AARP Network of Age-Friendly/Livable Communities

Membership in the network means is that a community's elected leadership has made the commitment to actively work toward making their town, city or county a great place for people of all ages.

BACKGROUND
The AARP Network of Age-Friendly Communities is an affiliate of the World Health Organization's Age-Friendly Cities and Communities Program

- Includes more than 20 nations, more than 1,000 communities
- Includes over 200 US Age Friendly/Livable Communities
- Uses best practices, research-based models to improve the livability of communities for people age 50+ and their families.
- Allows elected officials and community leaders to change their communities to become great places for everyone to live.

THE 8 DOMAINS OF LIVABILITY - Once a community joins the network, they organize a steering committee to identify one or more of these areas to work on to improve livability in their community

- Outdoor spaces and buildings
- Transportation
- Housing
- Social participation
- Respect and social inclusion
- Civic participation and employment
- Communication and information
- Community support and health services

PROCESS
- AARP facilitates the community's enrollment via a simple application and guides them through implementation and assessment process.
- AARP provides many free resources and support through printed materials and aarp.org/livable or the AARP Public Policy Institute
• **Planning Phase – Year 1-2** - Form community steering committee that does assessment and develops action plan – ex: Mayor's Blue Ribbon Operation Downtown Committee

• **Implementation and Evaluation Phase – Years 3-5** – Steering committee submits action plan for review and endorsement by WHO/AARP; implement plan; send progress reports

• Program emphasizes both the built and the social environment. AARP Network of Age-Friendly/Livable Communities program provides many tools for local leaders to change their communities into great places for everyone to live

---

**THE BENEFITS OF MEMBERSHIP**

Reno becomes part of a global network of communities that are committed to giving their older residents the opportunity to live rewarding, productive and safe lives.

Reno also improves its STAR Community rating in the “Aging in Community” category.

Age-Friendly/Livable Communities have

• Access to a global network of participating communities, as well as aging and civil society experts
• Access to key information, such as the latest news and information about best practices, events, results, challenges and new initiatives
• Opportunities for partnerships with other cities, both domestic and international
• Mentoring and peer-review evaluation by member cities
• Public recognition of the community’s commitment to become more age-friendly
• Speaking engagements at conferences and events hosted by AARP and promotion through AARP’s media channels
Date: June 6, 2018

To: Mayor and City Council

Thru: Sabra Newby, City Manager

Subject: H.1. Staff Report (For Possible Action): Resolution No. Resolution to support initiatives and opportunities to engage in world health organization age-friendly cities and communities network.

From: Rick Caldeira, Chief of Staff to the Mayor

Summary: This resolution is to show support for initiatives and opportunities to engage in the world health organization age friendly cities and communities’ network. The purpose is to encourage and promote public policies to increase the number of cities and communities that support health aging.

Financial Implications: None at this time.

Legal Implications: Legal review completed for compliance with City procedures and Nevada Law.

Recommendation: Staff recommends Council adopt Resolution No._________.

Proposed Motion: I move to adopt Resolution No.________.
RESOLUTION NO.

RESOLUTION TO SUPPORT INITIATIVES AND OPPORTUNITIES TO ENGAGE IN THE WORLD HEALTH ORGANIZATION AGE-FRIENDLY CITIES AND COMMUNITIES NETWORK.

WHEREAS, the global population of people aged 60 and over is expected to grow from 600 million in 2000 to almost 2 billion by 2050; and

WHEREAS, in the United States, the population of people aged 65 and over is expected to grow from 35 million in 2000 to 88.5 million by 2050, taking the total share of the 65 and over population from 12 percent to 20 percent of the total population; and

WHEREAS, research shows that older Americans overwhelmingly want to remain in their homes and communities as they age; and

WHEREAS, access to quality health care and long-term services and supports is essential for individuals to live in their homes and communities; and

WHEREAS, of the 80 percent of adults 65 and older living in metropolitan areas, 64 percent live outside the principal cities of these areas in suburban locations that tend to be auto-dependent, creating challenges for residents who do not drive; and

WHEREAS, 21 percent of adults age 65 and older do not drive, and more than half of these non-drivers do not leave home on a given day, in part because they lack transportation options; and

WHEREAS, reduced mobility for older non-drivers leads to 15 percent fewer trips to the doctor, 59 percent fewer shopping trips and visits to restaurants, and 65 percent fewer trips for social, family and religious activities; and

