The Washoe County Board of Commissioners convened at 10:00 a.m. in regular session in the Commission Chambers of the Washoe County Administration Complex, 1001 East Ninth Street, Reno, Nevada. Following the Pledge of Allegiance to the flag of our Country, the Clerk called the roll and the Board conducted the following business:

Chair Lucey announced Assistant County Manager Kevin Schiller would run the meeting as it was his last official day on the dais.

17-0512   AGENDA ITEM 3  Public Comment.

Mr. Roger Edwards, a termed-out Planning Commissioner for eight years who spent many years on Citizen Advisory Boards (CABs), expressed concern about Agenda Item 24. He stated with all the development happening in the County, it was not the time to minimize the public’s involvement with the decision-making process. He opposed cutting any CAB representation and suggested expanding CABs in the northern areas of the County.

Mr. Ray Lake, Chairman of the North Valleys CAB, stressed the importance of monthly CAB meetings, noting the North Valleys had not had as many development meetings and some of their meetings had been cancelled. He expressed reservations about combining four North Valleys CABs into one, saying the concerns of one area were often irrelevant to citizens in other areas. He agreed with the need to expand CABs rather than combine them.

Mr. Peewee Henson noted a prior discussion about sharing open space for shooting but expressed concern that the conversation had shifted to regulation and assigning new boundaries. He felt cutting off shooting for everyone was unfair since many gun owners were safe. He alleged the funding for signs was ready but the County was waiting for more money in order to regulate new boundaries on the mountain.
Ms. Carol Burns thanked the Truckee Meadows Fire Protection District (TMFPD), Maureen O’Brien from the Manager’s Office, and several other entities for their participation in a recent cleanup in Sun Valley to lessen fire danger. She recommended the County adopt an emergency prohibition of outdoor target shooting to prevent fires and suggested shooters could instead use the range on Pyramid Highway.

Ms. Vicky Maltman thanked Commissioner Jung for visiting her home to view the flood damage. She expressed frustration that District 1 had twelve CAB meetings while her CAB held only four. She emphasized CABs increased the deliberativeness of governments by allowing volunteer citizens to be part of the governmental process and expressed frustration at feeling ignored. She provided a handout which was placed on file with the Clerk.

Ms. Tammy Holt-Still provided a handout which was distributed to the Board and placed on file with the Clerk. She expressed disappointment over comments made on a conference call with federal agencies. She stated there were only 27 weeks until Christmas and spoke about Swan Lake being a closed basin as well as water that was being pumped from Military Road. She reported there was a proposal for a grant and she asked the County for support. She suggested using Tiger Dam systems to prevent further flooding at Shane Way and Pompe Way and she relayed there was a developer who planned to use Tiger Dams possibly without the County’s knowledge. She announced Flood Forum USA approved a pro-bono hydrologist for Lemmon Valley.

Ms. Tracy Hall displayed photos of the flooding in her yard; they were placed on file with the Clerk. She stated once the water went down her septic would need time to dry out but she did not think that would happen before winter. She spoke about a five-year-old neighbor who was diagnosed with Post-Traumatic Stress Disorder as a result of the flooding. While she expressed frustration over the actions to address the flooding, she thanked Social Services Director Amber Howell for helping her acquire extended housing. She asked the County to help displaced families get back into their homes.

Ms. Katherine Snedigar expressed frustration at the lack of a fire truck to provide protection for the residents of Palomino Valley. She stated citizens paid taxes for fire service but felt there was inadequate protection.

Mr. Garth Elliot stated Sun Valley had a CAB since the 1970s and it was never once based on development. He said there were over 24,000 people in Sun Valley and the CAB was the channel by which they informed their Commissioners. He suggested leaving the CABs as they were rather than hiring more employees and alleged the Cities of Reno and Sparks extolled the virtue of their CABs and Neighborhood Advisory Boards (NABs).

Ms. Donna Clontz, a member of the Senior Citizen Advisory Committee, spoke on behalf of Chairman Dr. Larry Weiss to thank Ms. Howell for hearing the
Committee’s concerns. She noted the language in the code was left unchanged so representatives from each district would be people with expertise in the senior field with additional representation from elected officials. She supported the wording of the ordinance and looked forward to the second reading.

Ms. Lynda Nelson, a natural resource specialist from the Nevada Land Trust, provided an update on the One Truckee River Project. She recognized AmeriCorps students Nick Mazzoni, Meg Parker, and Emily Ulrich, who were present, along with Cessie Pulley, who was absent, and remarked they spent 6,800 hours on the project. She explained what the AmeriCorps organization was about and praised the individual achievements of each of the students: Mr. Mazzoni conducted a Truckee River watershed survey, Ms. Ulrich performed baseline mapping, and Ms. Parker created a watershed education plan and teacher resource guide.

Ms. Christi Cakiroglu, Executive Director of Keep Truckee Meadows Beautiful, thanked the Board for approving the project. She informed the Board they began placing mile markers, giving first responders points of reference during water rescues. She stated the Nevada Department of Wildlife placed lifejacket stations at two points along the river and the Truckee Meadows Water Authority (TWMA) hoped to install porta-potties in Fisherman’s Park. She indicated they would begin planning phase two since they secured additional funding. She commended Washoe County case workers for helping people along the river and provided goodie bags to the Clerk to distribute to the Board.

