6. Select your birth year by scrolling down to the appropriate year.
Example: If you were born in the year “1980”, scroll down until you find “1980” to select the year.

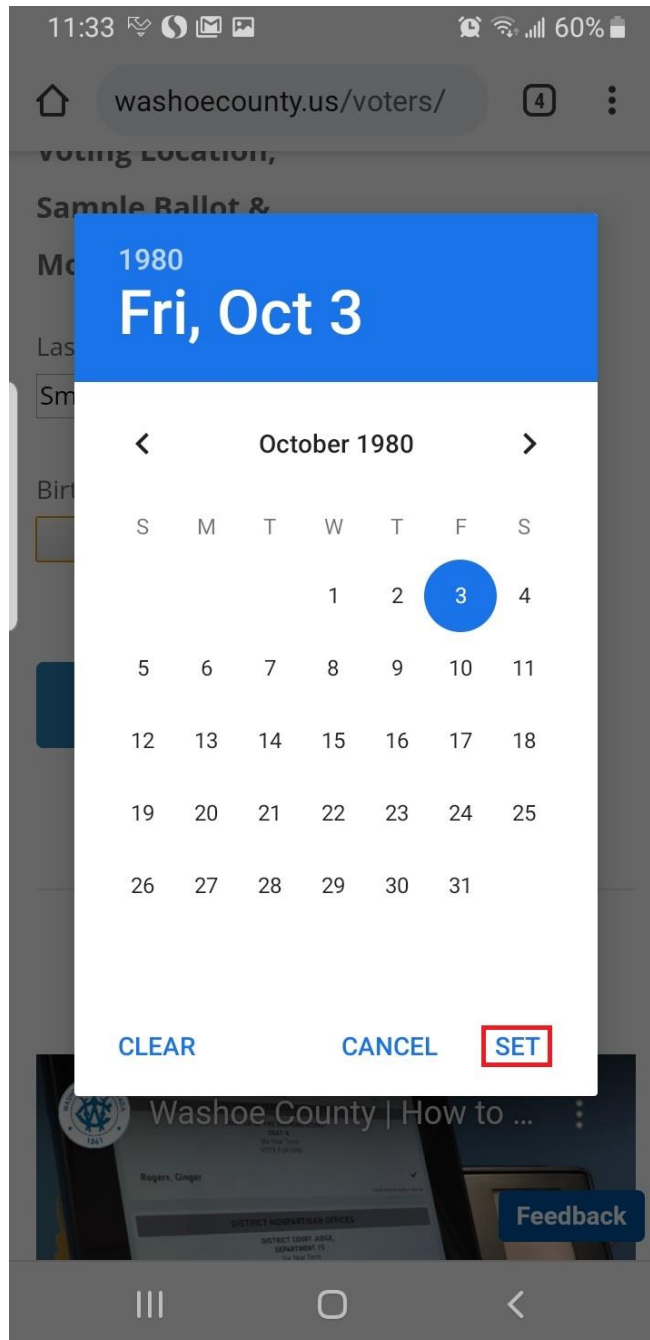

7. Tap Set

8. Select the month by tapping on either the left or right arrows. Select the day by tapping on the appropriate date below the month.
Example: If your birth month and day is October 3rd, set the month to October (year will remain the same since it has been set) then tap on the “3” to set it as October 3rd.

9. Tap Set

10. Tap Search. Your information will come up in the next page.
