Development Code Amendment
WDCA19-0001
Building Placement Standards on Nonconforming Lots

Board of County Commissioners
June 25, 2019
This is both an initiation and a request to amend the Washoe County Development Code Section 110.406.04 and 406.35(e)

The intent is to clarify and codify the requirements for building placement standards on nonconforming lots
Summary of Proposed Changes

To update Section 110.406.05 to add the following:

If a lot is does not meet the minimum lot size for the regulatory zoning for the lot, the setback shall be based on the lot size and the regulatory zone setbacks for the next densest regulatory zone for which the actual lot size does meet.
From Section 110.406.05(e) to remove the following:

(e) Prior Zoning. Side yard requirements for lots created under the zoning in effect prior to May 26, 1993, may use the setbacks of the land use category comparable to the parcel size.
Currently setbacks for nonconforming lots are based on the regulatory zoning of the lot.

This update would base the setbacks for nonconforming lots on the lot size and not the regulatory zoning.
Open House was held on March 20, 2019

- All CAB members and public were invited
- There was one attendee with concerns about accessory structures and why lots are nonconforming
