Abandonment Definition

The purpose of an abandonment is to allow for the vacation or abandonment of easements or streets. If the Planning Commission grants an approval of the Abandonment, that approval is subject to Conditions of Approval. Conditions of Approval are requirements that need to be completed prior to the recordation of the Resolution and Order of Abandonment.

The Resolution and Order of Abandonment is the legal record, prepared by the Engineering and Capital Projects Division, which is recorded to complete the abandonment process. The Engineering and Capital Projects Division completes a technical review of the legal description, exhibit maps and any new easements submitted by the applicants’ surveyor that are required by the Conditions of Approval. When the Engineering and Capital Projects Division is satisfied that all conditions of approval have been met, then the Engineering and Capital Projects Division will record the Resolution and Order of Abandonment with the County Recorder. The abandonment is complete upon the recordation of the Resolution and Order of Abandonment with the County Recorder.

The Conditions of Approval for Abandonment Case Number AB15-004 are attached to this staff report and will be included with the Action Order if granted approval.

- All conditions of approval are required to be completed before the abandonment can be recorded and finalized.
- The abandonment will be effective after the approval of a Resolution and Order of Abandonment by the Engineering and Capital Projects Division and after the recordation of the Resolution and Order of Abandonment by the County Recorder.

Project Evaluation

The applicants are the separate property owners of 6655 Timberline Ct. (APN 049-860-11), and the adjacent parcel to the east (APN 049-860-12). The property owners are requesting to abandon two 10-foot-wide public utility and drainage easements (one on each property), and to relocate them into one 10-foot-wide public utility and drainage easement along the adjoining
property line. They are also requesting to abandon a 20-foot-wide drainage easement located almost entirely on the western parcel (APN 049-860-11).

All three of these easements were initially created in 2000 as part of a subdivision that divided an ±11.5-acre property into seven lots (Tentative Map Case No. TM9-15-97; recorded as subdivision tract map 3859A). The parcels in this abandonment request were Lots 1, 2 and 3 of that subdivision. During the final map process, 10-foot-wide drainage and public utility easements were created along the common property lines. An additional 20-foot-wide drainage easement was established on Lot 2 that connected the southern half of Lot 1 to a privately maintained drainage ditch located to the north of Timberline Court. Below is a portion of that original tract map:

Subdivision Tract Map 3859A; recorded in 2000. Image shows the original three lots that were later reverted to the two lots that are the subject of this abandonment request.
In 2006, a reversion to acreage and boundary line adjustment were completed, combining the original three lots into two. Although the property lines were adjusted at that time, the easement locations were not. This abandonment request seeks to rectify that by abandoning the two 10-foot-wide drainage and public utility easements and re-locating them into a single 10-foot-wide drainage and public utility easement along the common property line. It also seeks to abandon the 20-foot-wide drainage easement that is located on what was previously Lot 2, connecting what was previously Lot 1 to the drainage ditch to the south. As that drainage easement is now almost wholly located on 6655 Timberline Ct., it is no longer considered necessary.

None of the three easements that are part of this request are developed as drainage-ways. The pictures below show various aspects of each of the easement locations.

Taken from southern terminus of 20' angled drainage easement, looking slightly northwest.

View from northern property line of western parcel, looking south along existing utility/drainage easement.
View from northern property line of eastern parcel, looking south along existing utility/drainage easement.

The Engineering and Capital Projects Division has included a standard condition of approval indicating that the retention or relocation of all drainage easements shall be to the satisfaction of Washoe County. The Division will determine compliance with that condition.

Furthermore, an important question here concerns “ownership” of the easements in question. Nominally at least, the County is not the owner. On the other hand, the County did have a hand
in the easements’ creation in the sense that they were added in connection with the tentative mapping process used to create the lots originally. To the extent that the County does not own the easements, it cannot abandon them. Therefore, if this request is approved, it in effect will be a “quitclaim” by the County of whatever interest it might have in the easements in favor of the owners of these two parcels. However, nothing in this abandonment should be construed as an assertion by the County of ownership over the easements in question. To the extent other property owners nearby or other entities might have any ownership interests in these easements, this abandonment would not affect those interests and the property owners applying for the abandonment would be responsible for utilizing whatever legal mechanisms are necessary to address those interests on their own.

