Commissioner Weber said she supported placing an exhibit at the Library, but there was no safe parking and no crosswalks to allow visitors to walk to a marker at the historical site. She indicated she loved the idea, but was also concerned about potential costs to the taxpayer for a boundary line adjustment. Ms. Pitts stated staff was hoping sale of the surplus property would cover expenses for the boundary line adjustment.

There was no public comment on this item.

Commissioner Weber moved to deny the request of the Eagle Scout candidate to install a commemorative marker as recommended by staff. There was no second to the motion.

Commissioner Weber reiterated she would like to support Mr. Peterson’s request, but did not believe the location for the commemorative marker would be a safe
spot. She said there were likely to be some additional costs and, even with the boundary line adjustment, there would be no visitor parking for some period of time.

Commissioner Galloway observed there was precedent and value in putting historical markers on property, even if the land was later developed. For example, he said there had been a marker at a site where the Donner Party once camped. The marker was perpetuated when the Atlantis Casino was built on the site and was still visible at that location.

Commissioner Humke commented the marker would give citizens access to history. He pointed out once the trail was gone, it was gone; as evidenced by the fact that there was now a freeway where the rest of the trail used to be. He noted the historical marker could be preserved with an easement, even if the County later sold the property. He also suggested there might be a way to gain access from North Hills Boulevard and to incorporate signage that would tie everything together, thereby providing good exercise when nearby school kids and their parents went to see the plaque and the historical wagon swale site.

Chairman Larkin congratulated Mr. Peterson for making his presentation before the Board.

Commissioner Weber indicated she would support the request, although she still had some safety concerns. She hoped Mr. Peterson would consider putting together a video and doing an exhibit at the Library, as well as making materials available at other parks in the area.

On motion by Commissioner Humke, seconded by Commissioner Galloway which motion duly carried, it was ordered that the request by Eagle Scout Candidate Canaan Peterson to install a commemorative marker on a portion of APN 552-131-02 to honor James Pierson Beckwourth be approved. It was further recommended to the Library Board of Trustees that they consider placement of a historical exhibit at the North Valleys Library upon Mr. Peterson’s request.

On motion by Commissioner Humke, seconded by Commissioner Galloway, which motion duly carried, the Board directed staff to seek the proposed boundary line adjustment as outlined on the map attached to the staff report and to seek equitable compensation in the disposition of the approximately 37,639 square foot remainder parcel.

08-1162 AGENDA ITEM 11 – COMMUNITY DEVELOPMENT

Agenda Subject: “Introduction and first reading of an Ordinance amending provisions relating to Washoe County Code Chapter 110, Article 916 by amending the names of and identifies the vote of the fire agencies who serve as members of the Parcel Map Review Committee, and adding the Washoe County Fire Services
Coordinator, and other matters properly relating thereto. (All Commission Districts)"

There was no public comment on this item.

Bill No. 1566, entitled, “AN ORDINANCE AMENDING PROVISIONS RELATING TO WASHOE COUNTY CODE CHAPTER 110, ARTICLE 916 BY AMENDING THE NAMES OF AND IDENTIFIES THE VOTE OF THE FIRE AGENCIES WHO SERVE AS MEMBERS OF THE PARCEL MAP REVIEW COMMITTEE, AND ADDING THE WASHOE COUNTY FIRE SERVICES COORDINATOR, AND OTHER MATTERS PROPERLY RELATING THERETO” was introduced by Commissioner Galloway, the title read to the Board and legal notice for final action of adoption directed.

08-1163 AGENDA ITEM 12 – COMMUNITY DEVELOPMENT

Agenda Subject: “Discussion, direction to staff and possible action to: (1) grant or deny the Planning Commission's request, to the Board of County Commissioners for additional time to augment the Planning Commission’s report on the Board of County Commissioners’ requested September 8, 2008 changes/additions to the Planning Commission’s July 15, 2008 adopted amendments to the South Valleys Area Plan--Washoe Valley Portion, Comprehensive Plan Amendment Case No. CP08-005; and (2) if the Planning Commission’s request for additional time is granted, to schedule a public hearing, preferably no later than the end of December 2008, before the Board of County Commissioners to consider the Planning Commission’s augmented report (expected to be completed by the end of November 2008). (Commission District 2)”

3:41 p.m. Commissioner Weber temporarily left the meeting.

Commissioner Humke said he had been assured by Adrian Freund, Director of Community Development, that the Area Plan update would be expedited and would not fall behind the updating of any other area plans. Commissioner Galloway said complete consensus for the Area Plan might not be possible and he believed the Board might ultimately have to make a decision that left all of the parties a little bit unhappy.

There was no public comment on this item.

