"Building height" is the vertical distance above a reference datum measured to the highest point of the coping of a flat roof or to the deck line of a mansard roof or to the average height of the highest gable of a pitched or hipped roof. As illustrated in Figure 110.902.15.BH1, the reference datum shall be selected by either of the following, whichever yields a greater height of building:

(a) The elevation of the highest adjoining sidewalk or ground surface within a five (5) foot horizontal distance of the exterior wall of the building when such sidewalk or ground surface is not more than ten (10) feet above lowest grade.

Section 110.904.00 Purpose. The intent of this article, Article 904, Nonconformance, is to regulate lots, structures and uses of land and structures which were lawful before the adoption or amendment of this Development Code, but which no longer comply. The additional intent of this article is to permit those nonconformities to continue until they are removed or required to be terminated, but not to encourage their continuance.

Section 110.904.05 Finding of Incompatibility. Nonconforming uses and structures are declared to be incompatible with permitted uses, structure and standards in the regulatory zones involved. They shall not be enlarged upon, expanded, extended or replaced, not be used as ground for adding other structures or uses prohibited elsewhere in the same regulatory zone, except as may be expressly permitted in this article.

Section 110.904.10 Types of Nonconformance. This article regulates the categories of nonconformance listed below in this section. If a nonconforming use falls into two (2) or more categories, it shall be subject to the regulations of each category.

(a) Nonconforming Lot. A lot which was legal when brought into existence but does not conform to the current lot size or shape requirements of the regulatory zone where it is located. A nonconforming lot is subject to the provisions of Section 110.904.15.

(b) Nonconforming Use of Land. A use which does not involve a structure and which was legal when brought into existence but does not conform to the current uses
allowed in the regulatory zone where it is located. A nonconforming use of land is subject to the provisions of Section 110.904.20.

(c) **Nonconforming Use of a Structure.** A use which is conducted at least partially within a structure and which was legal when brought into existence but does not conform to the current uses allowed in the regulatory zone where it is located. A nonconforming use of structure is subject to the provisions of Section 110.904.25.

(d) **Nonconforming Structure.** A building or structure which was legal when brought into existence but does not conform to the current height, setback or coverage requirements of the regulatory zone where it is located. A nonconforming structure is subject to the provisions of Section 110.904.30.

(e) **Nonconforming Development.** A development which was legal when brought into existence but does not conform to the current parking, loading or landscaping requirements of the regulatory zone where it is located. A nonconforming development is subject to the provisions of Section 110.904.35.

**Section 110.904.15 Nonconforming Lot.** A nonconforming lot containing a building or structure may continue to be used as a building site as long as other provisions of this article, including yard, coverage, sewer, water and drainage requirements, are met. A nonconforming lot may be used as a building site, provided the access requirements, building setback requirements, and infrastructure requirements of this Development Code are met.

**Section 110.904.20 Nonconforming Use of Land.** The nonconforming use of land shall be subject to the provisions of this section.

(a) **Continuation.** A nonconforming use of land may be continued as long as it remains otherwise lawful, subject to the following provisions:

1. Any structure associated with such use shall not be enlarged or increased more than ten (10) percent, nor the use extended to occupy an area of land greater than ten (10) percent than was occupied on the effective date of this article;

2. If such a use ceases for any reason for a period of more than twelve (12) consecutive months, any subsequent use of such land shall conform to the requirements of this Development Code for the regulatory zone in which it is located; and

3. The storage of inoperable vehicles in contravention to the provisions of the Development Code shall not be considered a nonconforming use and shall be required to conform to the provisions of this Development Code.

(b) **Adding New Uses or Structures.** When a nonconforming use exists on any lot, no new use or structure shall be established or built on such lot unless the lot area, dimensions and yards provided for each existing and proposed use or structure conform to the requirements of this Development Code for the regulatory zone in which the lot is located.

(c) **Change to Another Nonconforming Use.** A nonconforming use of land shall not be changed to another nonconforming use of land.
Section 110.904.25 Nonconforming Use of a Structure. The nonconforming use of a structure shall be subject to the provisions of the section.

(a) Continuation. A nonconforming use of a structure may be continued as long as it remains otherwise lawful, subject to the following provisions:

(1) A structure devoted to a nonconforming use shall not be enlarged more than ten (10) percent, extended, constructed, reconstructed, moved or structurally altered;

(2) Any structure in which a nonconforming use is superseded by an allowed use shall thereafter conform to the regulations for the regulatory zone in which such structure is located, and the nonconforming use may not thereafter be resumed;

(3) Any nonconforming use may be extended throughout such parts of a structure as were manifestly arranged or designed for such use at the time of adoption of this article, but no such use shall be extended to occupy any land outside such structure;

(4) When a nonconforming use of a structure is discontinued or abandoned for twelve (12) consecutive months, the structure shall not thereafter be used except in conformance with the regulations of the regulatory zone in which it is located; and

(5) When a nonconforming structure has been partially or totally destroyed, the nonconforming use of the structure may be rebuilt provided a building permit is acquired within six (6) months of the damaging event.

