PLANS EXAMINER

DEFINITION

Under general supervision, reviews construction plans and specifications for completeness and compliance with building codes, state laws and local ordinances; performs related work as required.

EXPERIENCE AND TRAINING REQUIREMENTS

Two years of experience as a building inspector; OR one year of experience as a plans examiner; OR an equivalent combination of training and experience.

LICENSE OR CERTIFICATE

A valid driver’s license is required at the time of appointment.

Must possess the following International Code Council (ICC) certifications or recognized equivalent certifications at the time of application:

- Building Plans Examiner (B3)
- Residential Building Inspector (B1)

Must obtain the following International Code Council (ICC) certifications or recognized equivalent certifications within 12 months of appointment:

- Residential Electrical Inspector (E1)
- Residential Mechanical Inspector (M1)
- Residential Plumbing Inspector (P1)

SUPERVISION EXERCISED

Exercises no supervision.

EXAMPLES OF DUTIES (The following is used as a partial description and is not restrictive as to duties required.)

Review construction plans, specifications and applications for building permits by checking parameters on building design, heating, ventilation and insulation to ensure completeness and conformance with applicable building and safety codes (e.g., plumbing, electrical, mechanical and fire).

Answer technical questions relating to building codes and county polices to assist the public and contractors with the construction process.

Research technical manuals to ensure compliance of new and/or alternate materials listed on plans.

Assist Building Inspectors by providing technical advice and answering technical questions.

May assist Building Inspectors with field inspections to ensure compliance with existing codes.

Meet with contractors, architects, engineers and other government agencies to review and make corrections on projects ensuring compliance with building codes and expediting the plan review process.
Code data for tracking building permits and coordinating the plan review process with other government agencies.

Analyze plans, construction drawings, and blueprints to identify potential hazards, project consequences of proposed actions and make appropriate recommendations and decisions to implement an effective resolution.

Prepare letters providing explanations of plan corrections or denials and technical interpretations of building codes.

**JOB RELATED AND ESSENTIAL QUALIFICATIONS**

**Full Performance** *(These may be acquired on the job and are needed to perform the work assigned.)*

**Knowledge of:**
Departmental/division policies and procedures.

Washoe County ordinances and building codes.

Computer software specific to the department/division.