**South Truckee Meadows/Washoe Valley Citizen Advisory Board (STM/WV CAB)**

Pursuant to Article 806, Vacations and Abandonments of Easements and Streets, proposals for abandonments or vacations are not required to be noticed to Citizen Advisory Boards.

**Public Notice**

Abandonments require that affected property owners be notified by certified mail. There is no minimum number of property owners that need to be notified. Both applicants and all adjacent property owners were provided with notice.

A legal notice is also required to be posted in a local newspaper. A legal notice was published in the Reno Gazette-Journal on Friday, September 25, 2015.

**Reviewing Agencies**

The following agencies received a copy of the project application for review and evaluation.

- Washoe County Community Services Department
  - Engineering and Capital Projects

Five of the above-listed agencies/departments provided comments and/or recommended conditions of approval in response to their evaluation of the project application. A **summary** of each agency’s comments and/or recommended conditions of approval and their contact information is provided below. The Conditions of Approval document is attached to this staff report and will be included with the Action Order if the Planning Commission approves the requested abandonment.

Staff Comment on Required Findings

Washoe County Code Section 110.806.20 requires that all of the following findings be made to the satisfaction of the Washoe County Planning Commission before granting approval of the abandonment request. Staff has completed an analysis of the application and has determined that the proposal is in compliance with the required findings as follows:

1. Master Plan. The abandonment or vacation is consistent with the policies, action programs, standards and maps of the Master Plan and the Forest Area Plan.

   **Staff Comments:** The proposed abandonments and easement re-locations do not affect any standards of either the Master Plan or the Forest Area Plan.

2. No Detriment. The abandonment or vacation does not result in a material injury to the public.

   **Staff Comments:** The request was submitted to all relevant agencies and departments for review. No recommendations of denial were received. Conditions of approval are included with the staff report. The proposal essentially updates the locations of easements that were put in place when a subdivision occurred on the affected properties in 2000. A subsequent reversion to acreage and adjustment of the lot lines occurred in 2006 but did not adjust the easement lines at that time. This request updates the easement locations accordingly.

3. Existing Easements. Existing public utility easements in the area to be abandoned or vacated can be reasonably relocated to provide similar or enhanced service.

   **Staff Comments:** The applicant proposes to re-locate the public utility easements to along the common property line between the subject properties, thereby giving utility providers a similar right of use that existed prior to the abandonment.

Recommendation

Those agencies which reviewed the application recommended conditions in support of approval of the project. Therefore, after a thorough analysis and review, Abandonment Case Number AB15-004 is being recommended for approval with conditions. Staff offers the following motion for the Commission’s consideration.
Motion

I move that after giving reasoned consideration to the information contained in the staff report and information received during the public hearing, the Washoe County Planning Commission approve Abandonment Case Number AB15-004 for Botich/Bowering, having made all three findings in accordance with Washoe County Code Section 110.806.20:

1. Master Plan. The abandonment or vacation is consistent with the policies, action programs, standards and maps of the Master Plan and the Forest Area Plan; and
2. No Detriment. The abandonment or vacation does not result in a material injury to the public; and
3. Existing Easements. Existing public utility easements in the area to be abandoned or vacated can be reasonably relocated to provide similar or enhanced service.

Appeal Process

Planning Commission action will be effective 10 calendar days after the written decision is filed with the Secretary to the Planning Commission and mailed to the applicants, unless the action is appealed to the Washoe County Board of County Commissioners, in which case the outcome of the appeal shall be determined by the Washoe County Board of County Commissioners. Any appeal must be filed in writing with the Planning and Development Division within 10 calendar days after the written decision is filed with the Secretary to the Planning Commission and mailed to the applicants.

