

MAP 6

Cultural Resources and Sensitive Landscapes

Cultural and historic resources are represented on this map through data provided by the State Historic Preservation Office, the Bureau of Land Management and County data sources. The expected resource areas are based on consultation with professionals and experts on cultural resources and help us understand where resources are likely to be found. Because of the sensitivity of cultural resources, exact locations are not included. The Cultural Grid data shown on this map indicates that a known resource has been documented within that one-mile square. The polygons showing prehistoric, historic and both resources are based on consultation with regional experts and also indicate a general area of cultural resource presence. These locations show only known areas. There are very likely many more sites and resources that have yet to be documented.