(b) Adding New Structures. When a nonconforming use exists in any structure, no new use or structure shall be established or built on the lot where the structure is located unless the lot area, dimensions and yards provided for each existing and proposed use or structure conform to the requirements of this Development Code for the regulatory zone in which the lot is located.

Section 110.904.30 Nonconforming Structure. A nonconforming structure shall be subject to the provisions of this section.

(a) Continuation. Any nonconforming structure may be continued as long as it remains otherwise lawful, subject to the following provisions:

(1) Such structure may not be enlarged more than ten (10) percent or altered except as specifically provided for by this section;

(2) If the use ceases for any reason for more than twelve (12) consecutive months, any subsequent use of the structure shall conform to the requirements of the Development Code for the regulatory zone in which it is located;

(3) If a structure is partially or totally destroyed, the nonconforming use of the structure may be rebuilt, provided a building permit is acquired within six (6) months of the damaging event;
Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the regulatory zone in which it is located;

Such structure may be remodeled or repaired provided that the cost of such remodeling or repair is not more than fifty (50) percent of its replacement cost and that the structure is not enlarged more than ten (10) percent, as it existed at the time of adoption or amendment of this Development Code;

Nothing in this article shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any County or state official charged with protecting the public health or safety, upon order of such official; and

On any property whose boundary was adjusted on or before June 13, 1981, a nonconforming structure which exists and is in nonconformance when this ordinance is adopted, and which is subsequently destroyed or removed from the property may be replaced by a structure appropriate to the same use within six (6) months.

(b) Adding New Uses or Structures. When a nonconforming structure exists on any lot, no new use or structure shall be established or built on such land unless the lot area, dimensions and yards provided for each existing and proposed use or structure conform to the requirements of this Development Code for the regulatory zone in which the lot is located.

Section 110.904.35 Nonconforming Development. A nonconforming development shall be subject to the provisions of this section. Existing conforming buildings or uses whose off-street parking and loading do not conform to the provisions of this Development Code may be expanded or have facilities added, and one conforming use may be changed to another, provided that the requirements for off-street parking and loading spaces are complied with in accordance with Article 410.

Section 110.904.40 Replacement Cost. In the absence of proof to the contrary, replacement cost as used in this article shall mean the assessed value of the building or structure at the time of the destruction.

Section 110.904.45 Nonconforming Public Use. Additions, extensions or alterations may be made to any nonconforming public use including, but not limited to, schools, parks, libraries and fire stations, if the addition, extension or alteration meets the provisions of this section.

(a) Expansion. The addition, extension or alteration shall not extend beyond the boundaries of the site in existence when the use became nonconforming.

(b) Parking. The addition, extension or alteration shall not infringe upon any off-street parking required by this Development Code.

Section 110.904.50 Historic Building, Structures or Sites. Notwithstanding any other provisions of this article, a building, structure or site which is listed on the National Register of Historic Places or the State Register of Historic Places shall be allowed to continue to exist and be repaired, restored or reconstructed as long as it complies with federal and state regulations and statutes regarding historic buildings, structures and sites. The building, structure or site may be expanded upon approval of a special use permit.
Section 110.904.55  Illegal Lots and Use of Structures and Land within a Sphere of Influence. The creation of a lot, or the use of a structure or land, that occurred in contravention to the provisions of Section 110.106.30 and which was created prior to November 29, 1993 shall be considered an illegal use and not subject to the provisions of this article.

[Amended by Ord. 1447, provisions eff. 9/9/10.]

As there may be procedures and remedies specific to a type of activity being regulated, if a specific provision in another code or regulation conflicts with a specific provision in this article, the other specific provision shall prevail but otherwise, provisions in another code or regulation shall be read together as supplements to the provisions in this article.

(b) Prohibition; Public Nuisance. Erecting, operating or maintaining any property or structure contrary to the provisions of a development regulation shall be and is hereby declared to be unlawful and a public nuisance. [Amended by Ord. 1501, provisions eff. 11/2/12.]

**Section 110.910.15 Enforcement Procedures.** The following procedures shall apply to enforce the provisions of any development regulation

Section 110.912.20 Appeals to the Board of County Commissioners of a Decision by the Board of Adjustment, the Planning Commission, Hearing Examiner or Other Deciding Body. Except as specifically provided elsewhere in the County Code (such as appeals of master plan decisions by the Planning Commission), this section applies to appeals of decisions of the Planning Commission, the Board of Adjustment, a hearing examiner, or other deciding body.