Conditions of Approval
Abandonment Case Number: AB15-004

The project approved under Abandonment Case Number AB15-004 shall be carried out in accordance with the Conditions of Approval granted by the Planning Commission on October 6, 2015. Conditions of Approval are requirements placed by each reviewing agency. These Conditions of Approval may require submittal of documents, applications, fees, inspections, amendments to plans, and more. These conditions do not relieve the applicant of the obligation to obtain any other approvals and licenses from relevant authorities required under any other act or to abide by all other generally applicable Codes, and neither these conditions nor the approval by the County of this project/use override or negate any other applicable restrictions on uses or development on the property. Furthermore, to the extent that Washoe County does not own the easements in question, it cannot abandon them. Therefore, this request is in effect a “quitclaim” by the County of whatever interest it might have in the easements in favor of the owners who applied for the abandonment. Nothing in this abandonment should be construed as an assertion by the County of ownership over the easements in question. To the extent other property owners nearby or other entities might have any ownership interests in these easements, this abandonment does not affect those interests and the property owners associated with this abandonment are responsible for utilizing whatever legal mechanisms are necessary to address those interests on their own.

Unless otherwise specified, all conditions related to the approval of this Abandonment shall be met prior to recordation of the Resolution and Order of Abandonment. Prior to recordation of the Resolution and Order of Abandonment, each agency shall determine when compliance of their specific conditions is met by the applicant as set forth in the Conditions of Approval. All agreements, easements, or other documentation required by these conditions shall have a copy filed with the County Engineer and the Community Services Department – Planning and Development Division.

Compliance with the conditions of approval related to this Abandonment is the responsibility of the applicant, his/her successor in interest, and all owners, assignees, and occupants of the property and their successors in interest. All conditions of approval must be met prior to the Engineering and Capital Projects Division recording the required Resolution and Order of Abandonment.

For the purpose of conditions imposed by Washoe County, “may” is permissive and “shall” or “must” is mandatory.

- All conditions of approval are required to be completed before the Abandonment can be recorded and finalized.
- The abandonment will be effective after the approval of a Resolution and Order of Abandonment by the Engineering and Capital Projects Division and after the recordation of the Resolution and Order of Abandonment by the County Recorder.

February 2014
Abandonment Application
Supplemental Information

(All required information may be separately attached)

Chapter 110 of the Washoe County Code is commonly known as the Development Code. Specific references to vacations and abandonments may be found in Article 806, Vacations and Abandonments of Easements or Streets.

1. What is the abandonment being requested?

   We are requesting the abandonment of the Public Utility and Private Drainage easements which ran along the original lot lines and which are associated with now closed APNs 049-860-04 and 049-860-05; and APNs 049-860-05 and 049-860-06. These lots were reversed in 2006 (Tract Map 4666), and a lot line adjustment was completed creating our lots, APNs 049-860-11 and 049-860-12. At that time these easements were not relocated along the new boundary line between our lots. We were recently notified that this task was not completed and hope to complete it at this time.

2. On which map or document (please include with application) is the easement or right-of-way first referenced?

   Tract Map 3859 grants a 5 foot Public Utility and Private Drainage easement along all side and rear lot lines.

3. What is the proposed use for the vacated area?

   Relocating these PU and Private drainage easements will enable the property owners to comply with building setback requirements for existing structures and future structures. APN 049-860-12 is a vacant lot, relocating the easement to the side lot line will enable orienting future structures on an East-West axis without building so close to the Eastern lot line as to impact the neighboring property owner. Relocating these easements will remove the encumbrances left on these lots when the lot reversion and boundary line adjustment work was completed in 2006.
4. What replacement easements are proposed for any to be abandoned?

We propose to establish a 5 foot Public Utility and Private Drainage easement each side of the lot line shared by APN 049-860-11 and APN 049-860-12. Legal descriptions of the easements to be dedicated, along with those to be abandoned are included with this application.

5. What factors exist or will be employed to prevent the proposed abandonment from resulting in significant damage or discrimination to other property in the vicinity?

There will be no damage or discrimination to other property in the vicinity.

6. Are there any restrictive covenants, recorded conditions, or deed restrictions (CC&Rs) that apply to the area subject to the abandonment request? (If so, please attach a copy.)