WHEREAS, the World Health Organization (WHO) has developed a Global Network of Age-Friendly Cities and Communities to encourage and promote public policies to increase the number of cities and communities that support healthy aging and thereby improve the health, well-being, satisfaction, and quality of life for older Americans; and

WHEREAS, active aging is a life-long process, whereby an age-friendly community is not just "elder-friendly" but also intended to be friendly for all ages; and
WHEREAS, the WHO has noted that “[m]aking cities and communities age friendly is one of the most effective policy approaches for responding to demographic ageing,” and

WHEREAS, the WHO has developed eight domains of community life that influence the health and quality of life of older people:

1. Outdoor spaces and buildings – accessibility to and availability of clean, safe community centers, parks, and other recreational facilities;
2. Transportation – safe and affordable modes of private and public transportation, “Complete Streets” types of initiatives, hospitable built environments;
3. Housing – wide range of housing options for older residents, aging in place and other home modification programs, housing that is accessible to transportation and community and health services;
4. Social participation – access to leisure and cultural activities; opportunities for older residents to participate in social and civic engagement with their peers and younger people;
5. Respect and social inclusion – programs to support and promote ethnic and cultural diversity, programs to encourage multigenerational interaction and dialogue, programs to combat loneliness and isolation among older residents;
6. Civic participation and employment – promotion of paid work and volunteer opportunities for older residents; opportunities for older residents to engage in formulation of policies relevant to their lives;
7. Communication and information – promotion of and access to the use of technology to keep older residents connected to their community and friends and family, both near and far; and
8. Community support and health services – access to homecare services, clinics, programs to promote active ageing (physical exercise and healthy habits); and

WHEREAS, the WHO recognizes that towns, cities and communities have different needs, resources, and varying capacities to engage their resources to take action to facilitate active aging; and

NOW, THEREFORE, BE RESOLVED that the City of Reno supports initiatives and opportunities to engage in the WHO Age-Friendly Cities and Communities Network of municipalities encouraging and promoting public policies supporting healthy ageing.

Upon motion by Councilmember ________________, and seconced by Councilmember ________________, the foregoing Resolution was passed and adopted this ______ day of ________________, 2018, by the following vote of the Council:

AYES: ____________________________________________

NAYS: ____________________________________________

ABSTAIN: ____________________________________________ ABSENT: ____________________________________________
APPROVED this _____ day of ______________, 2018.

HILLARY SCHIEVE
MAYOR

CITY CLERK
The AARP Network of Age-Friendly Communities: An Introduction

As the U.S. population ages and people stay healthy and active longer, communities must adapt.

Well-designed, livable communities promote health and sustain economic growth, and they make for happier, healthier residents — of all ages.

WHAT MEMBERSHIP IS AND ISN’T
Communities in the AARP age-friendly network are not retirement villages, gated developments, nursing homes or assisted living facilities.

Membership in the network does not mean that the community is, currently, "age-friendly" or a great place to retire.

Membership in the network is not an endorsement by AARP. What membership does mean is that a community’s elected leadership has made the commitment to actively work toward making their town, city or county a great place for people of all ages.

BACKGROUND
The AARP Network of Age-Friendly Communities is an affiliate of the World Health Organization’s Age-Friendly Cities and Communities Program, an international effort launched in 2006 to help cities prepare for rapid population aging and the parallel trend of urbanization. The program has participating communities in more than 20 nations, as well as 10 affiliates representing more than 1,000 communities.

AARP’s ROLE
AARP’s participation in the program advances efforts to help people live easily and comfortably in their homes and communities as they age. AARP’s presence encourages older adults to take a more active role in their communities and have their voices heard. Initiatives focus on areas such as housing, caregiving, community engagement, volunteering, social inclusion and combating isolation among older citizens.

AARP works with local officials and partner organizations around the country to identify communities for membership in the Age-Friendly Network. (See the article “AARP Age-Friendly Communities Selection Criteria” for details.) AARP then facilitates the community’s enrollment and guides its representatives through the network’s implementation and assessment process.

Combined with the resources provided by AARP — either through aarp.org/livable or the AARP Public Policy Institute — the AARP Network of Age-Friendly Communities program supports AARP’s goal of being recognized by elected officials and others as a leading resource for how to improve the livability of communities for people age 50+ and their families.

