9. Consideration and possible adoption of a policy for Environmental Health Services (EHS) and Air Quality Management fee relief or mitigation for entities affected by disasters and emergencies. – (Item was tabled for further discussion)

Staff Representative: Kevin Dick

Mr. Dick explained that he had produced this staff report as a follow up to action taken following the flooding in Lemmon Valley in which the decision was made to not collect fees for some of the properties impacted by the flood. He stated that he had been requested at that time to bring back a policy for the Board to consider regarding how the Health District should manage any fee relief or mitigation in the event of disasters or emergencies.

Mr. Dick summarized his proposed policy, in which the Health District would not provide any relief or mitigation for fees unless the jurisdiction in which the property or business was located agreed to reimburse the Health District, or, in the event a third party was willing to reimburse the Health District for the fee.

Mr. Dick informed that part of the consideration in this policy was that, while the Lemmon Valley flooding was certainly a disaster and hardship for those residents, it was fairly restricted as to the location and extent of the damage. He stated that future events could involve an entire region which would exceed the Health District’s capability to effectively mitigate fees.

Mr. Dick informed that the Health District is currently receiving funding support through a Washoe County General Fund transfer, and depending on where the properties were actually impacted, opined that this scope of mitigation would be above and beyond the Health District’s responsibilities.

Dr. Hess inquired the cost of the fees in question, and opined that the larger fees could place an additional hardship on a home or business owner. Mr. Dick informed that the fees range from several hundred to several thousand dollars.

Mr. Delgado agreed with Dr. Hess, and stated that persons without proper insurance to pay for repairs and fees could be burdened to the point of losing their home. He opined the policy to possibly be too strict.

Vice Chair Novak referred to Mr. Dick’s comment that a large portion of the Health District budget is received from Washoe County, and inquired if possibly a policy should be considered between Washoe County and the Health District for mitigation of fees.

Vice Chair Novak stated that he agrees in many ways with the policy as it is written due
to potential consequences for a wide spread emergency or disaster. He informed that he would like to table this item for further discussion of a policy with the jurisdictions and investigation of a mechanism or process for appeals but expressed his concerns regarding the Board’s capacity to address a large number of individuals seeking to appeal the District’s charges for services. He inquired if Mr. Dick was agreeable to this action.

Mr. Dick stated that he was agreeable, and that he was open to suggestions from the Board Members.

Vice Chair Novak moved to table this item for Consideration and possible adoption of a policy for Environmental Health Services (EHS) and Air Quality Management fee relief or mitigation for entities affected by disasters and emergencies for further investigation. Dr. Hess seconded the motion which was approved four in favor and none against.

Vice Chair Novak inquired of Ms. Admirand, since this item had been tabled, if the Board is required to hear public comment. Ms. Admirand informed that when a motion is made it is an action item, and instructed Vice Chair Novak to ask the Clerk if there is any public comment at this time.

As there was no one wishing to speak, Vice Chair Novak closed the public comment period.

10. *Staff Reports and Program Updates

A. Air Quality Management, Charlene Albee, Director
Program Update, Divisional Update, Program Reports

Mr. Inouye stated that the Board approved Air Quality Management’s commitment to the Wildland Fire Air Quality Response Program at the March DBOH Meeting. He informed that Ms. Julie Hunter has been trained as an Air Resource Advisor (ARA) and that she had been deployed to wildfires in New Mexico and Colorado.

Ms. Hunter introduced herself as a Senior Air Quality Specialist with the Washoe County Health District Air Quality Management Division.

Ms. Hunter stated that she had been deployed to the Ute Fire in New Mexico and the 416 Fire in Colorado. She explained that an ARA is a part of the Wildland Fire Air Quality Response Program led by the USDA Department of Forest Service, and that the Program was developed to assess, communicate and address smoke risks from massive fire incidents.

Ms. Hunter detailed the components to this Program and explained her duties as an ARA were to use the air quality monitoring and modeling equipment to analyze and predict smoke impacts and to communicate the impacts to Incident Command, local agencies and the public.

Ms. Hunter explained the monitoring equipment they deploy measures the fine particulate matter that is the major component of wildfire smoke. The equipment uses satellite service to populate air quality index data on maps as shown in her presentation, noting that these maps are available to the public.

Ms. Hunter informed that ARAs are part of Incident Command and work in the Planning Section in collaboration with the Incident Meteorologist, Fire Behavior Analyst and others. These groups work together, examining each group’s models to better determine smoke impacts, incorporating Ground and Air Operations reports.

