• It is unimproved and has not been built out

The abandonment request was a condition for application WTM18-003 (Valle Vista), which was approved on April 3, 2018 by the Planning Commission.

The condition required “The applicant shall apply for an abandonment of Lupin Drive right-of-way adjacent to the site prior the recordation of the first final map.”
Completing this section of Lupin was reviewed during the tentative map application.

It was concluded that the existing roads in the area met the traffic needs of the area and that this section of Lupin did not needed to be developed.

Also, the intersection of Lupin and E. 4th Ave is in the 100 year FEMA flood plain, and the improvements needed to address the flooding issues would be costly to develop this section of Lupin Drive.
4 of the 10 reviewing agencies provided comments and 2 departments had conditions

Analysis

- NRS allows the Planning Commission to vacate easements if the public will not be materially injured
- Staff has concluded that adjacent properties will not be negatively affected
- Surrounding properties will continue to have the same access to their properties
Abandonment Findings

Staff is able to make all 3 required findings, as detailed in the staff report on page 9

a. **Master Plan.** The abandonment or vacation is consistent with the policies, action programs, standards and maps of the Master Plan and the applicable area plans;

b. **No Detriment.** The abandonment or vacation does not result in a material injury to the public; and

c. **Existing Easements.** Existing public utility easements in the area to be abandoned or vacated can be reasonably relocated to provide similar or enhanced service.