Ms. Elisabeth Gambrell stated she worked with the CABs in Gerlach and found some success with information being disseminated through CABs. She noted her district comprised over 89 percent of the landmass in Washoe County and there were currently four CABs representing that area. She suggested the Board consider citizens’ interests and commute times before redistributing the CABs. She said district forums had some viability but CABs were the one true link to the Board.

17-0513 AGENDA ITEM 4 Announcements/Reports.

Commissioner Jung directed staff to look into an emergency moratorium on target shooting and suggested as a compromise offering free shooting at the County facility off of Pyramid Highway. She asked Sheriff’s deputies and citizens to report illegal shooting. She requested an update on the claim made during public comment of a developer displacing water in Lemmon Valley. She praised Lynda Nelson and former Parks Director Doug Doolittle for giving back to the community even after retirement.

Commissioner Hartung stated he and Chair Lucey attended the National Sheriff’s Association (NSA) conference and said it was well-attended. He requested Senior Licensed Engineer Rick Warner give a presentation to the Board previously given to the Western Regional Water Commission about water quality issues. He agreed with Commissioner Jung about target shooting and referenced an email request by a Forest Service Fire Management Officer asking for a temporary ban. He asserted the biggest
problem was steel-jacketed bullets and suggested there could be a way to work with sellers of ammunition to educate buyers. He supported Commissioner Jung’s idea of free time at the shooting range and requested an update on the signage for outdoor shooting areas. He added Tribal leaders contacted him about a similar moratorium on shooting around Spanish Springs because they were concerned.

Commissioner Herman pointed out CABs brought invaluable information from the rural areas to the County that could save tax dollars. She suggested certain groups should be given five minutes for public comment rather than three. She emphasized the need for signage in shooting areas but expressed reservations about stopping all shooting. Were there to be a moratorium, she would want it to be only for fire season. She asked how much it cost the Parks Department to clean up after people’s dogs.

Chair Lucey spoke about the NSA conference and noted he heard much praise for Sheriff Chuck Allen and his department. He noted the presence at the conference of Deputy Attorney General Rod Rosenstein and Judge Jeanine Pirro who spoke about the opioid epidemic and its impact on the Sheriff’s Office. He mentioned Secretary of the Interior Ryan Zinke was present at the conference hosted by Nevada Attorney General Adam Laxalt. He spoke of the support for the Payment in Lieu of Taxes program that would see $26 million come to Nevada if reauthorized. He commented with 89 percent of County land being owned by the government, it was important to have the federal government’s support. He requested an update on the Washoe Golf Course and announced Agenda Item 30 would be moved to earlier in the meeting.

Later in the meeting, Agenda Item 4 was reopened. Commissioner Hartung expressed frustration with the current trading of services between the County and the City of Reno and directed staff to present options the County could exercise instead of the current agreement.

Community Services. (All Commission Districts.)

Commissioner Hartung asked what the reason was for the amendment if the Truckee Meadows Water Authority was not going to take over the duty. Community Services Director Dave Solaro replied the dedication of water rights was a holdover from the days when the County was in the water business and they required a dedication before leasing the water back to the purveyor. He indicated the request was made by the owner of a horse-boarding facility in Warm Springs with whom the County had a leaseback project. Mr. Solaro confirmed Commissioner Hartung’s assessment that there would be no liability on the Board’s part.

Commissioner Hartung pointed out that the City of Reno was not included in the list of agencies. He opined there was a disparity between the dispatch services Reno provided versus the forensic service the County provided Reno. When asked by Commissioner Hartung for an explanation of the scope of work included, Undersheriff Susan Schilling deferred to Sheriff’s Office Forensics Science Division Director Kerri Heward, who indicated the toxicology section was established at a later date and operated under a different budget. She confirmed Commissioner Hartung’s assertion all agencies including the City of Reno would pay for toxicology separately.

Commissioner Hartung remarked talks about dispatch had stalled and suggested directing the County Manager to determine the status of the dispatch situation. He said though it was not his preference, the County could do its own dispatch if necessary like the City of Sparks. He asked if the Truckee Meadows Fire Protection District (TMFPD) was included in the dispatch the County received. Chief Deputy Sheriff Russ Pedersen responded the TMFPD, the North Lake Tahoe Fire Protection District, and Tribal agencies all had separate contracts that were approved by the Board; they all paid the Sheriff’s Office for those dispatch services.

Commissioner Hartung recommended directing the Manager to send a letter to the City of Reno to address the disparity and discuss solutions. He stressed they did not want to cut any agency out of receiving forensics services; the direction was to attempt to achieve equality. Commissioner Berkbigler noted the agreement could be terminated by giving three or six months’ notice. She stressed coming up with a solution for dispatch since she claimed it was not fair to the citizens of unincorporated Washoe County. She stated the City of Reno should pay its fair share, noting that neither the Reno Police Department nor the Reno Fire Department paid for the service.
Chair Lucey guessed if the Sparks Police Department paid $435,500 for forensics services, the City of Reno would owe the County almost $900,000. Mr. Pedersen stated the amount owed would be $1.2 million. Chair Lucey said he would support a motion to eliminate the trading of services. Deputy District Attorney Paul Lipparelli pointed out the Agenda Item allowed for the approval of contracts with various other agencies but it did not mention the absence of the City of Reno. He said the Chair could give direction to bring back the item in a future agenda.