The program emphasizes both the built and the social environment. The AARP Network of Age-Friendly Communities program is a tool that can be used by AARP staff and others to help local leaders prepare and ultimately change their communities to become great places for everyone to live.

THE BENEFITS OF MEMBERSHIP
Members of the AARP Network of Age-Friendly Communities become part of a global network of communities that are committed to giving their older residents the opportunity to live rewarding, productive and safe lives.

The benefits of membership include:

• Access to a global network of participating communities, as well as aging and civil society experts

• Access to key information about the program, such as the latest news and information about best practices, events, results, challenges and new initiatives

• Opportunities for partnerships with other cities, both domestic and international

• Mentoring and peer-review evaluation by member cities

• Public recognition of the community’s commitment to become more age-friendly

• Speaking engagements at conferences and events hosted by AARP and promotion through AARP’s media channels

There is no fee to join the AARP Network of Age-Friendly Communities.
AARP Network of Age-Friendly Communities
Program Cycle

STEP 1: ENTERING THE NETWORK

The purpose of the AARP Age Friendly Communities is to serve as a catalyst to educate, encourage, promote, and recognize improvements that make cities, towns, and counties more supportive not only of their older residents but for residents of all ages. Our intent is to provide American cities, towns, counties with the resources they need to become more age-friendly, tapping into national and global research, models, and best practices.

AARP’s Value Added

- Providing an understanding or definition of the issue/need for change (framing the issue);
- Providing an understanding of economic and social benefit of a more livable community;
- Resources on AARP.org/livable – Future Livability index (all phases)
- Success Criteria
- Streamlined admission into Network

STEP 2: PLANNING PHASE (Year 1-2)

This step has four elements:

- Establishment of mechanisms to involve older people throughout the Age-Friendly city cycle
- A baseline assessment of the age-friendliness of the city.
- Development of a 3-year city wide plan of action based on assessment findings
- Identification of indicators to monitor progress

AARP’s Value Added

- Decision making and organizational guidance
- Access to network of communities /Best Practices
- Assessment and survey Tools, identification of key community indicators
- Volunteer network to support/organize aspects of effort

STEP 3: IMPLEMENTATION & EVALUATION (Year 3-5)

On completion of the planning phase, and no later than two years after joining the Network, cities will submit their action plan to WHO for review and endorsement. Upon endorsement by WHO, cities will then have a three-year period of implementation.

At the end of the period of implementation, cities will be required to submit a progress report to WHO outlining progress against indicators developed in Phase 1.

AARP’s Value Added

- Evaluation tools
- Organized training and networking events
- Resources on AARP.org/livable
- Access to network of communities /Best Practices
- Volunteer network to support/organize aspects of effort

STEP 4: CONTINUOUS IMPROVEMENTS (Year 5+)

Upon completion of phase 3, cities will be able to continue their membership to the Network by entering into further implementation cycles.

AARP’s Value Added

- Access to network of communities /Best Practices
- Volunteer network to support/organize aspects of effort
- Resources on AARP.org/livable

A continuous cycle of improvement
AARP Network of Age-Friendly Communities Tool Kit

Step 1: Getting Started

Learn how your community can join the network

The Tool Kit

Learn how a town, city or county can join the AARP Network of Age-Friendly Communities:

- Introduction
- 1. Getting Started
- 2. Planning
- 3. Implementation
- 4. Evaluation
- 5. Connecting

Learn more about the age-friendly network and see the member list

Cities, towns and other localities in the AARP Network of Age-Friendly Communities program commit to improving their age-friendliness and submit to a rigorous membership assessment cycle.

Communities interested in joining the network are encouraged to contact their state AARP office. AARP state offices also work to identify cities, towns and counties AARP believes can commit to a continual cycle of improvement in the eight domains the World Health Organization (WHO) has identified as influencing the health and quality of life of older adults.