(a) Time for appeal; form, fees, stay of decision.

(1) A person aggrieved by a decision of the Board of Adjustment, the Planning Commission, a Hearing Examiner, or an administrative enforcement official or a hearing officer following the provisions of Article 910 of the Development Code whose decision is not otherwise appealable (the “deciding body”) may appeal the decision to the Board of County Commissioners.

(2) The appeal must be in writing and delivered to the Planning and Development Division within 10 calendar days from the date that the

(4) The Division may follow up to require the appeal to be on certain forms and/or to obtain more information. The appellant must submit the forms or supply the additional information within 14 business days after written notification by the Division. Failure to do so within this time frame invalidates the appeal submission. The appellant must submit a new appeal containing the original material, and the additional information requested, within 14 business days of written notice that the original application was incomplete. When the Division deems the appeal complete and the fees have been paid, it shall process the appeal as provided herein.

(5) Fees for the appeal are authorized by NRS 278.3195(2)(g) and may be set by resolution of the Board of County Commissioners.

(b) Scheduling of Hearing; notice.

(1) Scheduling a hearing. Under NRS 278.3195(2)(d)(2), a decision must be rendered on the appeal within 60 days from when the Division deems the appeal to be complete, and the County Clerk shall schedule a public hearing on the appeal accordingly.

(2) Notice. Notice for the public hearing before the Board of County Commissioners shall be the same as the required notice set out in the Development Code for the proceeding being appealed. For example, if there is an appeal of a decision to deny a special use permit, then notice for the appeal hearing shall be the same as in WCC Section 110.804.20 for the underlying special use permit. Other than notice to the appellant, notice is not required for the appeal of administrative enforcement decisions that are affirmed or denied by the appellate body.

(3) Panels. The Board of County Commissioners may appoint two or more of its members to serve as a panel to hear the appeal and render a decision that would be binding on the Board of County Commissioners. Each appointment shall select which commissioner is to preside over the proceeding, include instructions as to voting rights and requirements, indicate whether or not decisions of the panel may be appealed to the whole Board of County Commissioners, and include any other procedural matters deemed important to the Board of County Commissioners.
(4) **Record on Appeal; Prehearing Procedures.**

(i) At least 20 days before the hearing, the Division shall prepare a record on appeal including the written appeal, the written decision or action order being appealed, draft minutes or recording of the proceeding leading to the decision being appealed, the staff report and all materials submitted to the deciding body in connection with the hearing. The original shall be filed with the County Manager’s Office and a copy shall be provided to the appellant for use and reference at the hearing before the Board of County Commissioners.

(ii) The Chairman of the Board of County Commissioners or the presiding officer of the panel may:

1. Issue subpoenas compelling witnesses to appear at the hearing;
2. Require and oversee prehearing procedural matters, including prehearing conferences, discovery proceedings, briefing schedules, and evidence assembly and marking; and
3. Agree to stipulated continuances or other scheduling matters.

(5) **Hearing procedures; evidence.** At the hearing, the Board of County Commissioners:

(i) May consider the matter de novo or as an appeal limited to determining if the deciding body abused its discretion;

(ii) Shall afford all parties an opportunity to respond and present relevant and non-repetitious evidence and arguments on all issues being decided on appeal (even if it is new evidence);

(ii) Shall hear public comment on the matter being heard; and

(iv) Shall view the record on appeal and all evidence, testimony, documents, information and arguments introduced at the hearing.

(6) **Burden of persuasion; standards of review and final decision by Board; judicial review of Board’s decision.**

(i) **Burden of Persuasion.** Decisions of the Board of Adjustment, Planning Commission or Hearing Examiner, or an administrative enforcement official or a hearing officer are presumed to be reasonable and lawful, and it is the burden of the appellant to persuade the Board of County Commissioners otherwise.

(ii) **Findings.** On appeal, the Board of County Commissioners may review the findings made by the deciding body and may affirm, reverse, modify or apply a different interpretation to any finding.
Unless otherwise required by a specific provision in statute or code relating to the type of matter being appealed, the Board of County Commissioners is not required to make specific findings.

(iii) **Guiding Policy.** In reviewing the decision, the Board of County Commissioners shall be guided by the statement of purpose underlying the regulation of improvement of land expressed in NRS 278.020 [NRS 278.3195(2)(f)].

(iv) **Possible actions; vote required.** On a majority vote of all its members, the Board of County Commissioners may affirm, reverse, or modify the decision of the deciding body. If the decision being appealed is the denial of a building permit, special use permit, variance, master plan amendment, regulatory zoning amendment, or other entitlement, the Board of County Commissioners may either remand the matter back to the deciding body with instructions or may directly grant the building permit, special use permit, variance or other entitlement if properly agendized under the open meeting law and subject to NRS 278.220 for master plan amendments.