Ms. Hunter explained that with the Modeling and Monitoring instruments, the ARAs provide the previous air quality index as well as the forecasted air quality index for the
impacted communities. She spoke of the Outlook software displayed in her presentation and explained that it is specific to the ARA Program, that it is updated daily and populated with air quality monitoring data, and that health warnings and safety information are also displayed.

Ms. Hunter detailed the avenues of communication for the data they collect, and informed that the success of an ARA depends on the coordination and cooperation of the whole Incident Command Team working with the Emergency Operations Center in the local communities to providing consistent messaging.

Ms. Hunter stated the benefits she bring back to the Division as an ARA include her working knowledge of the Incident Command System and experience with the modeling and monitoring tools that are being used for local impacts. She informed that AQM is looking into the Outlook products and has tried to incorporate some of that messaging into their messaging. Ms. Hunter stated that consistent messaging is important throughout the nation on managing smoke impacts and that her experience supports and supplements planning for Exceptional Event Demonstrations, Mitigation Plans and AQM’s Smoke Management Program.

Ms. Hunter informed that she would like to thank for the record Truckee Meadows Fire District, thanking Chief Moore who was present for sponsoring her as well as Captain Bunn, also present, who went out of their way to help her. She thanked the Air Quality Management Division and Ms. Albee and Mr. Inouye specifically for their support, as well as the District Board of Health for approving and supporting her role as an Air Resource Advisor.

Dr. Hess inquired what the air quality forecast for the next ten days would be. Ms. Hunter informed that smoke impacts would be great, especially with the Carr Fire which increased from 4,500 to 20,000 acres overnight. She informed that, with the fires in northwest California and southwest Oregon, there will be significant smoke in the area for the foreseeable future and that they have been consistently messaging to stay indoors, run the air conditioner and to avoid exercise or exertion outdoors.

Mr. Brown stated that air quality control is a consistent effort and is not limited to the fire season. He informed that Ms. Hunter is one of the leaders that have been working with land managers for the past several years and spoke of plans for more prescribed fires to reduce fuel loads in the desert and forest.

Mr. Brown expressed he is very happy that Ms. Hunter does such a fine job in her role to the benefit of the community overall, and thanked her for the work she does.

B. **Community and Clinical Health Services, Steve Kutz, Director**

**Divisional Update – Changes to CCHS Programs; Medicaid Enrollment Assistance; Data & Metrics; Program Reports**

Mr. Kutz commented that, in regards to the changes in the CCHS Programs, they have been doing what they can with the limited resources available to them and that this has been a difficult change to make in relation to the Maternal Child Health Program. He stated that, while CCHS knows this program to be important, the changes were made to best serve the community and do what is best for the Division as a whole.

As part of the Plan, Do, Check, Act process, Mr. Kutz informed that the changes CCHS is making will be evaluated, assessing impact to staff, programs and the community.

Mr. Kutz stated that CCHS had their second outing to the Detention Facility at the Washoe County Sheriff’s Office and served approximately ten women at this visit, providing Long Acting Reversible Contraceptives. He informed that the partnership is
going very well between CCHS and the Sheriff’s Office and that the women are appreciative and excited for this opportunity.

Mr. Westom informed that the EHS Team has been very successful in streamlining the Health plan review processes and the turn-around time is reduced to a week or less; the average completion time for the various plans are now posted on Health District website.

Mr. Westom stated that Chair Jung requested EHS approach the Washoe County Board of County Commissioners regarding $180,000 in additional funding for mosquito abatement after the June DBOH Meeting where he reported on a proposed mosquito abatement program. He informed that Mr. Dick had more information for the Board.

As far as requesting additional funds for mosquito abatement, Mr. Dick wished to inform the Board that the Health District is pleased to have ended FY18 with a higher than anticipated fund balance as shown in the financial report from June 2018. He explained that, because of this ending fund balance, his intention is to support the mosquito abatement needs with Health District funds versus going to the Board of County Commissioners for an additional fund transfer at this point.

Along with this expenditure for mosquito abatement, Mr. Dick informed that the Health District will be identifying and proposing to the Board during the November Strategic Planning meeting other one-time investments in the District and for the community’s benefit to be funded by a portion of the ending balance.

The Festival was quite successful with approximately five hundred persons served. Services available were immunizations, BMI assessment, blood pressure and skin cancer screening, Healthy Smiles and distribution of back-to-school materials and information. He informed that there is another FHF being planned for October or November.

Vice Chair Novak requested an updated on Accreditation. Mr. Dick obliged by informing that the Health District is on track to submit all documents for review on October 1st. He explained that there will be a site visit within six months after the October 1st document submission to PHAB.

Dr. Hess expressed concern that this item could be brought back on a future agenda.
