RE: I-80 Rumble Strips

Mr. Bradley,

Thank you for contacting the Nevada Department of Transportation to express concerns about noise from the recently updated rumble strips on Interstate 80 between Exit 4 and Exit 5 in east Verdi. It is always delicate balancing traffic safety concerns with noise impacts on one of northern Nevada's busiest highways.

Interstate 80 had rumble strips prior to the most recent roadway resurfacing project and their reinstallation is an attempt to mitigate the numerous run-off-the-road crashes seen along this stretch of road. I-80 has had 29 crashes within a half-mile of Exit 5 in the three-year period from 2015 through 2017. Of those 29, 10 crashes involved vehicles leaving their lane or running off the road. Since their previous installation in 2008, design standards have changed, and the new rumble strips installed on the recently completed paving project follow a new standard that places them in the striping. The goal with the new standard is to make vehicles aware they are drifting out of their lane before they have left their lane. We understand there is a potential for the new design to be hit more frequently and our staff is actively evaluating a variety of mitigation measures for implementation next construction season.

If you have any future concerns, you are welcome to contact me in the office at 775-888-7660.

Sincerely,
