The Washoe County Board of Commissioners convened at 10:05 a.m. in regular session in the Commission Chambers of the Washoe County Administration Complex, 1001 East Ninth Street, Reno, Nevada. Following the Pledge of Allegiance to the flag of our Country, the Clerk called the roll and the Board conducted the following business:

County Manager Katy Simon stated: "The Chairman and the Board of County Commissioners intend that their proceedings should demonstrate the highest levels of decorum, civic responsibility, efficiency and mutual respect between citizens and their government. The Board respects the right of citizens to present differing opinions and views, even criticism, but our democracy cannot function effectively in an environment of personal attacks, slander, threats of violence, and willful disruption. To that end, the Nevada Open Meeting Law provides the authority for the Chair of a public body to maintain the decorum and to declare a recess if needed to remove any person who is disrupting the meeting, and notice is hereby provided of the intent of this body to preserve the decorum and remove anyone who disrupts the proceedings."

**Agenda Subject:** “Proclamation--November 2010 as Pancreatic Cancer Awareness Month requested by Commissioner Humke. (All Commission Districts.)”

Commissioner Breternitz read and presented the Proclamation to Virginia and Stuart Jed. Ms. Jed thanked the Board for proclaiming November as Pancreatic Cancer Awareness Month. Currently, she explained her husband was battling Pancreatic Cancer and noted that the survival rate for this form of cancer was 6 percent after five years. Ms. Jed urged the Board to wear purple during their November meeting to show support and awareness for Pancreatic Cancer. She indicated Pancreatic Cancer had the only single digit survival rate and since there were no means of early detection, 75
percent of people diagnosed with this form of cancer would not survive within the first year of diagnosis.

Agenda Subject: “Resolution--recognizing Washoe County School District’s Door to Door for Student Achievement campaign. (All Commission Districts.)”

Chairman Humke read and presented the Resolution to Dr. Heath Morrison, Washoe County School District Superintendent and Estela Levario Gutierrez, School Board Trustees President.

Ms. Levario Gutierrez thanked the Board for their recognition. She said the School Board was on a pathway to reform and change and explained this program was one of many strategies that would be used.

Dr. Morrison commented under the leadership of the Board of Trustees, the School District was dedicated to improving the quality of education across the school community. He said the most transparent way to show that improvement was how the graduation rate was approached. Dr. Morrison said there was a morale imperative concerning the 64,000 students in the District, which was to have all students walk across the stage and receive a diploma that would enable a passport for a better tomorrow. As a result of the door-to-door campaign last year, the graduation rate increased by seven points, which equated to a 63 percent graduation rate. However, there was still much more work to be accomplished. He said there was an economic imperative to have
students graduate, because if a student did not graduate they would earn less than half of what a graduate would earn over their lifetime. He indicated if the male graduation rate increased by 5 percent in the State that would generate $28 million to the economy. Dr. Morrison acknowledged the goal was to have every child graduate.

In response to the call for public comment, Sam Dehne applauded the efforts of the School District to improve attendance.

John Hargrove, Energy Efficiency and Conservation Program Manager, NV Energy, applauded Washoe County for their energy efficiency and renewable energy efforts. He presented a rebate check to the Board in the amount of $594,686 for the Solar Installations at four Washoe County facilities. He indicated that the rebate program had 800 similar projects completed across the State, totaling six million watts worth of power. He said because the Solar Program was so successful, there were now programs to
support the development of wind resources, small hydro resources and solar water heating.

Dan St. John, Public Works Director, said this was the first major project for solar installations and the partnership with NV Energy was critical, as was the success of gaining grants through the stimulus funds. He commended Michael Del Ostia, Project Manager, and Dave Solaro, Assistant Public Works Director, for their diligence and expertise. Mr. St. John said with the acceptance of the rebates, the Capital Improvement Fund would be reimbursed money that was utilized to fund the project to this point.

Mr. Del Ostia stated the four facilities that received the solar installations were: the Northwest Library; Buildings A and B of the County Complex; and, the Senior Center.

In response to the call for public comment, Sam Dehne stated his support for the work of NV Energy. He began speaking about the upcoming General Election and the City of Reno mayoral race.

