Try your skills at Bocce at the new Renaissance Reno Downtown Hotel, overlooking the beautiful Truckee River.

Bocce consists of eight large balls and one smaller target ball called a pallino. A match is conducted between two players or in teams of up to four. The pallino is tossed to the opposite side of the court and players take turns bowling their larger balls trying to get as close to the pallino as possible. The player or team with the closest ball gets the point.