There was no public comment on this item.

On motion by Commissioner Hartung, seconded by Commissioner Berkbigler, which motion duly carried, it was ordered that Agenda Item 11 be approved as stated in the staff report.

Chair Lucey briefly re-opened Commissioner’s Announcements; see Agenda Item 4 for the discussion.

Manager. (All Commission Districts.)

Budget Manager Mark Mathers provided a handout which was distributed to the Board and placed on record with Clerk. He conducted a PowerPoint presentation with slides titled: Use of Contingency and Budget Adjustments to Cover FY 2016-17 Disaster Expenses; January Flood Costs to Date; North Valleys Flood Costs to Date; Combined Flood Expenses by Month; June 27 Budget Actions; Going Forward; and Next Steps.

Mr. Mathers explained in addition to the funds impacted by flooding, the Utilities Fund absorbed costs possibly in excess of $500,000. Including the Utilities Fund, the County spent around $3.5 million on the two disaster events. He noted the expenses by month listed on the graph showed when vendors were paid, not when costs were incurred. Many of these expenses were related to the rental of pump equipment, labor, and the installation of HESCO walls. He projected June expenses could reach $500,000 by the end of the month. He stated the roads fund absorbed these costs by deferring capital projects they otherwise would have done, though he noted the projects would still need to be completed. He indicated the County expected to receive some support from the Federal Emergency Management Agency (FEMA), up to 75 percent of
expenses, but there was no way of knowing which projects they would reimburse until they approved the project requests. He said staff would return in the first quarter of Fiscal Year 2018-19 to access the $3 million stabilization fund, which was a fund set up by law. He said while there was a tremendous impact to the County, departments had done a great job of absorbing the costs involved. He admitted flooding impacted County service levels and many road projects that had been slated for 2017.

Responding to Commissioner Hartung’s query, Mr. Mathers stated it was unknown what the County might receive from the State because they had not articulated whether the State’s $2.4 million fund would be disbursed on a first-come first-serve basis or on a pro-rata share of FEMA reimbursements. He said they would continue to communicate with FEMA about how they intended to disburse that fund. Commissioner Hartung asked what the State had done so far, to which Mr. Mathers replied they covered a significant share of costs in the North Valleys area. Though there was concern FEMA could later submit a bill for those costs, they had not yet done so. The County operated under the assumption the State would not share additional costs. Commissioner Hartung asked whether the County could temporarily reduce their Other Post-Employment Benefit (OPEB) payments to provide additional disaster relief funding. Mr. Mathers responded it was an option but there could be repercussions from ratings agencies who acknowledged the County’s full funding of the OPEB annual required contribution.

Commissioner Jung asked to see included in the cost allocations the costs associated with waiving permit fees for flood victims as approved by the Board. She asked about proactive options for making flooding a sustainable issue by getting homes elevated or by forming a General Improvement District (GID) or an SAD (Special Assessment District).

There was no public comment on this item.

Commissioner Jung moved to accept the report, which was seconded by Commissioner Berkbigler. Deputy District Attorney Paul Lipparelli clarified the Agenda Item required not only acceptance of the report but approval of the allocation of funds. Commissioner Jung amended the motion to accept the changes in the budget and the use of general funds. Mr. Lipparelli clarified she was making the motion as laid out in the staff report, to which the mover and seconder agreed.

On motion by Commissioner Jung, seconded by Commissioner Berkbigler, which motion duly carried, it was ordered that Agenda Item 22 be approved and directed as outlined in the staff report.
AGENDA ITEM 24  Discussion and possible direction to staff on changes to Constituent Services programs including Citizen Advisory Board (CAB) and District Forum/Community Meetings for fiscal year 2017/2018. Manager. (All Commission Districts.)

Management Services Director Al Rogers conducted a PowerPoint presentation with the following slides: Constituent Services Program (two slides); FY17 District Forums/Community Meetings; FY17 Citizen Advisory Board (CAB) Meetings (two slides); Individual CAB Metrics; Possible Structural Changes to Address CAB Effectiveness (two slides); and Questions. He thanked the Constituent Services team, specifically Management Analysts Dana Searcy and Sarah Tone, Communications Director Nancy Leuenhagen and her team, and the Commissioners for their direction. He requested direction from the Board though he said there was no expectation to leave the meeting with a final resolution about the future of Citizen Advisory Boards (CABs).

Mr. Rogers stated community forums were more informal and not held to open meeting law in terms of posting and following an agenda, but they were no different than CABs in terms of gathering and disseminating information to appropriate departments. He stated forums were not intended to replace CABs but to make them more efficient because they more easily facilitated discussion. He contended the purpose of forums was for public information when no advisory vote was required. He stated filtering which items came to CAB meetings and which were heard at community forums helped to maximize the efficiency of CAB meetings. He explained District 5 held meetings where no development projects were discussed and that was at the discretion of the Commissioner. He drew a parallel between the average attendance at CAB meetings and the number of development projects heard by that CAB.