Garth Elliott spoke on a recent press release from the City of Sparks concerning sustainability. He said the County needed to take a department-by-department approach in order to justify the existence of certain departments.

Bob Ackerman remarked on the status of the Arrowcreek Fire Station. He said the design package would soon be submitted to the County for approval and citizens hoped for a quick review of the design to ensure a speedy bid process.

### 10-970 AGENDA ITEM 9 – ANNOUNCEMENTS

**Agenda Subject:** “Commissioners’/Manager’s Announcements, Requests for Information, Topics for Future Agendas and Statements Relating to Items Not on the Agenda. (No discussion among Commissioners will take place on this item.)”

Commissioner Jung said the Regional Parks and Open Space Department received $1 million in Southern Nevada Public Land Management Act (SNPLMA) funds. She explained those funds would be used to build a trailhead for the Ballardini area, and she thanked Senator Harry Reid for helping to receive those funds. Commissioner Jung requested an update from the Ruby Pipeline, LLC, concerning their commitment to use local labor. In the staff report for that item, she requested the previous comments and promises be included that were made from executives of the Ruby Pipeline.

In response to Commissioner Jung’s concerns, Commissioner Weber remarked that she had met with Operating Engineers of the Ruby Pipeline and was told there were over 300 local employees. Commissioner Jung stated she was aware of the number of Operating Engineers, but indicated jobs were promised across all labor unions, specifically the drill pumping stations, which she declared did not have one worker from Nevada. Commissioner Breternitz commented when this item was heard, there was an effort to place a requirement that the Ruby Pipeline adhere to the promises made; however, the Board was informed by legal counsel that requirement could not be made.

Commissioner Weber requested an item to discuss State Statutes regarding the ability to combine the Board of Adjustment and the Planning Commission. She reminded citizens that early voting would end on October 29, 2010 and, in the future, requested a discussion to consider shortening the number of days for early voting.

Chairman Humke said he received a letter from Senator John Lee, which was placed on file with the Clerk, thanking the Board for allowing his presentation. Senator Lee asserted his awareness of Washoe County and the other 16 counties concerns with the sweeping of revenues from local government and stated his commitment to prevent that from happening. Chairman Humke said, due to recent localized flooding, he
received a citizen concern about foot bridges being washed out in the Anderson Park vicinity and requested staff look into the matter. On a sad note, Chairman Humke expressed the condolences of the Board for the recent passing of Sierra Fire Protection District Chief Michael Greene’s father-in-law.

Commissioner Breternitz announced that he attended the inauguration for Assistant County Manager Dave Childs to the Presidency of the International City/County Management Association (ICMA). He stated this showed the professionalism and respect members of the County’s senior staff had amongst their peers. Commissioner Breternitz requested a status report on the modification of the volunteer application, but noted an agenda item was not warranted.

(All Commission Districts.) Continued from September 28, 2010 Commission meeting.”
Garrett Gordon, Lewis and Roca, LLP representing Nevada Land, LLC, explained the request was to grant an extension to substitute the existing $750,000 debt service reserve (DSR) for the car rental fee revenue bonds issued for the Reno Aces Baseball Stadium project. This extension would require Nevada Land to replace the DSR with another instrument on or before January 1, 2012. He said a letter was submitted to the Board on October 25, 2010 that was placed on file with the Clerk, which assured the Board that this would be the only request for an extension.

Commissioner Breternitz disclosed that he met with Mr. Gordon and Mr. Jerry Katzoff on this matter. Lee Gibson, Executive Director, Regional Transportation Commission (RTC), and Jeff Hale, RTC Engineering Director, conducted a PowerPoint presentation, which was placed on file with the Clerk. The presentation highlighted the RTC-5 Street and Highway Program, RTC-5 CY2010 Preventive Maintenance, Pavement Preservation Program and the Regional Road Impact Fee Projects.

Commissioner Jung stated the projects outlined were selected primarily through the Pavement Condition Index (PCI). Mr. Hale stated that was correct. He explained the roads that the RTC participated in for the maintenance program were
regional roads. He said structural and functional distresses were reviewed as well as the types of cracking that related to traffic volume, and then the streets were selected and prioritized. Commissioner Jung asked if the complaint records were requested from the different agencies once the PCI was determined. Mr. Hale replied complaint records were not part of that review, but levels of maintenance were considered.

