Why Do Seniors Need a Geriatric Assessment?

Things can change as we age – A fall, a hospitalization, multiple chronic conditions, changes in memory, fluctuations in metabolism, etc. Many illnesses that commonly affect the older adult are manageable with lifestyle changes, diet modification, exercise, medication management and an individualized plan of services and support.

You have TIME to talk to a Doctor, Social Worker, Occupational Therapist & Nurse

Through the Nevada Senior Services team approach, Southern Nevada’s finest healthcare providers, individuals and their families work together to improve and maintain the highest quality of life for men and women in our community.

In-Depth Evaluations Include:

- Fall Prevention
- Memory Loss
- Mobility
- Current and Past Illnesses
- Depression & Emotional Health
- Impaired Vision or Hearing
- Nutritional Concerns
- Medication Review
- Home Safety
- Caregiver Network and Services
- Daily Living Activities
- Recent or Impending Life Changes

Why Choose the Geriatric Assessment Program (GAP)?

The program provides a “no wrong door” approach to senior healthcare. Clients are assessed by a team of the finest Geriatricians, Social Workers, Occupational Therapists and Nurses in Southern Nevada.

Comprehensive Geriatric Assessment encompasses all of the clients’ diseases, disabilities, cognitive abilities, medications, self-care behaviors, health-related lifestyle habits, psychological conditions, environmental risks, family and/or friend support systems.

Will I have to change my Primary Care Physician?

No, GAP will send all reports to your primary care doctors as directed. Nevada Senior Services’ GAP Program can save you and your physician valuable time by completing detailed intake assessment reports required by adult day care and other health facilities. GAP is an evaluation program. GAP physicians make recommendations; they do not order tests or write prescriptions.

Caring for a loved one with Alzheimer’s Disease or Dementia?

Help is in REACH

“There are only four kinds of people in the world—those who have been caregivers, those who are currently caregivers, those who will be caregivers and those who will need caregivers.”

- Rosalynn Carter
According to Laura J. Bauer, Director of National Initiatives for the RCI,

"Family caregivers are the true backbone of the long-term care system in the United States. The aim of the RCI REACH program is to assure that these caregivers receive support services that have been proven clinically effective in reducing the burden and depression associated with caregiving."

**Program Objectives:**
- Improvement in overall caregiver health and depression
- Reductions in feelings of burden from caregiving
- Improvement in management of troubling behaviors of the care recipient
- Keeping seniors in the community, with dignity to avoid institutionalization

Compassion, Care, Safety & Understanding

About Skills2Care®
Caring for individuals with dementia can be difficult. Skills2Care® is a program to help caregivers manage more effectively. In this program, a Skills2Care® Occupational Therapist (OT) visits the home of the person with dementia to learn about care challenges and evaluate the home environment. The OT then develops and helps implement a set of strategies that are customized to address the unique needs of each individual.

Skills2Care® Provides:
- Understanding of dementia and its impact on families
- Tools for effective communication
- Simple strategies to manage challenging behaviors
- Individualized home safety plans
- Self-care and coping techniques to reduce stress
- Techniques to engage in meaningful activities

Skills2Care® is a Trademark of Thomas Jefferson University. Skills2Care® is funded through a grant from Nevada Aging & Disability Services Division. The artwork that appears in this brochure was provided by participants in the Creative Arts Program at the Adult Day Care Centers of Las Vegas & Henderson.
RESPIRE CARE & SUPPORT PROGRAM is available to care partners for a few hours a week to allow personal time and a break from 24 hour caregiving. Our professional and friendly staff are at your service for necessary errands and caregiving/companionship for loved ones.

Care partners’ respite time can be whatever they need - a trip to the store, a medical appointment, a nap, or a visit with friends... Respite time allows caregivers an opportunity to recharge energy with peace of mind knowing their loved one is in the hands of a Nevada Senior Services’ capable companion.

PROGRAM OBJECTIVES:
- Improvement in overall caregiver health and depression
- Reductions in feelings of burden from caregiving
- Support care partners with respite relief and other services and programs
- Keeping individuals in the community, with dignity to avoid institutionalization

HELP, when YOU need IT MOST... Respite Care and Supportive Services is committed to meeting the needs of frail seniors, adults with disabilities and their caregivers by providing relief to the primary caregiver.

This program provides low/moderate income families the opportunity to access quality and compassionate respite services at no cost to the client or family. While no payment is required, voluntary contributions are welcomed to help sustain these services.

Respite is an essential part of the overall support that families may need to care for a family member at home. Respite care can strengthen a family’s ability to continue taking care of their loved one at home instead of being placed at a nursing care facility.

Nevada Senior Services 2018 Client Art Calendar

“Happy Memories”
Another year has passed and our gratitude and thanks to you - our very special family of clients, caregivers, staff and collaborative partners - is as steadfast as your support of Nevada Senior Services in 2017. Once again, our community’s need has never been greater. We continue to strive to find collaborative solutions with our community partners to meet the needs of our most vulnerable.

“Happy Memories”, the 2018 Nevada Senior Services client art calendar theme, raises the question of “what do we value most?” What would we take from our about to be flooded home? What memories do we hold on to as we release others is a question for us all. Month by month we are engaged and inspired by this question. It is a life affirming motivating us all to add value to our journey. It is a gift of spirit and presence. As always, the art speaks for itself. Our hope is that when you turn the page to each new month... it will speak to you... engage and transport you ... make you smile... make you reflect...warm your heart and bring you peace.

People first remains at the core of Nevada Senior Services’ culture and success! We believe that together our clients, caregivers and caring staff are our greatest assets. Nevada Senior Services’ Culture is the experience we create for our clients and support we give to our partners in care giving. It is expressed by the compassion and dedication of our staff. It is people helping people.

This year we again dedicate this work to Mrs. Rosalynn Carter in celebration of 30 years of the Rosalynn Carter Institute for Caregiving. Mrs. Carter’s example, visionary leadership inspires all who have the honor to travel the caregiving road.

On behalf of our caring, professional and talented staff, thank you for being our friend and family.

Warm Regards,

Jeffrey Klein, FACHE, President and CEO

"I like to go fishing with my dad. Sometimes on the weekend, my dad and I just take off to go fishing. I'm happy to be with my dad."

My family moved from Alabama to California when I was 11 years old. I was happy when I lived with my dad. Other happy memories… School. Working at the Mission home. Shopping with my daughter. When I graduated from high school and when I received my diploma I cried. Happy memory is going to church. When I was a child I was happy all the time."