Mr. Rogers reviewed two options for possible structural changes to the CAB system. He stated Option A as outlined in the slide would be an appropriate model if the intent was to use CABs as focal points for potential development projects. He clarified if projects were not heard by a CAB, that CAB still received proposals in written form and had the opportunity to provide input. He claimed under Option A the monthly meeting format would allow for all development projects to be heard at a meeting. He reviewed Option B which was based on a six CAB allocation. He stated resources did not exist to have six or nine CABs each holding monthly meetings; both proposals were based on available resources.

Commissioner Jung asked staff to return to the Board with the cost of each CAB in terms of paying for recording secretaries, postings, and staffing. She suggested allocating an annual budget for each Commissioner they could use in a discretionary way to fulfill citizen outreach. She pointed out her district had no CAB and little room for development but she felt she should have funds to provide breakfast if she hosted a quarterly meeting with her constituents. She thought the current structure often saw one or more Commissioners subsidizing another. She opined her suggestion would meet the Nevada Revised Statute’s (NRS) definition of citizen engagement.
Commissioner Hartung felt the CAB was the first step in the development process and in the 1990s developers made a concerted effort to appease CABS. They would listen to CAB recommendations and try to make compromises to achieve final approval. Early on development was done primarily through the Planning Department and community forums were held to receive feedback on non-planning issues within the community. He explained the differences between the County’s CABs, the City of Reno’s Neighborhood Advisory Boards (NABs), and the City of Sparks’ Citizens Advisory Councils (CACs). He expressed concern about developers timing the filing of development applications to circumvent CAB meetings. He echoed comments made by a citizen that different areas had different interests; the people of Spanish Springs were not interested in the same issues as those in Wadsworth. He suggested investigating the possibility of sending CAB management back to the Planning Department.

Commissioner Berkbigler stated citizens would not drive down from Gerlach for a CAB meeting, and expressed similar concern about the differences of interests between Incline Village and the valley areas. She guessed people would not come down to the valley for CAB meetings either. She praised the merging of the Verdi and West Valley CABs because they shared common interests. She expressed concern that moving to fewer CABs could come across as the Commissioners not caring about citizen’s concerns. She supported Commissioner Jung’s suggestion of having a fund divided out between the Commissioners. She noted Commissioner forums worked well in Incline Village but not in the valley. She felt Commissioner Jung’s proposal could work for Commissioners Hartung and Herman whose districts were more widespread. She brought up the possibility of merging the West Valley CAB with Reno’s NAB since their issues were the same. Commissioner Berkbigler often spoke at their NAB meetings and Councilwomen Neoma Jardon and Jenny Brekhus spoke at her CAB meetings. She suggested there was interest in merging and it could bring costs down.

Commissioner Herman stated CABs had existed since 1776 and they were originally intended to give information to a legislative body about specific projects. She felt flood meetings should not be categorized as forums or CAB meetings; they were specialized meetings. She agreed her district was very diverse. She commented restricting CAB meetings to dealing with development items was not the purpose of the NRS. She felt less money could be spent and said historically CABs had their own recorders who performed the job for less money. She remarked by holding CABs regularly people would not need to miss work to attend Board of County Commissioner (BCC) meetings since their voices would have already been heard at the advisory board level. She thought the decision of choosing between community forums and CAB meetings should be based on what her constituents wanted.

Commissioner Jung stressed her outreach fund suggestion would not have to be distributed equally; she acknowledged the difficulties involved with a larger area. She admitted no one from Incline Village or Gerlach would travel that far to attend forums or CABs in town. She recommended Commissioners ask Washoe311 to survey citizens in all districts about what they wanted in terms of outreach. They could produce novel ideas unique to their geographic location and demographics. She suggested
targeting not just regular attendees but people who did not show up to meetings since she felt the same few people should not be in charge of a CAB.

Commissioner Hartung agreed with Commissioner Herman’s point that certain meetings were for a specific issue and he called them emergency response meetings. He pointed out there used to be one employee with the Planning Department whose whole job was to work with CABs. He suggested imposing on a developer’s proposal for taking the proposal to the CABs. He recommended whatever the CAB structure ended up being, CAB meetings should be scheduled monthly to prevent developers from trying to circumvent them. If there ended up being no reason for the meeting, it could be cancelled a week before the date. He said it should be emphasized to developers that a CAB’s blessing on a project made the process much easier.

Deputy District Attorney Paul Lipparelli noted when a Board created a sub-board with a specific task, open meeting law was triggered. The same was true when a sub-board was created by an ordinance. Under open meeting law, a board was confined to an agenda, which could create challenges in CABs when citizens wanted to talk about issues not on the agenda. He stressed the Board could not talk about those issues and definitely could not vote on them. He suggested community forums were a way to remove the open meeting law requirements because they were not a body created by the BCC and membership was not appointed. He stated he was not advocating for one option over another but pointed out for any board created by ordinance or by the BCC which advised the BCC, open meeting law would apply.