THE 8 DOMAINS OF LIVABILITY
The domains are listed and detailed below:

1. Outdoor spaces and buildings
2. Transportation
3. Housing
4. Social participation
5. Respect and social inclusion
6. Civic participation and employment
7. Communication and information
8. Community support and health services

- 8 Domains Slideshow
- 8 Domains World Health Organization Checklist
- 8 Domains Case Studies
- 8 Domains Resources

WORLD HEALTH ORGANIZATION RESOURCES
- World Health Organization Guide to Age-Friendly Cities (PDF)

- AgeFriendlyWorld.org

Indicators in the WHO domains that also reflect the social impact objectives of AARP include:

- Increasing awareness about what the age 50+ population needs in order to maintain active, healthy and productive lives where they live

- Fostering dialogue, knowledge and actions that support the development of age-friendly communities across the United States
Being an age-friendly community requires a commitment to a cycle of continuous improvements. The “Getting Started” phase of the program typically lasts one or two years.

INITIATING THE EFFORT

1. Obtain the political commitment of the community's elected officials
   This includes acquiring a written pledge by the community executive (the mayor, county commissioner, etc.) to commit to a continual cycle of improvement. This letter, along with a membership application, should be sent to the community’s AARP state office or the AARP representative the community has been working with. AARP will then advise the World Health Organization’s Global Network of Age-Friendly Cities and Communities.

   • To download the application and read examples of these letters and other expressions of commitment, see Preparing the Membership Materials

2. Organize stakeholders
   A successful age-friendly initiative is based on broad collaboration. An ideal group of stakeholders would include representation from non-profit organizations, businesses, government agencies and community partners and, of course age-50+ residents.
   For suggestions about whom to include, see:
   • List of Potential Stakeholders to Engage in Age-Friendly Community Efforts
     For examples of successful engagements, see the AARP presentations

   • Engaging Stakeholders: City of Des Moines: Creating Great Places for All Ages (PDF)

3. Conduct assessments to identify needs
   AARP has developed a survey that can be adapted by communities to help assess available resources and what residents view as important for successfully aging in place. The survey is designed to capture information consistent with the eight domains of a livable community as identified by the World Health Organization.
   • AARP Survey of Community Residents Ages 50 and Older

4. Establish an advisory committee that includes older adults
   AARP state office staff members and volunteers can can help.
   The ultimate goal of the AARP Network of Age-Friendly Communities is to increase the number of communities that support healthy aging, which will thereby improve the health, well-being, satisfaction and quality of life for older Americans. In an age-friendly community, policies, services, settings and structures support and enable people remain active as they age. This is achieved by:
   • Recognizing the wide range of capacities and resources among older people
   • Anticipating and responding flexibly to aging-related needs and preferences
   • Respecting the decisions and lifestyle choices of age 50+ people
   • Protecting and supporting older adults who are the most vulnerable
   • Promoting the inclusion and contributions of older adults in all aspects of community life
   And, because active aging is a life-long process, an age-friendly community is not just “elder-friendly.” Rather, an age-friendly community is friendly for people of all ages.

   • Evaluating Your Age-Friendly Community Program: A Step-by-Step Guide
     Use this resource when you're identifying indicators in your action plan

SUSTAINING

• Guiding Principles for the Sustainability of Age-Friendly Community Efforts
  Learn how to maintain ongoing success
HOW AGE FRIENDLY IS OUR COMMUNITY? We want your perspective about how to make our community better for everyone as we age.

CHOOSE YOUR TOP 5 AARP DOMAINS OF LIVABILITY FROM 1 TO 5 (1 is your top choice.)

___ Outdoor Spaces & Buildings  People have many public places to gather — green spaces, safe streets, sidewalks, trails, and accessible buildings for people of all ages.

___ Transportation  In addition to driving, we have public transit options like trains, trams, buses, and shared ride options that are accessible and affordable.

___ Housing  We have housing that is affordable and designed or modified so you can stay in your home as you get older.

___ Social Participation  Loneliness is as harmful as chronic illness or disease. Sadness and isolation are combated with accessible, affordable and fun social activities.

___ Respect & Inclusion  The community values everyone. Young and old learn from one another and honor what each has to offer.

___ Work & Civic Engagement  Older people can (if they choose) continue to work for pay, volunteer their skills and be actively engaged in community life.

___ Communication & Info  Information is disseminated through a variety of means, because not everyone has a smartphone or Internet access.

___ Community & Health Services  Everyone who becomes ill or simply needs some help can access and afford the services required.

RATE EACH FROM 1 TO 5 (5 IS THE MOST IMPORTANT TO YOU AND SENIORS IN THE COMMUNITY)
