VVPAT AUDIT

All of the ICX Prime Voting Tablets listed were audited by the Accuracy Certification Board (ACB) on Saturday, November 10th. The VVPAT Audit (NAC 293.255) requires that at least 2% or 20 voting machine's paper audit trails be reviewed for accuracy (whichever is greater). Our ACB chose to audit 24 machines to review.

This is done by scanning the QR codes for each copy of the ballot cast. Those are totaled and compared to the print-out from the results flash drive. The ACB also reviews at least two sets of individual votes cast visually and compares that to the VVPAT to make certain the QR code for each ballot choices are being accurately reflected.

No errors were found.

- **Michael Chavez** – Front Office and Correspondence Manager
- **Brian Takemoto** – Technology Services (Responsible for everything)
- **Dan Simpson** – Technology Services (survived our madness for the second time)

Registrar of Voters

THANK YOU:

- To Technology Services for the incredible support we received for this General election. We would not have made it through the 2 week Pre-LAT process, early voting, or election day without them supporting us again.
- County volunteer poll workers – they are the cream of the crop
- Our Volunteer poll workers – who work so hard to ensure the integrity of our electoral process
- Early Voting poll workers – who endure two grueling weeks with a smile and eager to come back time and again to serve our community
- All the departments that came together to lend their assistance to our office to ensure that the General Election was a success!
- To our voters who appeared to vote to make this Mid-Term General election the highest Mid-term turnout we have had in the last 20 years.