Chair Lucey summarized there was much dissent to the options presented and he directed staff to rework the options.

On the call for public comment, Ms. Tammy Holt-Still read from the Nevada Revised Statute (NRS) that advisory boards were created for any purpose, not only for development. She praised Commissioner Hartung’s suggestion to hold developers accountable. She remarked other residents needed to be able to attend evening meetings to voice their opinions. She claimed having more than two meetings a month would result in Commissioners hearing inadequate interaction with their constituents. She commented CAB meetings needed to discuss development but also the needs of specific areas.

Ms. Carol Burns stated a second CAB meeting was cancelled on May 30 with no explanation and she was told not to expect another until October. She thought the community forum meeting on May 20 was unsatisfactory since she heard no solutions to the concerns that were presented. She expressed concern about the proposed Ladera Ranch development that she hoped to discuss at the CAB meeting, as well as concerns with ditch maintenance.

Ms. Katherine Snedigar expressed frustration at the frequency of CAB meetings and that they should be restricted to topics of development. She pointed out community forums were not put on the public record. She stated there were many issues
that required discussion at CAB meetings besides development such as fire protection, General Improvement Districts (GIDs), and roads.

Mr. Garth Elliott stated discussing development was never tied to the Sun Valley CAB, it was a bonus. He pointed out Ladera Ranch LLC had originally wanted to build 1,200 homes but after hearing concern from the CAB, that number dropped to 300. He stated the CAB’s purpose was to get information from the public to the Board in an expeditious manner and requested no changes be made to the CABs other than meeting more frequently.

Ms. Elisabeth Gambrell expressed frustration with agendas for Gerlach meetings arriving last-minute because only 20 percent of people would see postings made two days before a meeting. Only 58 percent of residents in the area had access to the internet. She alleged that was a reason for the low attendance at CAB meetings. She wished for a plan to get CAB information to the community other than electronically. She noted there were delays in the posting of meeting minutes and looked forward to helping make improvements.

Chair Lucey urged the public who spoke at the meeting to voice their opinions to their Commissioners. He directed staff to redraft the options and bring them back for further discussion. Commissioner Hartung stressed the Board directed staff and any complaints the public had with staff should be directed to the Commissioners. Commissioner Jung said if they implemented Commissioner Hartung’s addition of a fee to the permit process, it would encourage the developers to show up to CAB meetings. She requested staff look into the legality of the suggestion. Chair Lucey repeated the Commissioners were the decision makers and urged the public to discuss any issues with them.

There was no public comment or action taken on this item.

**PROCLAMATIONS**

17-0551  
**AGENDA ITEM 30**  
Proclamation giving a heartfelt “Thank you” to Kevin Schiller for his service to Washoe County and the citizens of Northern Nevada for making it a better place to live. Manager.

Commissioner Berkbigler read the agenda item. Chair Lucey invited Assistant County Manager Kevin Schiller’s daughter Emma to join her father. Chair Lucey praised Mr. Schiller personally and spoke about his achievements in the Human Services Department and with Social Services. He stated Mr. Schiller would be a tremendous asset to Clark County but his absence would be a dire loss for Washoe County. He read and presented the Proclamation to Mr. Schiller.

Mr. Schiller stated he grew up in Washoe County and said when he was hired as a social worker he never thought he would appear at the dais. He said the individuals working at the County were really a family. He remarked working in public
service was a passion and the end result was about the collective impact. He brought up a party held for him by the Crossroads clients and their gift of a custom engraved gun. He told two stories of interactions he had at that party with clients and concluded all County employees were dedicated to helping people. He looked forward to working in the same capacity in Clark County but also creating statewide impacts. He thanked everyone.

Chair Lucey remarked Mr. Schiller was recognized by state and national officials and had received accolades across the country for the work he did. Commissioner Hartung stated Mr. Schiller always found a way to accomplish the impossible. He cautioned Mr. Schiller to learn to say no though he said every task Mr. Schiller took on he did well. He said programs initiated by Mr. Schiller were models to other programs nationwide and he was honored to work with him. Commissioner Herman said the Board would miss him terribly. Commissioner Jung congratulated Mr. Schiller on his promotion and thanked him for his friendship. She lauded his integrity and passion. Commissioner Berkbigler said she learned more about County business from Mr. Schiller than anyone else and thanked him for his work. County Manager John Slaughter said when he became Manager he had no doubt who he would want to bring in as Assistant County Manager. County Manager John Slaughter noted changes in the ordinance, stating the correct district in the ordinance was District 3 and the correct Citizen’s Advisory Board (CAB) was the Sun Valley CAB. He added the item was reviewed by the Sun Valley CAB. County Manager Nancy Parent distributed an amended staff report to the Board and announced in addition to the changes stated by Mr. Slaughter, there were also changes to some Assessor’s parcel numbers.

Ms. Parent read the amended title for Bill No. 1782.

17-0554 AGENDA ITEM 32 Announcements/Reports.

Commissioner Hartung requested staff look into working with the Truckee Meadows Water Authority and the Truckee Meadows Fire Protection District to create a Special Assessment District for Verdi. Nancy Parent, County Clerk, read the title for Ordinance No. 1594, Bill No. 1780.