(v) **Memorandum of Decision.** A memorandum of decision shall be prepared by and filed with the County Clerk and mailed to the appellant, and when filed and mailed, the decision of the Board of County Commissioners is final for purposes of judicial review.

(vi) **Judicial Review of BCC Decision.** A person aggrieved by the decision of the Board of County Commissioners may file a petition for judicial review within 25 days of the filing of the Memorandum of Decision with the County Clerk.

Section 110.920.15  General Definitions for Floodplain Management.  Unless otherwise specified, the following definitions shall be applicable for floodplain management purposes:

**Basement.** “Basement” means any area of the building having its floor subgrade (below ground level) on all sides.

**Existing Fabricated Home Park or Subdivision.** “Existing fabricated home park or subdivision” means a fabricated home park or subdivision for which the construction of facilities for servicing the lots on which the fabricated homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date (August 1, 1984) of the floodplain management regulations adopted by Washoe County.

**Expansion of an Existing Fabricated Home Park or Subdivision.** “Expansion of an existing fabricated home park or subdivision” means the preparation of additional sites by the construction of facilities for servicing the lots on which the fabricated homes are to be affixed (including the
installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads.

**Fabricated Home Park or Subdivision.** “Fabricated home park or subdivision” means a parcel (or contiguous parcels) of land divided into two or more fabricated home lots for rent or sale.

**Fabricated Home Park Site.** “Fabricated home park site” is the entire tract of land used for a fabricated home park.

**Fabricated Home Space.** “Fabricated home space” is the area in a fabricated home park that is rented or leased to the occupant or occupants of a fabricated home.

**Highest Adjacent Grade.** “Highest adjacent grade” means the highest natural elevation of the ground surface next to the proposed walls of a structure prior to construction.

**Lowest Floor.** “Lowest floor” means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure (usable solely for parking of vehicles, building access or storage) in an area other than a basement area is not considered a building’s lowest floor, provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements.

**Manufactured Home.** “Manufactured home” is a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term “manufactured home” does not include a “recreational vehicle.”

**New Construction.** “New construction” means, for the purposes of determining insurance rates, structures for which the “start of construction” commenced on or after the effective date of the initial Flood Insurance Rate Map (FIRM) or August 1, 1984, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, “new construction” means structures for which the “start of construction” commenced on or after the effective date of the floodplain management regulation adopted by Washoe County (August 1, 1984) and includes any subsequent improvements to such structures.

**New Fabricated Home Park or Subdivision.** “New fabricated home park or subdivision” means a fabricated home park or subdivision for which the construction of facilities for servicing the lots on which the fabricated homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by Washoe County (August 1, 1984).

**Recreational Vehicle.** “Recreational vehicle” is a vehicle which is:

1. Build on a single chassis;
2. Four hundred (400) feet or less when measured at the largest horizontal projection;
3. Designed to be self-propelled or permanently towable by a light duty truck; and
4. Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel or seasonal use.
Special Flood Hazard Area. “Special flood hazard area” is the land in the floodplain within a community subject to a one (1) percent or greater chance of flooding in any given year. The area may be designated as Zone A on the Flood Hazard Boundary Map (FHBM). After detailed ratemaking has been completed in preparation for publication of the flood insurance rate map, Zone A usually is refined into Zones A, AO, AH, A1-30, AE, A99, AR, AR/A1-30, AR/AE, AR/AO, AR/AH, AR/A, VO, or V1-30, VE, or V. For purposes of these regulations, the term “special flood hazard area” is synonymous in meaning with the phrase “area of special flood hazard.”

Start of Construction. “Start of construction” includes substantial improvement, and means the date the building permit was issued provided the actual start of construction, repair, reconstruction, rehabilitation, addition placement, or other improvement was within one hundred eighty (180) days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of pipes, the construction of columns, or any work beyond the stage of excavation; or the placement of a fabricated home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure. “Structure” means a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a fabricated home.

Substantial Damage. “Substantial damage” means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred.

Substantial Improvement. “Substantial improvement” means any reconstruction, rehabilitation, addition, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure before the “start of construction” of the improvement. This term includes structures which have incurred “substantial damage,” regardless of the actual repair work performed. The term does not, however, include either:

1. Any project or improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or

2. Any alteration of a “historical structure” provided that the alteration will not preclude the structure’s continued designation as a “historic structure.”

Violation. “Violation” means, for floodplain management purposes, the failure of a structure or other development to be fully compliant with Washoe County’s floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in Article 416 is presumed to be in violation until such time as that document is provided.
