

Make Your Own Snowy Owl

Materials:

- Pine cone
- Cotton balls
- Glue
- Googly eyes
- Pipe cleaners

Directions:

1. Pull apart or “fluff” your cotton balls. This will make it easier to put the cotton balls in between the pine cone.

2. Using your glue, put dots of glue starting at the bottom of the pine cone. Use the cotton balls you have fluffed and stick them on the glue and inside of the pine cone.

3. Repeat step 2 on the rest of the pine cone, moving from the bottom to the top.

- Once you have completely stuffed your pine cone, use the pipe cleaners to make two wings and place them on both sides of your pine cone. (If you don't have pipe cleaners you can also use a blank sheet of paper to make white wings and attach with glue!)

- Use your glue to attach your googly eyes.

- Now use the pipe cleaners again to make a beak and attach it to the owl pine cone. (You can use paper again for this!)

- Now you have your own snowy owl!
