08-06DMC  GENERAL OBLIGATION BONDS

There were no public comments on this item.

Andy Green, City of Reno Finance Director, stated the request was for authorization to issue General Obligation Bonds secured by additional revenue bonds in the amount up to $7 million. He explained everything had been submitted that was required and hoped the Board had all the information in their packet. He further explained they were trying to acquire the post office across the river from City Hall and do some renovations to turn it into a multi-use facility, but leave the retail portion of the post office where it was. He stated he was prepared to answer any questions.

Commissioner Galloway stated he had a copy of the resolution but did not have a breakdown showing that all the statutory requirements were met. He requested
Bond Council review the breakdown for the Board and if they had a copy to place it on file with the Clerk.

Jennifer Stern, Swendseid & Stern, Bond Council for the City of Reno, stated page one referenced the statutory requirements and the debt limit of the City of Reno. She explained it showed their debt limit, outstanding debt, proposed debt and additional capacity at $944,892.526. She informed the Board there was no intention to raise or levy additional taxes to pay for this. Nevada law allowed bonds to be secured by a 15 percent pledge of consolidated taxes and this bond issue in the amount of $7,000,000 fell within that range. Ms. Stern referred to the schedules within the Board’s packet that indicated they had outstanding bonds that were superior to this issue; some of them were straight revenue bonds, some were also General Obligation which were additionally secured by pledged revenues, and when this bond issue was added to that debt service they could still repay under the 15 percent of consolidated taxes.

Commissioner Galloway stated Ms. Stern said the bond fell under the 15 percent and he was just curious exactly what the percentage was and if they considered consolidated tax revenues were in the negative for the first time in many, many years. Mr. Green stated they did consider the negative revenue. He pointed out that the dollar amount that was listed in the packet was the amount if they would need to use a consolidated tax revenue to make the debt service payment. He stated they were probably at 12 percent, but the important issue was they were not using those consolidated taxes to make the debt service payments.

Commissioner Pugh inquired if the entire $7 million would be used for the old post office building. Mr. Green responded not all of it, there was about $5.5 million of that designated for acquisition for the new post office site and the acquisition of a separate site to move the post office business operation into or a delivery operation. The rest of it would be used for beautification projects within the downtown area.

On motion by Vice Chairman Wolf, seconded by Commissioner Gustin, which motion duly carried, with Commissioners Ainsworth and Martini absent, Chairperson Pullman ordered that the Resolution be adopted and executed. The Resolution for same is attached hereto and made a part of the minutes thereof.