Senior Planner Eric Young confirmed Commissioner Hartung’s assertion the item was merely an extension. Commissioner Hartung stated it was a pedestrian request that had been extended to other developers in the past. He and Chair Lucey expressed no concerns about the extension.
On motion by Commissioner Hartung, seconded by Commissioner Berkbigler, which motion duly carried with Commissioner Jung absent, Chair Lucey ordered that Ordinance No. 1594, Bill No. 1780, be adopted, approved and published in accordance with NRS 244.100.

Community Services. (All Commission Districts.)

There was no public comment on this item.

On motion by Commissioner Hartung, seconded by Commissioner Berkbigler, which motion duly carried with Commissioner Jung absent, it was ordered that Agenda Item 28 be adopted. The Resolution for same is attached hereto and made a part of the minutes thereof.

17-0557  **AGENDA ITEM 29**  Public Hearing: For possible action and discussion of the Tahoe Racquet Club’s appeal of the Planning Commission’s approval for Special Use Permit WSUP17-0004 (Lake Tahoe School) to modify Special Use Permit SW02-008 which permitted the operation of a kindergarten through 9th grade private school in an existing commercial building. The approved modification will permit the construction of a 13,906 square foot multi-purpose building with parking. As approved, the new building will require the relocation of the access road that serves Lake Tahoe School and provides access to the Tahoe Racquet Club, a residential condominium subdivision, from Tahoe Boulevard. The current access is located approximately 725 feet northwest from the intersection of Country Club Boulevard and Tahoe Boulevard. The access easement will be relocated approximately 200 feet further to the northwest. Applicant: Lake Tahoe School - Property Owner: Lake Tahoe School - Location: 955 Tahoe Boulevard - Assessor’s Parcel Numbers: 127-581-01 and 127-030-21 - Parcel Size: 4.11 acres (total) - Master Plan Category: Commercial (C) - Regulatory Zone: Tourist Commercial - Area Plan: Incline Village Tourist Commercial - Citizen Advisory Board: Incline Village/Crystal Bay - Development Code: Authorized in Article 810, Special Use Permit. Community Services. (Commission District 1.)

Chair Lucey stated the applicant was the Lake Tahoe School while the property owner and appellant was the Tahoe Racquet Club. He asked Deputy District Attorney Paul Lipparelli to provide insight to the situation. Mr. Lipparelli said it was an appeal of the granting of a Special Use Permit (SUP) by the Planning Commission. The appellant was entitled to a hearing under County code and a decision about the appeal
within 60 days of the issuance of the final written decision by the Planning Commission. He said there would be no other Board of County Commissioner (BCC) meetings between this one and the expiration of the 60 day window; without agreement from both parties, this meeting would be the last day to make a decision on the appeal. He explained the Board had the ability to uphold, reverse, or modify the decision made by the Planning Commission. If the decision were modified, it would be remanded to the Planning Commission to consider the modifications. He pointed out the appellant had the burden to demonstrate the error by the Planning Commission in order to get the Board to overturn the decision.

Chair Lucey confirmed the 60-day appeal window expired the day before the first BCC meeting in July and said one option was for both parties to agree to continue the item until July 11, 2017. If that option was not agreeable, the Board could take a position on the item at this meeting.

Nick Exline, on behalf of the applicant the Lake Tahoe School, said he was agreeable to the extension to hear the item at the July 11, 2017 meeting. He noted he had authority from the Lake Tahoe School’s Board to postpone the meeting until then. Appellant Pete Sferrazza waived the 60-day timeframe and appreciated the school’s cooperation. He hoped to have a resolution before the July meeting. Bill Baker, representing the appellant the Tahoe Racquet Club, agreed to the postponement and indicated both parties were close to a resolution.

Commissioner Berkbigler thanked the parties for working on a resolution so it would not have to come back before the Board. Commissioner Hartung asked whether they needed to make a motion. Deputy District Attorney Paul Lipparelli advised since the appeal was scheduled as a public hearing and notices were sent out notifying the public, the Board could take the testimony of anyone wishing to speak on the item but suggested they could move to continue the appeal until the July 11, 2017 meeting.

2:12 p.m. Commissioner Jung returned to the meeting.

There was no public comment on this item.

On motion by Commissioner Berkbigler, seconded by Commissioner Hartung, which motion duly carried, it was ordered that Agenda Item 29 be continued on acquiescence of the applicant and the appellant until the July 11, 2017 meeting.

Chair Lucey closed the public hearing.
AGENDA ITEM 31  Public Comment.

Ms. Tammy Holt-Still commented the County or the City of Reno had not conducted a geomorphic study to determine the high-water mark to know how high buildings should be built. She suggested the County work with Reno since it wanted to build over 4,100 homes in the White Lake area. She stated she was working with Senator Dean Heller’s office to obtain additional funding for flood relief. Regarding her earlier comments, she alleged Lancing Development was the developer who sought to use Tiger dams as part of the Padre Ranch Master Plan. She claimed if there were Citizen Advisory Board meetings about the Waste Management deal, more concerns would have surfaced sooner.

