Recommendation to approve a recommendation to the Board of County Commissioners to fund additional minutes for the Code Red Reverse 911 System, [$5,000], and to reimburse for costs incurred by adding additional minutes for CodeRed in FY20, [$5,000], for a total not to exceed [$10,000]. During two of the last three years, CodeRed usage has exceeded contractually allowed usage and therefore has incurred additional costs. This request reflects a change in Washoe County’s contract with OnSolve, Inc. that increases the available reverse 911 message minutes by 50,000 to 100,000. The annual contract also increases from $10,000 to $15,000.

Per the 911 Emergency Response Advisory Committee’s approval on March 3rd, 2020, Washoe County has already paid $10,000 to OnSolve, Inc. for Reverse 911 Services to cover the period from September 2020, to September 2021.

PREVIOUS ACTION

The E-911 Committee has approved expenses related to CodeRed reverse 911 annually, since 2012.

BACKGROUND

The Washoe County region retired the stand alone “reverse 911” dialing systems located in the dispatch centers operated by the City of Sparks and the City of Reno in 2006. The systems were replaced by a “service provider, reverse 911” system in 2006 to ensure the region continued to have the ability to alert and warn citizens of emergencies.

The system chosen by the emergency managers was City Watch. The system was funded each year in the amount of $10,000 by the E-911 Committee and provided 20,000 minutes of “reverse-911” calls. The system is accessed by first responders and public safety officials
through the three Dispatch PSAPs. It is administered by the Washoe County Office of Emergency Management and Homeland Security.

In 2012, City Watch was acquired by Code Red. Because Code Red is a much larger company, with many more resources, the pricing for a region the size of Washoe County can cost as much as $70,000. In return for converting exclusively to Code Red, Washoe County region was offered service at the existing rate of $10,000.

**FISCAL IMPACT**

The Enhanced 911 Fund is a special revenue fund which receives revenue pursuant to NRS 244A.7643 in the form of telephone surcharges collected to support the emergency reporting system. Sufficient budget authority exists in the proposed FY21 budget for the Enhanced 911 Fund (208) in Enhanced 911 Admin (800801), Software Maintenance (710210).

**RECOMMENDATION**

Staff recommends that the 911 Emergency Response Advisory Committee recommend that the Board of County Commissioners approve the request to fund additional minutes for the Code Red Reverse 911 System in FY21, [$5,000], and to reimburse for costs incurred by adding additional minutes for CodeRed in FY20, [$5,000], for a total not to exceed [$10,000].

**POSSIBLE MOTION**

Should the Committee agree with staff’s recommendation, a possible motion would be: “Move to recommend that the Board of County Commissioners approve the request to fund additional minutes for the Code Red Reverse 911 System in FY21, [$5,000], and to reimburse for costs incurred by adding additional minutes for CodeRed in FY20, [$5,000], for a total not to exceed [$10,000].”
