TECHNOLOGY SYSTEMS TECHNICIAN I

DEFINITION

Under general supervision, provides technical assistance to customers in response to inquiries and requests for service; assists users in the use of computer hardware and software. Installs software and assists with preventive maintenance and inventory control of computer equipment; and performs related work as required.

EXPERIENCE AND TRAINING REQUIREMENTS

An associate’s degree from an accredited college or university in information technology or a closely related field; OR two years of full-time experience in a technology position; OR an equivalent combination of related education and experience.

LICENSE OR CERTIFICATE

A valid driver's license is required at the time of appointment.

DISTINGUISHING CHARACTERISTICS

This is the entry level in the Technology Systems Technician class series, which provides for progression to the next level upon meeting the requirements of the class and recommendation of the appointing authority. This level is limited in scope to support duties such as working the helpdesk, installing software, hardware and peripherals, and basic troubleshooting of user problems and inventory control of equipment. This class is distinguished from the Technology Systems Technician II by the latter having responsibility for the full range of support duties which includes directly meeting with users for the installation of hardware and peripherals, equipment repair, basic diagnostics and research and development for department needs.

SUPERVISION EXERCISED

Exercises no direct supervision.

EXAMPLES OF DUTIES (The following is used as a partial description and is not restrictive as to duties required.)

Provide helpdesk support for all Washoe County technology products and services by answering customer questions, troubleshooting problems and routing requests to the appropriate staff.