Ms. Katherine Snedigar spoke about her rights within the scope of public comment. She mentioned a recent arrest and alleged it was because of incorrect information at the Assessor’s Office. She expressed frustration with the situation.

2:21 p.m.  There being no further business to discuss, the meeting was adjourned without objection.

BOB LUCEY, Chair
Washoe County Commission

THE CITY OF YERINGTON ON BEHALF OF
THE YERINGTON POLICE DEPARTMENT

THIS AGREEMENT is made and entered by and between WASHOE COUNTY, on behalf of the WASHOE COUNTY SHERIFF'S OFFICE, hereinafter referred to collectively as WASHOE, and the CITY OF YERINGTON on behalf of the YERINGTON POLICE DEPARTMENT, hereinafter referred to as USER.

WITNESSETH:

WHEREAS, pursuant to NRS 277.180, WASHOE and USER may, in the performance of their functions, use each other's facilities and services, with the consent of the other party and subject to such terms and conditions as the parties may agree upon; and

WHEREAS, USER desires to acquire the assistance of WASHOE in providing USER the use of WASHOE'S Forensic Support Facilities and Services;

WHEREAS, WASHOE desires to provide its assistance to USER in regard to the use of WASHOE'S Forensic Support Facilities and Services;

NOW, THEREFORE, based on the foregoing premises and the following covenants, terms and conditions, the parties hereto do hereby agree as follows:

1. SERVICES PROVIDED: Unless otherwise provided and/or amended by written agreement of the parties hereto, WASHOE shall provide for USER forensic analyses within the existing capabilities of WASHOE as set forth in Exhibit A attached hereto and hereby incorporated by reference. In this regard, it is the understanding and intent of the parties, as the capabilities of WASHOE change over time, to execute written amendments to this Agreement indicating any services no longer provided as well as to identify any new services to be provided and the cost thereof.

WASHOE staff shall be available, upon reasonable notice should USER require said staff, to participate in legal proceedings (discovery practice or court appearances) to testify as to any testing and certification services performed for USER pursuant to this Agreement.

A. For fiscal year 2017/2018 USER shall pay to WASHOE a fee of $6,929, which fee shall entitle USER to the use of the forensic laboratory services currently within the capability of WASHOE as such are more fully set forth in Exhibit A attached hereto and hereby incorporated by reference. The annual fee shall compensate Washoe County for work performed during the contract period. Fees for services are due and payable in full within 30 days of USER'S receipt of billing by WASHOE. Toxicology services shall continue to be invoiced quarterly. Toxicology services are not included in this Agreement. Any costs incurred for toxicology services shall be invoiced separately and shall be paid in addition to the annual fee paid by USER hereunder.
B. In the event, during any fiscal year covered by this Agreement, WASHOE shall increase its forensic laboratory services beyond those set-forth in Exhibit A, the parties agree to negotiate, in good faith, an increase in the annual fee charged by WASHOE to USER to compensate WASHOE for the provision of the additional forensic laboratory services to USER. Any such agreement shall be memorialized by a written addendum to this Agreement signed by both of the parties hereto. Any increase in the annual fee shall be due and payable in full within 30 days after execution of said addendum.

C. In the event that the governing body of the county fails to obligate any funds necessary to carry out the duties created hereunder beyond the county’s then current fiscal year, this agreement shall terminate without charge, penalty, or sanction.

D. During the term of this Agreement, in the event that WASHOE shall be required to engage the consultation services of any outside forensic laboratory or specialist in order to provide USER with any additional expertise or equipment outside of the current capability of WASHOE to perform for USER, USER shall reimburse WASHOE in full for any costs or fees incurred as a result of said consultation. Any such consultation fees shall be due and payable in full within 30 days of USER’S receipt of billing by WASHOE for any such consultation services.

E. In the event that USER shall require the testimony of any of the staff of WASHOE in any legal proceedings in order to testify as to any testing or certification performed for USER pursuant to this Agreement, USER agrees to reimburse WASHOE for any compensation, benefits, travel and per diem costs incurred by WASHOE in providing said staff at the time, place and for the purposes required to assist USER. Any such reimbursement shall be due and payable in full within 30 days of USER’S receipt of billing by WASHOE for any such staff services.

   WASHOE agrees to indemnify, defend and hold harmless USER, its officers, employees, and agents, from and against any and all claims, demands, or actions by any person or entity which arise or result from any act or omission to act on the part of any officers, employees, and agents of WASHOE in connection with the services to be provided pursuant to this Agreement.

   The parties do not waive and intend to assert any liability limitations available under law, including but not limited to those defenses available under chapter 41 of Nevada Revised Statutes in all cases.

3. **MODIFICATION:** Any modification or amendment to this Agreement, in order to be binding upon the parties, must be in writing and be signed by both of the parties hereto.

4. **EFFECTIVE DATE AND RENEWAL:**

   A. This Agreement shall be effective as of July 1, 2017 and terminate as of June 30, 2018.
B. Either party to this Agreement may terminate this Agreement at any time of the term of the Agreement by giving the other party to this Agreement 180 days prior written notice.