On motion by Commissioner Humke, seconded by Commissioner Galloway, which motion duly carried with Commissioner Weber absent, presentation of the staff report for Agenda Item 12 was waived and it was ordered that the Planning Commission’s request for additional time be granted.
AGENDA ITEM 13 – REGIONAL PARKS AND OPEN SPACE

Agenda Subject: “Recommendation to approve a request from Incline Village General Improvement District for the use of Residential Construction Tax 4B Funds [approximately $550,000] to construct a public park on land purchased from Washoe County School District. (Commission District 1)”

Chairman Larkin asked how the public could be assured the park would have some kind of signage indicating it was a public park and not a closed neighborhood area of some kind. Doug Doolittle, Director of Regional Parks and Open Space, indicated it could be stipulated through an agreement that the park would remain open to the general public in perpetuity. He said that was a condition of approval for the use of any residential construction tax funds and it was reasonable to get such assurances from the Incline Village General Improvement District (IVGID).

Commissioner Galloway stated the park was an example where property could be transferred so that all the entities could have what they needed and the community at large could benefit. Bill Horn, General Manager of IVGID, thanked Washoe County for continuing to work with him on the project over the last five or six years. He explained the park project was a collaborative effort between IVGID, the Washoe County School District, the Incline Village Citizen Advisory Board and the entire community.

There was no response to the call for public comment.

On motion by Commissioner Galloway, seconded by Commissioner Humke, which motion duly carried with Commissioner Weber absent, it was ordered that Agenda Item 13 be approved.

AGENDA ITEM 14 – DISTRICT HEALTH DEPARTMENT/AIR QUALITY DIVISION

Agenda Subject: “Presentation by the Washoe County Green Team regarding current activities and the 2008/09 action plan; recommendation to approve International Council for Environmental Initiatives (ICLEI) Local Governments for Sustainability Resolution to proactively reduce our greenhouse gas emissions; and if approved, authorize Chairman to sign the Resolution and join ICLEI the annual dues of $2,750 to be paid by the Health District; and, if membership is approved, appoint one member from the Board of County Commissioners to serve as the primary elected official contact for the ICLEI application. (All Commission Districts)”

Andy Goodrich, Air Quality Director, Chair of the Washoe County Green Team and Chair of the Governor’s Advisory Climate Change Committee, provided an update on the activities of the Green Team, which was made up of 16 representatives from a variety of County departments and divisions. He pointed out the Green Team put
together the second edition of the *Environmental Action Update* brochure, which was placed on file with the Clerk. Sarah Tone, Community Outreach Coordinator, talked about some of the County’s sustainability programs that were covered in the brochure. She pointed out there was a recycling resource guide and phone list provided to the public on the back of the brochure.

Mr. Goodrich conducted a PowerPoint presentation, which was placed on file with the Clerk. He recapped some of the Green Team’s accomplishments, including the implementation of an information-sharing database on the County’s Intranet; attendance at Earth Day, the Reno Green Summit and Washoe County Day; organization of a successful Conservation Day event; sponsorship of Webinar educational events; and enhanced recycling efforts at several key Washoe County facilities. He said the Team was participating in regional green sustainability planning efforts with the City of Reno, City of Sparks, University of Nevada Reno, Truckee Meadows Community College and the Reno-Tahoe Airport. He stated there were six working groups developing action plans in the areas of water and wastewater, transportation, energy, waste reduction, built environment, and outreach and education. Mr. Goodrich listed the Green Team’s key projects for 2008-09, including increased internal recycling education, energy audit, promoting wind and solar power, collaborative/regional efforts, and establishing baseline carbon dioxide levels for County operations. He said the team was also investigating reduction in the use of plastic bottles and reduction of e-waste. He distributed some articles about bottled water, which were placed on file with the Clerk. He pointed out tap water was better regulated than bottled water and plastic bottles had a huge environmental and financial impact. He emphasized the Green Team encouraged the use of refillable water containers.

Mr. Goodrich provided an overview of the activities of the State Advisory Climate Change Committee, which was convened in 2007 by Governor Gibbons to develop recommendations for reducing Nevada’s greenhouse gas emissions. He noted the Committee came out with 47 recommendations that were primarily centered on electricity generation and transmission. He indicated several of the recommendations could impact local government operations, such as equipment energy standards, revised energy building codes and alternative fuel requirements for fleets. If deemed appropriate by the Governor, a State office would be responsible for moving the recommendations forward.

