Quinn Korbulic – Washoe County Technology Services, noted that on March 27, 2018, the BCC (Board of County Commissioners) approved the 911 surcharge fee increase from 25 cents to 85 cents for mobile and landline access and to $8.50 per trunk line thus requiring a modification to the 2018-2019 budget. Mr. Korbulic drew attention to the split in revenues for 911 expenses and portable recording device expenditures. The two are then added together to reflect the total fund balance. Mr. Korbulic explained that if necessary the funds can be moved from one expense column to the other with costs
being based on the requirement set-forth in the 5-year Master Plan. Additionally, the budget anticipates increased travel/training expenditures as well as consideration and costs of a back-up call taking centers. Mr. Korbulic explained that any residual monies are available as part of the equipment capital budget. The 911 Emergency Response Advisory Committee would have review and approval authority of any expenditures.

Responding to member Hansen’s inquiry about whether any items were eliminated from the budget, Mr. Korbulic stated that nothing was cut or eliminated from the proposed budget and that this body would have final approval authority for the use equipment capital funds.