C. This Agreement may be renewed by the parties for any subsequent fiscal year by virtue of the parties’ execution of a renewal agreement setting for the fiscal year for which the renewal shall be effective, the services to be rendered, and the costs and fees to be incurred by USER to WASHOE. Any such renewal shall be contingent upon the parties agreeing to the annual fee to be charged by WASHOE to USER.

INTERLOCAL AGREEMENT

This Interlocal Agreement is made by and between the County of Washoe, a political subdivision of the State of Nevada, by and through the Department of Juvenile Services, hereinafter referred to as “Department” and the Board of Regents of the Nevada System of Higher Education, on behalf of the University of Nevada, Reno, Department of Athletics, hereinafter referred to as “Agency.”

WITNESSETH

WHEREAS, the parties are both public agencies as described in NRS Chapter 277 and are empowered to enter into interlocal agreements for any governmental service, activity or undertaking which any of the parties entering into the agreement is authorized to perform;

WHEREAS, the Department has established programs whereby certain juvenile offenders can perform community service through a work program to remove litter and weeds and to perform landscaping and other general cleanup as agreed to by the Department and the Agency.

WHEREAS, the Agency would benefit from the services of the Department in removing litter and weeds and performing landscaping and other general cleanup as agreed to by the Department and the Agency.

WHEREAS, the Department and the Agency mutually desire to enter into an interlocal agreement for these purposes;

NOW, THEREFORE, the parties agree as follows:

1. The Department agrees to provide available work crews to perform litter and weed removal, landscaping, and general cleanup at the request of the Agency. The Department agrees to provide equipment to be used by the crew(s) for these tasks except as otherwise required by the Agency. The weeds and litter removed will be placed in bags by those persons performing the services and the bags will be placed in suitable locations for pickup by Agency personnel.

2. The above-described services will be performed upon the written request of the Agency, however, the date and time the services will be performed will be at the discretion of the Department based upon available work crews. Department shall give advance notice to University Police Services that a work crew will be present on University property by calling the duty phone, (775) 745-6195, in advance of the arrival of the work crew on the University premises.

3. The Agency will designate the location where work is to be performed, subject to the approval by the Department. The Department reserves the right to refuse to work in any location.

4. The Department shall provide for transportation for the work crews and any necessary supervisors as well as the equipment to be used by the work crews for litter and weed removal. The Agency shall be responsible for transportation of equipment and persons necessary to perform those functions that are the responsibility of the Agency. The Department is familiar with and agrees to adhere to the Agency’s Child Protection Policy.

5. The Agency agrees to conduct a hazard assessment of each work site and provide its findings to the Department prior to requesting the Department to work in that location.
6. The Agency will pay the Department, as compensation for the expenses incurred in providing the necessary supervision to the work crews, a sum of Two Hundred Dollars ($200.00) per day for each supervisor that is required. The Department will notify the Agency in advance of performing the services how many supervisors will be necessary to perform the services. Any costs associated with the Department’s performance of the services will be included in the above-described compensation unless otherwise agreed upon in writing. Payment by the Agency will be made promptly upon receipt of billing statements. The Department will send billing statements bi-monthly. In the case of a compensation increase, the “Agency” will be notified in writing. If both parties agree to the new compensation amount, this contract will remain in full force and effect and will not have to be reapproved by the Board of County Commissioners. In the event that the governing body appropriating funds for Agency fails to obligate the funds necessary to make the payments beyond Agency’s then current fiscal period, this Agreement shall be terminated without penalty, charge or sanction.

7. The Department will be responsible for the conduct and actions of its employees, agents and persons the Department has a duty to direct and control. The Department, to the extent limited in accordance with NRS Chapter 41, agrees to indemnify, defend and hold harmless the Agency, its employees or agents from any claim, loss or lawsuit arising out of the performance of this Agreement resulting from the negligent or intentional acts or omissions of the Department, its employees, agents or persons the Department has a duty to direct and control unless such claim is based, in whole or in part, on any act or omission of the Agency or its employees or agents.

8. The Agency acknowledges that some damage to its property may occur during the performance of the services under this Agreement, therefore, the Agency waives any claim for damage to its property as a result of the performance of such services by the Department, its employees, agents or persons the Department has a duty to direct and control unless the damage is caused by the intentional or willful acts by the Department, its employees, agents or persons whom the Department has a duty to direct and control.

9. To the extent limited in accordance with NRS 41.0305 to NRS 41.039, the Board of Regents for the Nevada System of Higher Education on behalf of the University of Nevada, Reno (NSHE) shall indemnify, defend, and hold harmless Washoe County from and against any and all liabilities, claims, losses, lawsuits, judgments, and/or expenses, including attorney’s fee, arising either directly or indirectly from any act or failure to act by NSHE or any of its officers or employees, which may occur during or which may arise out of the performance of this Agreement. NSHE will assert the defense of sovereign immunity as appropriate in all cases, including malpractice and indemnity actions. NSHE’s indemnity obligation for actions sounding in tort is limited in accordance with the provisions of NRS 41.035 to $100,000.00 per cause of action.

10. Either party may terminate this Agreement with or without cause by giving the other party written notice of the intent to terminate. The notice must specify the date upon which the termination will be effective, which date may not be less than 30 calendar days from the date of mailing of the notice.
