1. Purpose and Intent of Agreement

1.1. The regional communications system was established and has been operated in accordance with the terms and provisions of the original Washoe County Regional Communications System Interlocal Agreement dated October 1999, henceforth which agreement was amended on July 1, 2002 and amended again in October 2014. The original agreement is due to terminate by its terms in October 2014. This is the Amended Interlocal Agreement, dated October 2014, between the County of Washoe, the Washoe County School District, the Nevada Department of Transportation, the City of Reno, the City of Sparks and the Truckee Meadows Fire Protection District, provides for the financing, continued development, and operation, and management of the Project 25 (P25) Washoe County Regional Communications System (WCRCS).

1.2. The participating agencies have operated and do now operate a trunked radio communication system for public safety and other services in the County of Washoe.

1.3. The participating agencies need to maintain and upgrade the existing radio communication system to address new technology requirements and aging/availability issues, radio coverage, mutual aid interconnection, etc., and recommended Washoe County enter into an agreement with the State of Nevada and Nevada Energy known as the Nevada Shared Radio System (“NSRS”) Agreement, which governs the process for purchase, and operation, and governance of the statewide P25 radio system which will replace the 800 MHz System.

1.3.1. To fulfill its duties to purchase its portion of the NSRS, Washoe County is financing the purchase with a combination of cash and the issuance of municipal bonds. The Partner Agencies who will use the system seek to assist the County in repaying the bonds in amounts proportional to the Agencies’ use and to describe the process by which they will do so.

1.4. Subject to the County’s duties under the NSRS, and its legal and fiscal control, the participating agencies desire to establish an operational and management structure that will provide the opportunity to participate in the ongoing administration and management of the system during the term of this Agreement.

1.5. It is believed that each of the participating agencies and the public will benefit if the participating agencies upgrade and/or expand the existing radio communication system as a joint effort, and the Joint Operating and Users’ Committees are established by this Agreement, and imbued with duties and responsibilities as described herein.

1.6. NRS 277.180 provides that public agencies may contract to perform any governmental service, activity, or undertaking.

1.7. Nothing in this Agreement is intended to lessen the participating agencies’ jurisdictional authority over, and responsibility for, events occurring within their jurisdictions.

NOW THEREFORE, THE PARTIES HERETO AGREE AS FOLLOWS:

2. Definitions
2.1. “Participating Partner agencies” shall refer to those public sector organizations who, at the time this Agreement is adopted, participate in the WCRCS.

3. Regional Public Safety Trunked Radio Communications System Goals

The original goal of the Washoe County Regional Communications System (WCRCS) was to replace non-public safety and public safety agencies’ existing radio communication systems throughout Washoe County with a modern, trunked radio system.

3.1. The goals of the WCRCS signatories to this Agreement are to:

3.1.1. Provide effective and reliable radio communications for routine intra-agency operations as well as inter-agency communications throughout the region during mutual aid and disaster operations.

3.2. Facilitating mutual aid is a goal of the WCRCS. Consequently, talk groups on the trunked system will be established to support inter-agency communications.

3.3. A goal of the WCRCS is to design the trunked radio system to support the requirements of participating public safety and non-public safety agencies.

3.4. A goal of the WCRCS is to extend the jurisdiction of the governance established by this agreement to other systems, in order to provide effective, reliable, and continuously up-to-date communications for routine intra-agency operations as well as inter-agency communications throughout the State of Nevada during mutual aid and disaster operations to the fullest extent possible.

4. P25 System WCRCS Participating Partner agencies

4.1. All participating and sponsored agencies may own and provide for the maintenance, repair, and replacement of their own end user equipment (mobile/portable radios, desktop base stations, dispatch consoles, etc.).

4.2. As part of implementing this agreement, participating agencies shall co-license or transfer any currently allocated Public Safety frequencies to the County of Washoe for use in the WCRCS. Any new licenses for Public Safety frequencies to be utilized for the P25 System will be co-licensed to the County.
4.3. No actions by any of the participating agencies may be so broad in nature that they negatively affect or impact the legal integrity of the participating agencies.

5. Additional Participants

5.1. As system capacity permits, the P25 System Joint Operating Committee, upon the recommendation of the P25 System Users Committee, may recommend approval of other agencies joining the WCRCS-P25 System on a case-by-case basis subsequent to the date of adoption of this Agreement using the application process described in this Section. See current agency listing, attached hereto and incorporated herein as Exhibit C.

5.2. Priority consideration shall be given to agencies with licensed, public safety/non-public safety frequencies that can be co-licensed or transferred to the P25 System, if such action can result in enhanced radio communications capabilities for all participants.

5.3. The one-time costs and the ongoing annual costs for new agencies joining the P25 System are identified within Section 12 and 13 of this Agreement.

5.4. Any Party or agency may apply to the P25 System to increase its use and related obligations in the P25 System for the purpose of sponsoring a private provider into the P25 System. Such an application is subject to a review process as described below, subject to the recommendations of the P25 System Users Committee, and finally subject to the discretion of, and any approval conditions imposed by, the P25 System Joint Operating Committee. Applications that offer to provide physical resources, particularly licensed public safety/non-public safety frequencies that can be co-licensed or transferred to the P25 System, shall be given preference if approval of all or part of such an application can produce enhanced radio communication capabilities for all Parties and agencies.

5.5. An application shall include descriptive, technical, property, and cost information concerning the requested increase as well as all helpful documentation. The application shall also include information about the private provider’s principals and its business, as well as a copy of the related draft contract between the sponsoring Party or agency and the private provider. This draft contract, submitted with an application, must contain provisions for adequate insurance from and indemnifications by the private provider, and further contain warranties that the private provider (i) understands that its proposed participation in the P25 System is indirect, only as sponsored by the Party or agency, only as approved, and confers no third party beneficiary rights to it under the Agreement; (ii) has read the Agreement and agrees to abide by its terms and conditions, as amended from time to time, as well as these rules, regulations, and policies issued under the P25 System; and (iii) understands and agrees that it cannot serve as a member of nor...
have any vote in the P25 System WCRCS.

5.6. Washoe County Technology Services (“WCTS”) shall promptly review applications and prepare its recommendations for approval or rejection, in whole or in part, and any cost apportionments, taking into consideration the impact of the requested increase in use upon the P25 System WCRCS. WCTS shall request that the application be placed upon the agenda of the next P25 System Users Committee meeting, to be scheduled pursuant to Paragraph 10.4 of this Agreement, and distribute copies of the application and recommendations to all committee members as soon as practicable prior to the meeting. The Chairman of the P25 System Users Committee will then request that the matter be scheduled for consideration at the earliest possible P25 System Joint Operating Committee meeting pursuant to Paragraph 9.8 of this Agreement. Failure to so notify WCTS within ninety (90) calendar days of such P25 System Joint Operating Committee meeting shall constitute automatic rejection by the sponsoring Party or agency of the P25 System Joint Operating Committee’s approval. If the sponsoring Party or agency timely notifies WCTS that it accepts the approval, then that Party or agency shall promptly deliver to WCTS a copy of the final, executed contract between the sponsoring Party or agency and the private provider, and shall further take all reasonable steps without unnecessary delay to satisfy the terms and conditions of approval as defined by the P25 System Joint Operating Committee. 14.3. Refund of Section 14.1 Payments.