Mr. Goodrich requested Board approval for the County to become a member of the International Council for Local Environmental Initiatives (ICLEI), joining nearly 500 other member cities and counties across the nation. Based on his review of numerous organizations, he said he was confident that ICLEI was the right choice to provide sustainability assistance to the County. He explained the organization had developed a local government operations protocol for the quantification and reporting of greenhouse gas emission inventories. He pointed out the protocol was endorsed by several agencies, and ICLEI was also recognized by the National Association of Counties (NACo) as a valuable resource. He stated ICLEI membership would provide the tools, software, support and technical assistance to accomplish five milestones related to
greenhouse gas emissions that were listed in the proposed Resolution before the Board. He noted there were State pollution grant funds received by the Health District that would pay for the first year’s membership. As part of the membership, ICLEI requested the Board pass a Resolution in support of the greenhouse gas emission milestones and appoint an elected representative as a contact person. Mr. Goodrich said he would act as the staff contact to ICLEI.

In response to a question by Chairman Larkin, Mr. Goodrich indicated he was not aware of anything contained in the Resolution that required the County to endorse the Kyoto Agreements.

Commissioner Jung stated she previously requested the placement of a carbon footprint calculator on a County website, and indicated it might be used to motivate citizens to donate money for the purchase of trees or for parks and recreation. She requested the Board be updated by the end of the year regarding progress with a behavior modification component that was included in a contract previously awarded to NORESCO to audit energy savings opportunities. She suggested the large wind farm proposed for Warm Springs should be included in the Green Team’s materials, and commented she would like to see the County consider becoming its own purveyor/exporter of energy. She said there should be further overtures to create a regional green team and discussion of such items should be placed on formal agendas. Commissioner Jung mentioned the Nevada Association of Counties negotiated some tremendous prices for supplies, materials and cleaning products that were all certified as green. She asked for information by the end of the calendar year concerning the County’s purchase and use of Styrofoam materials. She wondered if there were any organic dry cleaners in the area that could be identified by the Green Team. She suggested fleet vehicles should be replaced with smaller hybrid vehicles where possible. She asked for more information about where County computers went when they were replaced. She identified the use of recycled paint and land use development codes as other areas for improvement.

Commissioner Galloway asked whether commissioners and employees could contact the Green Team for information or advice. Mr. Goodrich indicated they could and provided his contact information as part of the PowerPoint presentation.

Chairman Larkin observed there were several communities on the ICLEI website membership list that were well ahead in terms of what they were doing. He indicated he had some reservations about joining any organization, and was concerned about who backed them and what they were all about. He said it appeared staff was suggesting the County needed collaboration in order to gain more resources. Mr. Goodrich replied the assistance and software provided by ICLEI would allow staff to do a creditable job and to use traceable data while a carbon footprint was being established for the County. He assured Chairman Larkin he was satisfied the organization had the appropriate science behind their carbon footprint calculator. He pointed out nearly 500 other cities and counties had joined ICLEI, and they were recognized by NACo as a reputable organization.
Commissioner Galloway said he had heard about a major new initiative in California regarding greenhouse gases. Mr. Goodrich indicated Assembly Bill 32 had passed in California, which opened a whole litany of controls, strategies and measures to address greenhouse gas emissions.

There was no public comment on this item.

On motion by Commissioner Galloway, seconded by Commissioner Humke, which motion duly carried with Commissioner Weber absent, the report of the Green Team in Agenda Item 14 was accepted, the Resolution to join the International Council for Environmental Initiatives (ICLEI) was approved, Chairman Larkin was authorized to execute the Resolution, and Commissioner Jung was appointed as the primary elected contact person to ICLEI. The Resolution for same is attached hereto and made a part of the minutes thereof.

Commissioner Galloway indicated the Tahoe Regional Planning Agency (TRPA) would be reconsidering a Placer County proposal to narrow Highway 28 in Kings Beach. He stated narrowing the road would cause more delays in the summer traffic at Lake Tahoe, and he was not aware that any meetings were held to consider the impact on transportation times to such places as Truckee or Tahoe City. He asked for information from the Green Team concerning the amount of greenhouse gases and fuel consumption caused by a 15-minute delay for 24,000 cars per day over four months of the year.

Commissioner Galloway said he voted no during the TRPA’s consideration of the Shorezone Ordinance because he wanted the deletion of certain provisions that could open the door to declaring public access on private property where it did not presently exist. He stated a compromise was passed that deleted provisions for Nevada, but he thought it would have been less open to legal challenge if the provisions had been stripped from the Ordinance entirely. He pointed out the Ordinance would allow a limited number of new piers at Lake Tahoe for the first time in 20 years.

Commissioner Galloway announced a meeting of the Human Services Consortium, where limited grant funds would be allocated to various organizations based on the highest priority program needs in the County.

Chairman Larkin reminded the public of the early voting available in Washoe County through October 31, and encouraged everyone to get out and vote.

