PUBLIC HEALTH NURSE SUPERVISOR

DEFINITION

Under general supervision, supervises professional nursing staff and paraprofessional employees who provide public health nursing services; plans, develops, manages and implements public health nursing programs for communities, families and individuals; and performs related work as required.

EXPERIENCE AND TRAINING REQUIREMENTS

A bachelor's degree from an accredited college or university in nursing AND three years of public health nursing experience.

LICENSE OR CERTIFICATE

A valid license to practice as a Registered Nurse in the State of Nevada is required at the time of appointment.

A valid driver's license is required at the time of appointment.

Must obtain Office Lab Assistance Certificate within 3 months of appointment, depending on area of assignment.

May be required to achieve and maintain valid CPR and First Aid certifications, depending on area of assignment.

DISTINGUISHING CHARACTERISTICS

This is the supervisory level in the Public Health Nurse classification series. It is distinguished from the Public Health Nurse II by its responsibility for supervision of professional, paraprofessional and support staff. In addition, incumbents perform sensitive, complex program management or specialist assignments.

SUPERVISION EXERCISED

Exercises direct supervision over professional, paraprofessional and support staff.

EXAMPLES OF DUTIES (The following is used as a partial description and is not restrictive as to duties required.)

Supervise assigned professional and paraprofessional staff, including interviewing and selecting staff; provide staff training in proper work methods and techniques; assign and review work; conduct performance evaluations; implement discipline and conflict resolution procedures when necessary.

Schedule, coordinate and monitor assigned clinic/public health programs by evaluating compliance with regulations, procedures and protocols, staff efficiency and client utilization to ensure that operational and agency goals and objectives are being met.

Develop, implement, evaluate and modify public health programs (including policies, procedures and protocols) by collecting, analyzing and interpreting program data including statistical, narrative and anecdotal reports, staff
input and other information to determine that programs meet community needs, grant and regulatory requirements.

Develop/write grant applications and related documents including needs assessments, program methodologies, and personnel and funding requirements to be submitted to funding entities for consideration; maintain required records and reporting to ensure that funding requirements continue to be met; reapply for grants as necessary to maintain funding for public health programs; responsible for budget oversight of assigned programs.

Manage special projects and activities by delegating work assignments, tracking status, monitoring progress and paperwork; present findings to management, making and justifying recommendations.

Interface and collaborate with county departments, public and private community agencies, expanding the scope and reach of public health programs and services to promote and improve the health and well-being of the client population.

Represent the agency on community boards and committees to acquire/provide information and respond to questions concerning projects, programs and activities of assigned programs.

Investigate complaints from clients regarding service received, determining the facts and circumstances of the complaint, and taking appropriate action to achieve a satisfactory resolution of the problem.

Recommend expenditures, projecting and justifying program needs for equipment, supplies and staffing to assist in budget development.

Complete CLIA waived and moderate complexity testing as required.

Ensure that assigned personnel perform duties and responsibilities in a safe and prudent manner that does not expose them or others to unnecessary harm or risk of on-the-job injury.