There was no action taken or public comment on this item.

10-1004 AGENDA ITEM 13 - APPEARANCE

Agenda Subject: “Travis Johnson, P.E. Manager, Electric Transportation & Emerging Technology, NV Energy. Presentation regarding electric vehicles: understanding the extent and benefits of the new electric vehicle market and how it affects our community. (Requested by Commissioner Jung.)”

Travis Johnson, P.E. Manager, Electric Transportation & Emerging Technology, NV Energy, conducted a PowerPoint presentation, which was placed on file with the Clerk. The presentation highlighted plug-in vehicles, battery warranty, upcoming vehicles, affordability, energy costs, energy security, geothermal power in Nevada, Carbon Dioxide (CO2) emissions and air quality.

Commissioner Breternitz acknowledged he was a firm believer in the future of plug-in vehicles; however, much of the highway maintenance was performed on the collection of the Fuel Tax. He questioned if there was a significant increase in the number of electric vehicles, how would the roads continue to be maintained. Mr. Johnson replied there were various models being discussed and touched briefly on a few of those models. He said he did not have all the information available for those models, but if requested would supply that data to the Board.

Commissioner Weber shared that she used a scooter that was a plug-in vehicle.

Chairman Humke asked what the average unit cost was for installing the electric bays or charging stations and how that cost would be allocated. Mr. Johnson indicated the average cost for a charging bay was $2,000 to $4,000. He added that the Electric Power Institute (EPI) had an electric power pyramid that explained the allocation and where the major charging source would come from such as, home, employer charging stations or public stations.

There was no action taken or public comment on this item.
The following agenda items were consolidated and voted on in a block vote: Agenda Items 15, 16, 17, 18 and 19.

Commissioner Larkin reported that during the Regional Planning Governing Board (RPGB) meeting there was a subcommittee of the RPGB and the Regional Transportation Commission (RTC), who were requested during a previous RPGB meeting to convene and discuss the financing of a possible collaboration with other entities. He explained this was to study the possible consolidation of the Boards, not the organizations, but the Boards of the Western Regional Water Commission (WRWC), the RPGB and RTC in an effort to collocate the meetings since many of the same individuals were on all those Boards. He noted that discussion concerning policy issues was scheduled for the Commission meeting of November 9, 2010. Commissioner Larkin announced the grand-opening of the RTC 4th Street Bus Station was scheduled for October 28, 2010 and invited the Commissioners to attend. He said the Flood Project Coordinating Committee (FPCC) moved their meeting to November 5, 2010 to accommodate members and noted at that meeting discussion would surround the Joint Powers Agreement.

2:45 p.m. Chairman Humke returned to the meeting and assumed the gavel.
Commissioner Weber stated she would attend the open-house for Community Development scheduled for 4:00 p.m. today.

Chairman Humke announced that the FPCC Finance subcommittee would not meet in November.

Commissioner Jung said she attended the West of Wells Neighborhood Activist Cooperative meeting and would help the Co-op work on some traffic calming issues in the area. She also attended the Neil Road Recreation Center to review the electrical upgrades that had recently been completed. Commissioner Jung stated that she attended a RTC/Sun Valley Town Hall meeting concerning the Northeast Connector. She reported on the Board of Library Trustees meeting and explained a scanner for the Library had been developed from a library employee, through the Information Technology Department, which would save the County approximately $300,000 a year. She also attended the Regional Jobs Team meeting, which she noted was becoming successful and encouraged the other Board members to attend. Commissioner Jung announced that she would present Teresa Benitiz-Thompson to the 20 Under 40 celebration on November 4, 2010 and added that Ms. Thompson was chosen from 165 nominees to achieve this honor.

Commissioner Breternitz stated due to the upcoming holidays, the Tahoe Regional Planning Agency (TRPA) meetings had been changed to the third Wednesday and Thursday of the month, which placed him in conflict with the Truckee Meadows Water Authority (TMWA) Board meetings. He requested an alternate for the November and December TMWA meetings.