Commissioner Humke stated the District Board of Health passed a policy measure that would require staff to bring new grant program requests forward while the budget was being built rather than in the middle of the fiscal year. He explained the issue was raised because of a family planning initiative with a university in Denver that would have required the County to persuade the Nevada State Health Department to fund a statewide program after accepting grant funds. He said the Board of Health reversed its acceptance of the grant funds approximately one month into the program because the

4. To coordinate all activities related to Project advertising, receive and review construction bids, and enter into a contract with the contractor submitting the lowest responsive and responsible bid.

5. To maintain necessary files on the Project.
6. To pay all authorized Project costs from the Regional Street and Highway Fund, the Regional Road Impact Fee Fund, or the Transportation Sales Tax Fund. Payments for construction or engineering services will be paid to the contractor or consultant upon receipt of a claim or claims which have been certified as a true and correct account of the expenses incurred as a result of or in conjunction with the provisions of a contract entered into as a result of this Agreement. All submitted claims will have supporting documents attached which substantiate the basis of the claim. Such claim or claims shall be reviewed and approved in accordance with the policies and procedures of the RTC.

7. To not permit the payment of non-reimbursable or non-payable items established by the policies and procedures of the RTC unless expressly provided herein. The amount reimbursable or payable under this Agreement is estimated as follows:

B. Participating agencies intend on participating in the management and operation of the project on an equal level. Each participating agency will have an equal vote on all matters before the Executive Board.
C. For any regular or special meeting an Executive Board Member may designate a proxy to represent the interests of that Executive Board Member. The proxy will be
deemed to have all rights and privileges of an Executive Board Member for the duration of that regular or special meeting.

D. Selection of Task Force members for assignment to ATAC will be at the discretion of each participating agency.

E. The direction or removal of law enforcement personnel assigned to the Task Force will be in accordance with inter-agency concurrence at the Executive Board level with maximum cooperation and in a spirit of a one-agency concept, as well as with local agency rules and procedures.

F. The Washoe County Sheriff’s Office will supervise the day to day operations of the Task Force and all activity occurring within the boundaries of Washoe County. The DPS will supervise the Task Force during all activity occurring outside the boundaries of Washoe County and within the state of Nevada. Both agencies will follow their respective Chain-of-Command in all administrative and operational issues within their respective responsibilities and authority.

VIII. REPORT WRITING

Each officer assigned to the ATAC Task Force will be required to complete incident and investigative reports using WCSO format for crimes committed within Washoe County and

AGENDA

WASHOE COUNTY BOARD OF COMMISSIONERS

COMMISSION CHAMBERS - 1001 E. 9th Street, Reno, Nevada

October 28, 2008
2:00 p.m.

NOTE: Items on the agenda without a time designation may not necessarily be considered in the order in which they appear on the agenda. Items may be moved to or from the Consent Agenda at the beginning of the Board Meeting or may be voted on in a block.

The Washoe County Commission Chambers are accessible to the disabled. If you require special arrangements for the meeting, call the County Manager’s Office, 328-2000, 24-hours prior to the meeting.

Public Comment during the Commission Meeting on October 28, 2008 will be for all matters, both on and off the agenda, and be limited to two minutes per person. Additionally, public comment of two minutes per person will be heard during individual action items on the agenda. Persons are invited to submit comments in writing on the agenda items and/or attend and make comment on that item at the Commission meeting.

The Chairman and Board of County Commissioners intend that their proceedings should demonstrate the highest levels of decorum, civic responsibility, efficiency and mutual respect between citizens and their government. The Board respects the right of citizens to present differing opinions and views, even criticism, but our democracy cannot function effectively in an environment of personal attacks, slander, threats of violence and willful disruption. To that end, the Nevada Open Meeting Law provides the authority for the Chair of a public body to maintain the decorum and to declare a recess if needed to remove any person who is disrupting the meeting, and notice is hereby provided of the intent of this body to preserve the decorum and remove anyone who disrupts the proceedings.

The County Commission can deliberate or take action only if a matter has been listed on an agenda properly posted prior to the meeting. During the public comment period, speakers may address matters listed or not listed on the published agenda. The Open Meeting Law does not expressly prohibit responses to public comments by the Commission. However, responses from Commissioners to unlisted public comment topics could become deliberation on a matter without notice to the public. On the advice of legal counsel and to ensure the public has notice of all matters the Commission will consider, Commissioners may choose not to respond to public comments, except to correct factual inaccuracies, ask for County staff action or to ask that a matter be listed on a future agenda. The Commission may do this either during the public comment item or during the following item: “Commissioners'/Manager's Announcements, Requests for Information, Topics for Future Agendas and Statements Relating to Items Not on the Agenda”.
