and event locations to reduce the potential for illicit and potentially terror related activities. After the DVD presentation Mr. Smith introduced the northern Nevada Center Commander, Lt. Tim Kuzanek.

During the ensuing discussion it was noted that the DVD is not copyrighted and that it is hoped the presentation will be used on local community access channels (e.g., SNCAT - Sierra Nevada Community Access Television). Other discussion noted that to date only one (1) objection and concern about wrongly identifying a tourist activity with a suspicious activity had been received. The remaining 499 calls about the process were supportive with 300 of those 500 calls seeking a copy of the presentation.
