A portion of the parcel is vacant, with a 12,240 sq. ft. family community center on the northeast section and a surrounding parking area.

The applicant states that there is a need for smaller and denser development and commercial uses in the area.

Cold Springs Area Plan encourages a mixture of uses, as the applicant is proposing.
The surrounding parcels’ regulatory zoning is PSP to the east and north, NC and Parks & Recreation (PR) to the south and Medium Density Suburban (MDS) across Village Pkwy. The proposed NC regulatory zoning has a high compatibility rating with the surrounding regulatory zones of PSP, PR and NC.
The area is currently zoned for Gomes Elementary School, Cold Springs Middle School and North Valleys High School.

The Washoe School District reviewed the application and stated that the proposed changes did not project issues to the middle and high school.

The elementary school is currently over capacity; however the District is planning a new elementary school in 2021.
Availability of Water

- The parcel is located in the Cold Springs Hydrographic Basin. Water rights are required to be submitted with the application which the applicant provided and is included in the staff report.

- There is sewer capacity for the site, and sewer service is provided by the Cold Springs Water Reclamation Facility, which is managed by Washoe County.
The amendments were presented to the North Valleys CAB on March 9, 2020, which also served as the required neighborhood meeting.

The CAB members voted unanimously in favor of the request.

Comments included:

– What type of development might happen residential or commercial?
– Need smaller housing units with smaller lots
